

YES BANK LIMITED

DISCLOSURES UNDER THE BASEL III CAPITAL REGULATIONS

June 30, 2014

The RBI guideline on 'Basel III Capital Regulation' was issued on May 2, 2012 for implementation in India in phases with effect from April 1, 2013 and to be fully implemented by March 31, 2019. YES Bank is subject to the RBI Master Circular on Basel-III Capital Regulations, July, 2013. The Basel III framework consists of three-mutually reinforcing pillars:

- Pillar 1 - Minimum capital requirements for credit risk, market risk and operational risk
- Pillar 2 - Supervisory review of capital adequacy
- Pillar 3 - Market discipline

Market discipline (Pillar 3) comprises a set of disclosures on the Capital Adequacy and Risk Management framework of the Bank. Pillar 3 disclosures as per RBI master circular on Basel-III Capital Regulations are set out in the following sections for information.

1. Capital Adequacy

The Bank has a sound and comprehensive policy and process for evaluating its overall capital adequacy commensurate with the overall risk profile, business projections and capital management strategies.

The Bank is subject to the Capital adequacy norms as per Master Circular on Basel-III Capital Regulations issued by the Reserve Bank of India ('RBI'). The Basel III capital regulation is being implemented in India from April 1, 2013 in phases and it will be fully implemented as on March 31, 2019. In view of the gradual phase-in of regulatory adjustments to the capital Components under Basel III, certain specific prescriptions of Basel II capital adequacy framework shall also continue to apply till March 31, 2018.

As at June 30, 2014, the capital of the Bank is higher than the minimum capital requirement as per Basel-III guidelines.

The Bank currently follows Standardized Approach for Credit Risk, Standardized Duration Approach for Market Risk and Basic Indicator Approach for Operational risk capital charge computation.

The Bank has a Board approved policy on Internal Capital Adequacy Assessment Process (ICAAP) as stipulated by RBI. The ICAAP also details the Risk Appetite of the Bank, assessment of material risks, the process for capital adequacy assessment to support business projections / risks for a period of 3 years, risk thresholds, adequacy of risk control framework, capital raising plans and Bank-wide stress testing.

The Bank has implemented a Board approved Stress Testing Framework which is also an integral part of the Bank's ICAAP. The Bank conducts Stress Testing on periodic basis to assess

the Bank's potential vulnerability to extreme but plausible stressed business conditions in various risk areas.

The periodic assessment of bank's performance against the Risk Appetite defined under ICAAP and results of stress testing are reported to Risk Monitoring Committee of the Board and the Board of Directors on quarterly basis for their review.

The integration of risk assessment with business processes and strategies governed by a robust risk management framework under ICAAP enables the Bank to effectively manage risk-return trade off.

₹ in Lacs

Capital adequacy	Standalone	Consolidated
A. Capital requirements for Credit Risk		
i. Portfolios subject to Standardized Approach	723,498	723,567

Total Capital Adequacy ratio	17.6%	17.6%

Risk Management Framework

YES BANK inculcates and nurtures a conscientious risk culture, underpinned by a clear governance structure, incorporating the 'Three lines of Defense'. The Bank has institutionalized a principled approach towards taking risks responsibly with a shared understanding of Risk Appetite which is embedded in the organization-wide controls.

The risk management framework at YES Bank is driven by a well informed and knowledgeable Board (comprising of several Independent directors) and Senior Management. The Board has the overall responsibility for risk management and risk strategies in the Bank. There are two Board level sub-committees (Risk Monitoring Committee and Audit Committee) to deal with risk management related specific matters and has delegated powers for different functional areas.

Risk Monitoring Committee is a Board level sub-committee and is an independent body that puts in place specific policies and procedures for managing Enterprise Wide Risk Management of the Bank, as per RBI's Guidance Note on the same.

Audit Committee is also a Board level sub-committee which oversees the internal audit and compliance function. The Internal audit function is responsible for the independent review of risk management and the control environment.

Senior Management Oversight

The following specialized committees comprising Top and Senior management personnel ensure oversight and effective implementation of the overall Risk Management Framework:

- **Management Credit Committee (MCC):** This committee comprises MD&CEO, CRO, Risk Heads, Business Heads and Product Heads and is responsible for approval of cases based on exposure and internal rating thresholds defined in the Board approved credit policy. It is also responsible for reviewing and recommending actions on rating trends, event based portfolio actions, thematic/sectoral reviews, reviews of stressed accounts/NPAs, credit policy related recommendations to the RMC/Board, etc.
- **Asset Liability Committee (ALCO):** The ALCO is a strategic decision making body, constituted by the Board. The Committee is headed by the Managing Director & CEO and comprises other senior executives of the Bank. It is responsible for recommending prudent Asset Liability Management policies to the Board to achieve the strategic goals of the Bank. ALCO is responsible for managing market risk, liquidity risks as well as capital position of the Bank from a strategic risk return perspective while operating in full compliance with existing regulatory guidelines.
- **Investment Committee:** The ALCO has set up an Investment Committee as its sub-committee comprising representatives from Financial Markets, Market risk, Credit risk and Finance. The Investment committee is responsible for overall investment strategy in Financial Markets.

- **Operational Risk Management Committee (ORMC):** ORMC, chaired by the CRO, comprises top management from Operations, Business and Support Units. The Committee is responsible for development, implementation and monitoring of the Operational Risk Management Framework, review of risk profile and Key Risk Indicators of Units and review Operational Loss and events suffered by the Bank.
- **Fraud and Suspicious Transaction Monitoring Committee (FASCOM):** This committee chaired by the MD&CEO comprises top management including the CRO, COO, Head of Audit, President HCM, General Counsel, and several other key personnel from Client Relationship groups, Product Management and Operations. The committee is responsible for reviewing aspects relating to frauds / suspicious transactions and identifying corrective actions and additional controls, wherever necessary
- **Information Technology Security Council:** This committee, chaired by the CRO, act as a central representative body of all business functions to jointly discuss and resolve issues related to Information Security within YES Bank. The Council reviews and approves information security policy and takes decisions basis the evolving risks and threats applicable to the Bank.
- **Outsourcing Management Committee (OMC):** This committee is chaired by the CRO and is responsible for management of risk arising out of outsourcing activities.

Risk Management Unit at YES BANK

The Risk Management Department (RMD) is delegated specific responsibilities of managing the risk in the Bank by the RMC. The Risk Management Department is headed by the Chief Risk Officer (CRO) who leads the Credit Risk Unit, General Legal Counsel and Risk Control Units. The CRO reports to the MD&CEO. Credit Risk Unit is responsible for evaluating, rating and underwriting credit under respective Credit Risk Heads. The Risk Control Units such as Market Risk, Operational Risk, Enterprise Risk Management Unit, Information Security, Portfolio Analytics Unit, Credit Risk Control Unit, Credit Mid Office and Risk Containment Unit are responsible for independent review, monitoring and reporting of all risk control parameters and to take appropriate corrective actions where necessary. These units under the supervision of Chief Risk Control Officer(s) (CRCOs) are also responsible for ensuring compliance to internal policies and regulatory guidelines. The CRCOs report directly to the CRO.

Responsibility Profile of RMD

- a. **Chief Risk Officer (CRO):** The Chief Risk Officer (CRO) is responsible for the overall Risk Governance and Supervision. CRO ensures an effective implementation of an enterprise wide risk management framework and risk culture through various risk policies, processes, thresholds and controls that enables prompt risk identification, accurate risk measurement and effective risk mitigation. CRO is also responsible for risk compliance and monitoring as well as reviewing and presenting various risk reports, policies and dashboards to RMC and Board.

- b. **Chief Risk Control Officer (CRCO):** The CRCO is responsible for independent review, monitoring and reporting of all risk control parameters and for taking appropriate corrective actions where necessary. The CRCO is also responsible for ensuring compliance to internal policies and regulatory guidelines.
- c. **General Legal Counsel** is responsible for ensuring legal compliance of applicable laws, ensuring documentation entered into by the Bank is legally valid and enforceable; and filing and defending legal suits for and on behalf of the Bank.
- d. **Credit Risk Unit:** These units under the supervision of their respective Credit Risk Heads are responsible for screening/assessment of facilities/exposures on the potential borrowers, finalizing risk ratings and approving credit proposals as part of the Three Initials Approving System / Management Credit Committee. The Credit Risk Heads are also responsible for managing the overall segment portfolio and undertaking remedial actions/thematic reviews as required.
- e. **Risk Control Unit (s):** Independent unit(s) responsible for review, monitoring and reporting of all risk control parameters and taking appropriate corrective actions where necessary. The Units are also responsible for ensuring compliance to internal policies and regulatory guidelines. The various units are given below:
 - i. **Information Security Unit** - The Unit is responsible for ensuring compliance with and implementation of Information Security Management System and ensuring that sufficient measures are taken to protect the Bank's Information assets.
 - i. **Enterprise Risk Management Unit** - The Unit is responsible for BASEL II / III compliance, ICAAP, Risk Aggregation, RAROC and Bank wide Stress testing.
 - ii. **Operational Risk Unit** - The Unit is responsible for identification, assessment and monitoring of Operational Risk of the Bank including Outsourcing Risk and Business Continuity Preparedness. The unit shall support Capital Compliance in migration to advanced approaches under Operational Risk.
 - iii. **Market Risk:** Responsible for the independent market risk and liquidity risk analysis and monitoring. Key functions of the team involve Policy review, limits review, Risk Modeling and Analytics, Basel II / III implementation towards Interest Rate Risks in Trading as well as Banking Book, Liquidity Risk, Counterparty Credit Risk in Financial Market products.
 - iv. **Portfolio Analytics Unit (PAU)** - The Unit is responsible for monitoring the entire credit portfolio across all segments including monitoring of early warning signals, identifying portfolio trends and generating portfolio level MIS covering various credit quality indicators across various business units of the Bank. The unit is also responsible for scorecard development /implementation/testing for retail / program based lending.
 - v. **Credit Risk Control Unit (CRCU)** - The Unit is responsible for independently reviewing the Bank's credit policies and programs, conducting industry studies and

determining industry outlook. The credit rating model (IRS) and related policies are also managed and enhanced on a continual basis by this team. It is also responsible for the Bank's migration to IRB approach under Credit Risk.

- vi. **Credit Mid Office (Credit Admin)** - The Unit is responsible for implementing the Credit administration policies, procedures and post sanction monitoring of the asset portfolio with respect to covenants / documentation. Responsible for reporting of the status of Borrower documentation/securities perfection. The Units also ensures compliance with regulatory guidelines on the credit proposals and adherence to internal systems & controls for operational risk management and compliance.
- vii. **Risk Containment Unit** - The Unit is responsible for proactive fraud anticipation & control, diagnostics / interpretation and resolutions for the Bank's SME and retail business segments. The unit is further responsible for implementation of adequate measures to avert fraud and improving process transparency for the minimization or elimination of frauds to the largest extent possible. The Unit is also responsible for preparing regular reports on fraud control through both financial and non financial means, and managing various vendor agencies responsible for fraud control.

2. Credit Risk -

Credit Risk Management Objectives, Processes and Structure (CRM):

The **Credit Risk Management Department (CRMD)** within the RMD consists of the Credit Risk Unit and the following Risk Control Units:

- Portfolio Analytics Unit (PAU)
- Credit Risk Control Unit (CRCU)
- Credit Administration Unit
- Risk Containment Unit.

The main role and responsibilities of CRMD includes:

- a. Measuring, controlling, reviewing and managing credit risk on Bank-wide basis within the limits set by the Bank's Board of Directors/RMC/ RBI.
- b. Enforcing compliance with the credit risk parameters and credit exposure/ concentration limits set by the Board of Directors/ RMC/RBI.
- c. Laying down credit risk assessment systems and developing MIS, monitoring quality of loan/ investment portfolio, identifying problems, correcting deficiencies and undertaking loan review/audit.
- d. Conducting a complete risk analysis of the proposed obligor/ facility before approval of the credit.

- e. The CRMD is also responsible for monitoring the quality of the entire loan/ investment portfolio and undertaking portfolio evaluations and conducting comprehensive studies to test the resilience of the loan portfolio.

Policies & Processes

The Bank's Credit Policy, approved by the Board, outlines the credit risk governance framework. The objective of the Bank's Credit Policy is to build and maintain a quality portfolio with sound and well-diversified credit risk distribution. Credit Risk Management is an important tool for achieving this objective, as it helps the Bank to:

- Take informed credit decisions based on an adequate assessment of the relevant risk factors
- Screen credit proposals and assume only such credit risk that is acceptable to the Bank to ensure better credit quality
- Optimise the risk return trade-off by providing guidelines for securing return commensurate with the risk involved in the credit
- Ensure diversification of the credit portfolio through various Board approved limits thus avoiding concentration in credit exposures to individual/ group borrowers, industry/ sector, credit rating, etc
- All these limits are monitored continually and reported to Senior Management on monthly basis and to the RMC/Board on quarterly basis

Risk identification and assessment is the first step in the credit risk management system. In case of wholesale segment, credit risk inherent in credit proposal is assessed by evaluating the below mentioned risk factors among others:

- **Financial Risk:** This would include an assessment of the entity's overall financial strength based on performance and financial indicators, as derived from its financial statements - historical and projected
- **Business Risk:** This entails an analysis of the fundamentals of the business unit, its competitive market position in the industry and its operational efficiency
- **Industry Risk:** This would include an evaluation of the competition/ entry barriers, industry cyclicity/outlook, regulatory risk/government policies and other contemporary issues
- **Management Risk:** This involves evaluation of the management of the enterprise, their risk philosophy, competence and past track record
- **Project Risk:** This involves evaluation of any significant project being undertaken by the company and its impact on the financials of the company.
- **Conduct of Account:** This involves evaluation of the credit behavior of the client with the bank

The credit proposals are examined in depth by the sanctioning authorities, under the "three initial system" of sanction. The creditworthiness and assessment of credit requirement are evaluated and determined in line with the risk rating of the borrower and the credit facilities are sanctioned accordingly.

Credit Proposals beyond a certain threshold are sanctioned by a Management Credit Committee which comprises the MD & CEO, Chief Risk Officer, Heads of Business & Risk.

In case of retail assets segment, the Bank has various products programs in line with the relevant product needs of customers. The product programs generally address areas such as customer segmentation, exposure ceilings, approval authorities, exception reporting and risk assessment parameters like acceptable loan-to-value, maximum tenor & financial parameters. The product programs are cognizant of relevant regulatory guidelines, internal credit policy, market dynamics, bank's activities etc.

Credit Risk Identification, Measurement, Monitoring and Reporting

The credit risk management function is largely centralized for both credit approvals and disbursements. It is well structured and staffed to ensure that the credit policy and regulatory requirements are adhered to and implemented. Post sanction, an independent Credit Administration unit is responsible for ensuring that the credit policy guidelines and terms of sanction are adhered to.

The Bank has a risk rating system comprising multiple models that assign credit ratings to customers. The models are categorized into Corporate, Financial and Project models which assign ratings to the borrowers based on financial data, industry characteristics, business positioning, project characteristics and other non financial parameters. Model Validation is carried out by objectively assessing the discriminatory power and stability of ratings. All the models have defined hurdle rates, and lending to borrowers below the hurdle rate requires specific approvals as per the Credit Policy of the Bank. The core banking system is used to control and monitor utilization of limits under various products by customer and is also the repository for information on past dues and excesses. There is also a post disbursement tracking system that is used for monitoring appraisal conditions, financial covenants, documentation status etc.

The borrowers are reviewed at least on an annual basis. The analysis carried out during annual review would reflect not only the performance of the company but also the conduct of the account.

Credit Monitoring involves follow-up and supervision of the Bank's individual loans as well as the entire loan portfolio with a view to maintain the asset quality at the desirable level, through proactive and corrective actions, aimed at controlling and mitigating the risks to the Bank. The main objectives of Credit Monitoring are:

- (a) To ensure compliance with the terms and conditions of the credit sanctioned
- (b) To ensure the end-use of the Bank funds by the borrowers as per the approved purposes and prevent diversion of the funds for unauthorized purposes
- (c) To assess the health of the obligor at periodic intervals with reference to the key indicators of performance such as activity level, profitability, management standards
- (d) To identify early warning signals, if any, in individual accounts and initiate effective steps to mitigate the risk to the Bank, in consultation with the Segment Head and Risk Management Department
- (e) To periodically review the loan portfolio of the Bank or of its specified segment to assess the overall asset quality/ risk and compliance with the prudential norms

For retail banking borrowers, controls in loan underwriting are as enumerated in the respective product programs which are approved by the Bank's Product Program Approval Committee (PPAC) comprising Business, Risk, Compliance, Technology & Strategy leadership. Moreover, for granular lending cases where risk decision making is decentralized, the Bank practices hindsighting of the approved cases for the preceding quarter.

Policies for Mitigating Credit Risk

Security management is instrumental in mitigating credit risk. It involves creation of enforceable charge over the borrower/third party assets in favour of the Bank, proper valuation/storage/maintenance and insurance of the securities so charged at regular intervals, in order that the Bank's advances/loans remain fully covered by the realizable value of the securities charged to it. Further, the charged securities are valued at periodic intervals and stipulated margins are maintained at all times.

Definition and Classification of Non Performing Assets (NPA)

The Bank classifies its outstanding into performing and non-performing in accordance with the extant RBI guidelines.

A Non Performing Advance (NPA) is defined as a loan or an advance where:

- i. interest and/ or installment of principal remains overdue for more than 90 days in respect of a term loan. Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the Bank
- ii. a bill purchased/discounted by the Bank remains overdue for a period of more than 90 days
- iii. interest and/or installment of principal in respect of an agricultural loan remains overdue for two crop seasons for short duration crops and one crop season for long duration crops
- iv. the regular/ad hoc credit limits have not been reviewed/ renewed within 180 days from the due date/ date of ad hoc sanction
- v. the account remains 'out of order' in respect of an overdraft/ cash credit (OD/CC). An account is treated as 'out of order' if:
 - a) the outstanding balance remains continuously in excess of the sanctioned limit/drawing power, or
 - b) where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of the balance sheet or credits are not enough to cover the interest debited during the same period,
- vi. Drawings have been permitted in working account for a continuous period of 90 days based on drawing power computed on the basis of stock statements that are more than three months old even though the unit may be working or the borrower's financial position is satisfactory,
- vii. An account would be classified as NPA if the interest due and charged during any quarter is not serviced fully within 90 days from the end of the quarter,

viii. The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of guidelines on securitisation dated February 1, 2006

ix. In respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

The Bank's loan portfolio is classified into 4 categories of assets as per extant RBI guidelines as follows:

- Standard Assets: These are Performing assets (or Non- NPAs)
- Non-Performing Assets (NPAs):
 - Sub-standard Assets: i.e. an asset which remains irregular/out of order /overdue for more than 90 days and is classified as NPA for a period of 12 months from the date of such classification.
 - Doubtful Assets: i.e. an NPA that remains Sub-standard Asset for a period of >12 months,
 - Loss Assets: An asset that is identified as uncollectible and of such little value that its continuance as a bankable asset is not warranted although there may be some salvage or recovery value.

The Bank has established appropriate internal mechanism for prompt identification of NPA(s).

Reductions during the quarter	9,220
Closing Balance as at June 30, 2014	19,796
E. Movement of Provisions for NPAs	
Opening Balance as at April 1, 2014	14,886
Provisions made during the quarter	3,256
Write-offs of NPA provision	1,134
Write backs of excess provisions	1,493
Closing Balance as at June 30, 2014	15,515

NPI (Gross), Provision for NPI and Movement in Provision for Depreciation on investments - June 30, 2014

Particulars	₹ in Lacs
A. Amount of Non - Performing Investment (NPI)	1,654
B. Amount of provisions held for NPI	1,354
C. Movement of provisions for depreciation on investments	
Opening Balance as at April 1, 2014	11,107
Add/(Less): Provisions made during the quarter	(4,531)
Closing Balance as at June 30, 2014	6,576

3. Credit Risk: Portfolios subject to the Standardized Approach -

Ratings used under Standardized Approach

The Bank is using the ratings assigned by the following domestic external credit rating agencies, approved by the RBI, for risk weighting claims on domestic entities

- Credit Analysis and Research Limited (CARE)
- Credit Rating Information Services of India Limited (CRISIL)
- India Ratings and Research Private Limited (earlier known as Fitch India)
- ICRA Limited (ICRA)
- Brickwork Ratings India Pvt. Ltd
- SMERA Ratings Limited

The Bank is using the ratings assigned by the following international credit rating agencies, approved by the RBI, for risk weighting claims on overseas entities:

- Standard & Poor's
- Moody's
- Fitch Ratings.

Types of exposures for which each agency is used

The Bank has used the solicited ratings assigned by the above approved credit rating agencies for all eligible exposures, both on balance sheet and off balance sheet, whether short term or long term, in the manner permitted in the RBI guidelines on the New Capital Adequacy Framework (NCAF). While arriving at risk-weighted assets for credit risk under the standardized approach 'bank loan' ratings of the counterparty have been used. This would include Fund-based and Non-fund based facilities. In case of treasury facilities, the Bank has used 'Issuer' ratings of the counterparties, wherever available. In case the Bank does not have exposure in a rated issue, the Bank would use the issue rating for its comparable unrated exposures to the same borrower, provided that the Bank's exposures are pari-passu or senior and of similar or shorter maturity as compared to the rated issue. Further the lower rating, where there are two ratings and the second-lowest rating where there are three or more ratings are used in cases where multiple ratings for a given facility are considered.

Details of credit exposures* (funded and non funded**) classified by risk buckets

The table below provides the break-up of the Bank's net exposures* into three major risk buckets.

₹ in Lacs

Risk Weight Bands	Fund Based Exposure*	Non Funded** Exposure*
Below 100% risk weight	5,829,024	1,631,862
100% risk weight	3,288,696	1,132,980
Above 100% risk weight	638,426	127,769
Deducted	-	-
Total	9,756,146	2,892,611

*Represents book value as at June 30, 2014

**Non-fund based exposures are guarantees given on behalf of the constituents, Letter of Credits, acceptances and endorsements

Full Terms and Conditions of Regulatory Capital Instruments

(A) Common Equity Capital

Sr. No.	Criteria	Terms of Equity Shares of YES BANK
1	Voting shares	Equity shares of YES Bank are voting shares
2	Limit on voting rights	Limits on voting rights, if any, are applicable as per provisions of the Banking Regulation Act, 1949
3	Position in subordination hierarchy	Represent the most subordinated claim in liquidation of the Bank. The paid up amount is neither secured nor covered by a guarantee of the issuer or related entity nor subject to any other arrangement that legally or economically enhances the seniority of the claim.
4	Claim on residual assets	Entitled to a claim on the residual assets, which is proportional to its share of paid up capital, after all senior claims have been repaid in liquidation
5	Perpetuity	Principal is perpetual and never repaid outside of liquidation (except discretionary repurchases / buy backs or other means of effectively reducing capital in a discretionary manner that is allowable under relevant law as well as guidelines, if any, issued by RBI in the matter). The Bank does nothing to create an expectation at issuance that the instrument would be bought back, redeemed or cancelled, nor do the statutory or contractual terms provide any feature which might give rise to such an expectation.
6	Distributions	Distributions are paid out of distributable items (retained earnings included). The level of distributions is not in any way tied or linked to the amount paid up at issuance and is not subject to a contractual cap (except to the extent that a bank is unable to pay distributions that exceed the level of distributable items). Distributions are paid only after all legal and contractual obligations have been met and payments on more senior capital instruments have been made.
7	Loss absorption	It is the paid up capital that takes the first and proportionately greatest share of any losses as they occur. Within the highest quality capital, each instrument absorbs losses on a going concern basis proportionately and paripassu with all the others.
8	Accounting classification	The paid up amount is classified as equity capital. It is clearly and separately disclosed in the Bank's balance sheet.

9	Directly issued and paid-up	Shares are directly issued and paid up. The Bank cannot directly or indirectly fund the purchase of its own Equity shares
10	Approval for issuance	Paid up capital is only issued with the approval of the shareholders of the Bank, either given directly by the shareholders or, if permitted by applicable law, given by the Board of Directors or by other persons duly authorised by the shareholders.

(B) Innovative Perpetual Debt Instruments and Tier II capital

The Bank has been raising capital funds by means of issuance of Innovative Perpetual Debt Instruments (IPDI), Upper Tier II and Subordinated bonds. Instruments which are non compliant with the eligibility criteria set under Basel III Capital Regulations are phased out in computation of Tier 1 and Tier 2 Capital under the transitional provisions specified in RBI Master Circular on Basel-III Capital Regulations, July, 2013.

The details of IPDI, Upper Tier II and Subordinated Debt (Unsecured Redeemable Non-convertible Subordinated Bonds in the nature of Promissory Notes/Debentures), issued by the Bank and outstanding as of March 31, 2014 are given below.

Tier 1 Capital Instruments

1) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
Credit Rating	'LA +' by ICRA & 'CARE A+' (A Plus) by CARE
Issue Size	Rs. 116 crore including Green shoe option of Rs 66 Crore
Face Value/Issue Price	Rs 10,00,000/- per Bond
Minimum Application Size	1 Bond and in multiples of 1 Bond thereafter
Tenor	Perpetual
Coupon Rate	10.25% p.a
Interest Payment Frequency	Annual
Interest on application money	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
Interest Payment Date	21 st February of every year
Lock-in Clause	In terms of RBI Master circular no. DBOD.No.BP.BC.11/21.06.001/2008-2009 dated July 1, 2008, on Prudential Guidelines on Capital Adequacy and Market Discipline- Implementation of new Capital Adequacy Framework covering norms for raising of instruments eligible for inclusion under Tier-I capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in

1) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
	net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest shall not be cumulative.
Record Date	For interest payment Record Date would be 30 days prior to Interest Date. In case of exercise of Call Option record date shall be 10 working days prior to date of call option.

Seniority of Claim	The claims of the investors in Bonds being issued for inclusion in Additional Tier I capital shall be (a) superior to the claims of investors in equity shares of the Bank, (b) superior to the claims of investors in perpetual non-cumulative preference shares issued by the Bank, if any, (c) subordinated to the claims of depositors, general creditors and subordinated debt of the bank and (d) is neither secured nor covered by a guarantee of the issuer nor related entity or other arrangement that legally or economically enhances the seniority of the claim vis-à-vis bank creditors
Loss Absorbency clause at the occurrence of an Objective Pre-Specified Trigger Point.	The Perpetual Debt Instruments (PDIs) has ' Principal Loss Absorption ' feature as per RBI's Basel-III Capital Regulations, while the Bank remains a Going Concern. This Principal Loss Absorption feature shall be executed through Full / Partial Temporary Write-down or Full / Partial Permanent Write-off, which allocates losses to the Perpetual Debt Instruments (PDIs) at the Objective Pre-Specified Trigger Point as defined by RBI and mentioned below in the Objective Pre-Specified Trigger Point for

	<p>Loss Absorbency Clause</p> <p>The write-down will have the following effects:</p> <ul style="list-style-type: none"> (i) Reduce the claim of the Perpetual Debt Instruments (PDIs) in liquidation. (ii) Reduce the amount re-paid when a call is exercised. (iii) Partially or fully reduce coupon payments on the instrument. <p>Various criteria for Loss Absorption through write-down / write-off on breach of Objective pre-specified trigger per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
Objective Pre-Specified Trigger Point for Loss Absorbency Clause	The Pre-specified Trigger for Loss Absorption through Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off of the level of Perpetual Debt Instruments (PDIs) is fixed at Bank's Common Equity Tier-1 Ratio (CET1) of 6.125% of Risk Weighted Assets of the Bank.
Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	<ul style="list-style-type: none"> (i) The option for Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off to be exercised on breach of Objective pre-specified trigger vests with the Bank subject to conditions specified in RBI Basel - III Capital Regulations. (ii) If Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off option is exercised, it shall be exercised across all investors of this particular issue of Perpetual Debt Instruments (PDIs).
Limitations on Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	<ul style="list-style-type: none"> (i) The Full / Partial write-down can be allowed more than once in case the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial. (ii) The AT-I instruments (including this issue of Perpetual Debt Instruments (PDIs)) once Written-up can be Written-Down again.
Write Up Option	Available subject to conditions per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013
Loss Absorbency clause at the Point of Non-Viability of the Bank	The instrument has the following features exercisable at the option of the Reserve Bank of India, upon the occurrence of the 'Point of Non-Viability (PONV) Trigger: <ul style="list-style-type: none"> a. Temporary/permanent write-off, if there is no public

	<p>sector injection of funds.</p> <p>b. Permanent write-off if there is Public sector injection of funds.</p> <p>The amount of Perpetual Debt Instruments (PDIs) for temporary/permanent write-off will be determined by RBI.</p>
Point of Non-Viability (PONV) Trigger	<p>As per Basel-III Guidelines, the 'Point of Non-Viability (PONV) Trigger' event is the earlier of :-</p> <ol style="list-style-type: none"> a. A decision that a temporary/permanent write-off, without which the Bank would become 'Non-viable', is necessary, as determined by the Reserve Bank of India; and b. The decision to make a public sector injection of capital, or equivalent support, without which the Bank would have become 'Non-viable', as determined by the relevant authority. The write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. The AT-1 instruments (including this issue of Perpetual Debt Instruments) with write-off clause will be permanently written-off if there is public sector injection of funds. <p>The Trigger at PONV will be evaluated both at Consolidated and Solo level and breach at Either level will Trigger temporary/permanent write-off.</p> <p>The clauses related to the Loss Absorbency criteria, the process to determine 'PONV' and the operation of the clause in various circumstances are per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
Limits on Exercise of temporary/permanent write-off Option at the Point of Non-Viability of the Bank	<p>The write-down can be allowed more than once if the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial. The Perpetual Debt Instruments (PDIs) once written-up can be written-down again.</p>
Order of Write-down of Various Types of Regulatory Capital Instruments at Objective Pre-specified Trigger and PONV	<p>The Basel-III Compliant Perpetual Debt instruments shall be written-down in the order in which they shall absorb losses in a Gone Concern situation as per RBI guidelines / directives. The sequencing/ Ranking for Temporary write-down or Permanent Write-Off of various types of Basel-III</p>

Compliant Regulatory Capital instruments issued by the bank/ will be issued in future by the Bank is mentioned below:-

- a. In the event of occurrence of Loss Absorption Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV), the Common Equity Capital shall be written down first. The Common Equity Share holders shall rank paripassu amongst themselves for Loss Absorption.
- b. All the Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) qualifying as Additional Tier-1 instruments issued by the bank/to be issued in future by the Bank, which have Loss Absorption Clause at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV) as per the terms and conditions of the issue(s) shall rank *pari-passu* amongst themselves and hence shall be Temporarily written-down (Full/partial) or Permanently Written-Off (Full/partial) in *pari-passu* upon the occurrence of Loss Absorption Trigger Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV). The Write Down of PDI instruments, as mentioned above, shall be done subsequent to the Write-Down of Common Equity Capital.
- c. All the Basel-III Compliant Tier 2 bonds issued by the Bank/ to be issued in future by the bank which have Loss Absorption Clause upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as per the terms and conditions of the issue (s) shall rank pari-passu amongst themselves and hence shall be Temporarily written-down or Permanently Written-Off in pari-passu upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as decided by RBI. However, the Basel-III Compliant Tier II bonds shall absorb losses only if Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) issued by the Bank with Loss Absorbency Clause in their terms and conditions have been written down/written-off and such written down/written-off is insufficient to absorb the losses fully/ or to the extent of amount as decided by the RBI to

	restore the viability of the Bank.
Treatment of the instrument in Insolvency	The Perpetual Debt Instruments (PDIs) instrument shall not contribute to liabilities exceeding assets if such a balance sheet test forms part of a requirement to prove insolvency under any law or otherwise.
Re-Capitalization of the Bank	i. The investors cannot hinder Re-Capitalization of the Bank, if needed. The Bank shall not compensate investors of this issue of Perpetual Debt Instruments (PDIs) if a new Capital Instrument is issued at a lower price during at the currency of this Perpetual Debt Instruments (PDIs).
Cross Default	Not applicable
Treatment of Basel-III compliant PDI instrument of Re-Constitution / Amalgamation/ Acquisition / Winding-Up / Liquidation of the Bank	As per terms and conditions specified in Annex 16 of RBI master circular on Basel-III Capital Regulations, (<i>Paras 2.9 to 2.15 and para 3.9</i>), dated July 1, 2013

Tier 2 Capital Instruments

Maturity Date	February 7, 2022
Lock-in-clause	In terms of RBI circular no. DBOD.No.BP.BC.57/21.01.2002/ 2005-2006 dated January 25, 2006, on enhancement of banks' capital-raising options covering norms for raising of instruments eligible for inclusion under Upper Tier-II capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest amount due and remaining unpaid may be allowed to be paid in the later years subject to the Bank complying with the above regulatory requirement.
