YES BANK LIMITED

DISCLOSURES UNDER THE BASEL III CAPITAL REGULATIONS
June 30, 2016

The RBI guideline on 'Basel III Capital Regulation' was issued on May 2, 2012 for implementation in India in phases with effect from April 1, 2013 and to be fully implemented by March 31, 2019. YES Bank is subject to the RBI Master Circular on Basel-III Capital Regulations, July, 2015 and amendments thereto issued on time to time basis by RBI. The Basel III framework consists of three-mutually reinforcing pillars:

- Pillar 1 - Minimum capital requirements for credit risk, market risk and operational risk
- Pillar 2 - Supervisory review of capital adequacy
- Pillar 3 - Market discipline

Market discipline (Pillar 3) comprises a set of disclosures on the Capital Adequacy and Risk Management framework of the Bank. Pillar 3 disclosures as per RBI master circular on Basel-III Capital Regulations are set out in the following sections for information.

1. Capital Adequacy -

The Bank has a sound and comprehensive policy and process for evaluating its overall capital adequacy commensurate with the overall risk profile, business projections and capital management strategies.

The Bank is subject to the Capital adequacy norms as per Master Circular on Basel-III Capital Regulations issued by the Reserve Bank of India ('RBI'). The Basel III capital regulation is being implemented in India from April 1, 2013 in phases and it will be fully implemented as on March 31, 2019. In view of the gradual phase-in of regulatory adjustments to the capital components under Basel III, certain specific prescriptions of Basel II capital adequacy framework shall also continue to apply till March 31, 2017.

As at June 30, 2016, the capital of the Bank is higher than the minimum capital requirement as per Basel-III guidelines.

The Bank currently follows Standardized Approach for Credit Risk, Standardized Duration Approach for Market Risk and Basic Indicator Approach for Operational risk capital charge computation.

The Bank has a Board approved policy on Internal Capital Adequacy Assessment Process (ICAAP) as stipulated by RBI. The ICAAP also details the Risk Appetite of the Bank, assessment of material risks, the process for capital adequacy assessment to support business projections / risks for a period of 3 years, risk thresholds, adequacy of risk control framework, capital raising plans and Bank-wide stress testing.

The Bank has implemented a Board approved Stress Testing Framework which is also an integral part of the Bank's ICAAP. The Bank conducts Stress Testing on periodic basis to assess the Bank's potential vulnerability to extreme but plausible stressed business conditions in various risk areas.

The periodic assessment of bank's performance against the Risk Appetite defined under ICAAP and results of stress testing are reported to Risk Monitoring Committee of the Board and the Board of Directors on quarterly basis for their review.

The integration of risk assessment with business processes and strategies governed by a robust risk management framework under ICAAP enables the Bank to effectively manage risk-return trade off.

₹in Lacs

Capital adequacy	**Standalone**	**Consolidated**
A. Capital requirements for Credit Risk		
i. Portfolios subject to Standardized Approach	1,252,155	1,251,127
ii. Securitization Exposures	-	-
B. Capital requirements for Market Risk	83,872	83,872
Standardized Duration Approach		
Interest rate risk	68,018	68,018
Foreign exchange risk (including gold)	11,250	11,250
Equity risk	4,604	4,604
C. Capital requirements for Operational Risk		
Basic Indicator Approach	106,499	106,632
D. Total and Tier I Capital Adequacy Ratio		
Common Equity Tier 1 Capital Ratio(CET1)	9.5%	9.5%
Tier I Capital Adequacy ratio	9.9%	9.9%
Total Capital Adequacy ratio	15.1%	15.1%

2. Risk Management Framework

YES BANK inculcates and nurtures a conscientious risk culture, underpinned by a clear governance structure, incorporating the 'Three lines of Defense'. The Bank has institutionalized a principled approach towards taking risks responsibly with a shared understanding of Risk Appetite which is embedded in the organization-wide controls.

The risk management framework at YES Bank is driven by a well informed and knowledgeable Board (comprising of several Independent directors) and Senior Management. The Board has the overall responsibility for risk management and risk strategies in the Bank. There are two Board level sub-committees (Risk Monitoring Committee and Audit Committee) to deal with risk management related specific matters and has delegated powers for different functional areas.

Risk Monitoring Committee is a Board level sub-committee and is an independent body that puts in place specific policies and procedures for managing Enterprise Wide Risk Management of the Bank, as per RBI's Guidance Note on the same.

Audit Committee is also a Board level sub-committee which oversees the internal audit and compliance function. The Internal audit function is responsible for the independent review of risk management and the control environment.

In addition to the committees outlined above, the Bank has in place a Board Credit Committee (BCC) which is a Board level sub-committee that is responsible for approving credits beyond a certain threshold, as defined in the Bank's Board approved Credit Policy. The thresholds for credit approval and the composition of this Committee are approved by the Board. The BCC will also review specific cases that may need special attention as and when recommended by the Management Credit Committee.

Senior Management Oversight

The following specialized committees comprising Top and Senior management personnel ensure oversight and effective implementation of the overall Risk Management Framework:

- **Management Credit Committee (MCC)**: This committee comprises MD&CEO, CRO, Risk Heads, Business Heads and Product Heads and is responsible for approval of cases based on exposure and internal rating thresholds defined in the Board approved credit policy. It is also responsible for reviewing and recommending actions on rating trends, event based portfolio actions, thematic/sectoral reviews, reviews of stressed accounts/NPAs, credit policy related recommendations to the RMC/Board, etc.

- **Executive Credit Committee (ECC)**: The Executive Credit Committee of the Bank is chaired by the CRO and comprises CRO, Chief Credit Officer (CCO) and executives from Risk/Business/Product teams designated as EVP & Above. It is responsible for approval of cases based on exposure and internal rating thresholds defined in the Board approved credit policy.

- **Asset Liability Committee (ALCO)**: The ALCO is a strategic decision making body, constituted by the Board. The Committee is headed by the Managing Director & CEO and comprises other senior executives of the Bank. It is responsible for recommending prudent Asset Liability Management policies to the Board to achieve the strategic goals of the Bank. ALCO is responsible for managing market risk, liquidity risks as well as capital position of the Bank from a strategic risk return perspective while operating in full compliance with existing regulatory guidelines.
- **Investment Committee:** The ALCO has set up an Investment Committee as its sub-committee comprising representatives from Financial Markets, Market risk, Credit risk and Finance. The Investment committee is responsible for overall investment strategy in Financial Markets.
- **Operational Risk Management Committee (ORMC)**: ORMC, chaired by the CRO, comprises top management from Operations, Business and Support Units. The Committee is responsible for development, implementation and monitoring of the Operational Risk Management Framework, review of risk profile and Key Risk Indicators of Units and review Operational Loss and events suffered by the Bank.
- **Fraud and Suspicious Transaction Monitoring Committee (FASCOM):** This committee chaired by the MD&CEO comprises top management including the CRO, COO, Head of Audit, President HCM, General Counsel, and several other key personnel from Client Relationship groups, Product Management and Operations. The committee is responsible for reviewing aspects relating to frauds / suspicious transactions and identifying corrective actions and additional controls, wherever necessary
- **Information Technology Security Council**: This committee, chaired by the CRO, act as a central representative body of all business functions to jointly discuss and resolve issues related to Information Security within YES Bank. The Council reviews and approves information security policy and takes decisions basis the evolving risks and threats applicable to the Bank.
- **Outsourcing Management Committee (OMC):** This committee is chaired by the CRO and is responsible for management of risk arising out of outsourcing activities.
- **Reputation Risk Management Committee (RRMC):** This Committee is chaired by MD &CEO and oversees implementation of Reputation risk management policy, management and review Bank's Reputation Risk profile and incidents.
- **Enterprise Risk and Capital Management Committee (ERCC):** This Committee is chaired by MD & CEO and oversees enterprise-wide risks including Pillar I and Pillar II risks, ICAAP, Bank-wide stress testing and bank-wide limits monitoring.
- **Product Process Approval Committee (PPAC):** The Product and Process Approval Policy has been designed to Standardized the procedure for Business, Risk and Compliance assessment for approval of new / existing Product Programs etc.

- **Security Council:** Security Council is chaired by Chief Risk Officer (CRO). The committee reviews and approves the IS Sub Policies, Standards & Procedures, and ISMS documentation that defines the management framework. The Security Council is a committee which meets every quarter.
- **Standing Committee on Customer Service:** The Standing Committee on Customer Service is chaired by the MD&CEO. The committee evaluates feedback on the quality of customer service rendered, ensures implementation of various circulars released by the regulators, make recommendations on unresolved grievances referred by various functional heads. A report on its performance is submitted to the Customer Service Committee of the Board at regular intervals.
- **IT Steering Committee:** The Committee is chaired by CFO and Co-Chaired by CIO. The role of the committee include providing guidance on IT Strategy, resolving strategic level issues and risk, advice and guidance on business issues facing IT, approve technology policies.

Risk Management Unit at YES BANK

The Risk Management Department (RMD) is delegated specific responsibilities of managing the risk in the Bank by the RMC. The Risk Management Department is headed by the Chief Risk Officer (CRO) who leads the Credit Risk Unit, General Legal Counsel and Risk Control Units. The CRO reports to the MD&CEO. Credit Risk Unit is responsible for evaluating, rating and underwriting credit under respective Credit Risk Heads. The Risk Control Units such as Market Risk, Operational Risk, Enterprise Risk Management Unit, Information Security, Portfolio Analytics Unit, Credit Risk Control Unit, Credit Mid Office and Risk Containment Unit are responsible for independent review, monitoring and reporting of all risk control parameters and to take appropriate corrective actions where necessary. These units are also responsible for ensuring compliance to internal policies and regulatory guidelines.

Responsibility Profile of RMD

a. **Chief Risk Officer (CRO):** The Chief Risk Officer (CRO) is responsible for the overall Risk Governance and Supervision. CRO ensures an effective implementation of an enterprise wide risk management framework and risk culture through various risk policies, processes, thresholds and controls that enables prompt risk identification, accurate risk measurement and effective risk mitigation. CRO is also responsible for risk compliance and monitoring as well as reviewing and presenting various risk reports, policies and dashboards to RMC and Board.

b. **General Legal Counsel** is responsible for ensuring legal compliance of applicable laws, ensuring documentation entered into by the Bank is legally valid and enforceable; and filing and defending legal suits for and on behalf of the Bank.

c. **Credit Risk Units:** These units under the supervision of their respective Chief Credit Officers (CCOs) are responsible for screening/assessment of facilities/exposures on the potential borrowers, finalizing risk ratings and approving credit proposals. The Credit

Risk Heads are also responsible for managing the overall segment portfolio and undertaking remedial actions/ thematic reviews as required.

d. **Risk Control Unit (s):** Independent unit(s) responsible for review, monitoring and reporting of all risk control parameters and taking appropriate corrective actions where necessary. The Units are also responsible for ensuring compliance to internal policies and regulatory guidelines. The various units are given below:

i. **Information Security Unit** – The Unit is responsible for ensuring compliance with and implementation of Information Security Management System and ensuring that sufficient measures are taken to protect the Bank's Information assets.

ii. **Enterprise Risk Management Unit (ERM Unit)** – The Unit is responsible for implementation of ERM, Risk Aggregation, Risk based pricing, Pillar II Risk assessment of –Reputational Risk, Compliance Risk, Concentration risk etc, BASEL II / III compliance, ICAAP review, migration to advanced approaches and Bank wide Stress testing.

iii. **Operational Risk Unit** - The Unit is responsible for identification, assessment and monitoring of Operational Risk of the Bank including Outsourcing Risk and Business Continuity Preparedness. The unit shall support Capital Compliance in migration to advanced approaches under Operational Risk.

iv. **Market Risk:** Responsible for the independent market risk and liquidity risk analysis and monitoring. Key functions of the team involve Policy review, limits review, Risk Modeling and Analytics, implementation of BASEL guidelines towards Interest Rate Risks in Trading as well as Banking Book, Liquidity Risk and Counterparty Credit Risk in Financial Market products.

v. **Portfolio Analytics Unit (PAU)** - The Unit is responsible for monitoring the entire credit portfolio across all segments including monitoring of early warning signals, identifying portfolio trends and generating portfolio level MIS covering various credit quality indicators across various business units of the Bank. This unit is also responsible for conducting industry studies and determining industry outlook.

vi. **Credit Risk Control Unit (CRCU)** – The Unit is responsible for independently reviewing the Bank's credit policies and programs. The credit rating model (IRS) and related policies are also managed and enhanced on a continual basis by this team. It is also responsible for the Bank's migration to IRB approach under Credit Risk and for scorecard development /implementation/testing for retail / program based lending.

vii. **Credit Mid Office (Credit Admin) – The Unit is responsible for implementing** the Credit administration policies, procedures and post sanction monitoring of the asset portfolio with respect to covenants / documentation. Responsible for reporting of the status of Borrower documentation/securities perfection. The Units also ensures compliance with regulatory guidelines on the credit proposals and adherence to internal systems & controls for operational risk management and compliance.

viii. **Risk Containment Unit** – The Unit is responsible for proactive fraud anticipation & control, diagnostics / interpretation and resolutions for the Bank's SME and retail business segments. The unit is further responsible for implementation of adequate measures to avert fraud and improving process transparency for the minimization or elimination of frauds to the largest extent possible. The Unit is also responsible for preparing regular reports on fraud control through both financial and non financial means, and managing various vendor agencies responsible for fraud control.

3. Credit Risk

Credit Risk Management Objectives, Processes and Structure (CRM):

The **Credit Risk Management Department (CRMD)** within the RMD consists of the Credit Risk Unit and the following Risk Control Units:

- Portfolio Analytics Unit (PAU)
- Credit Risk Control Unit (CRCU)
- Credit Administration Unit
- Risk Containment Unit.

The main role and responsibilities of CRMD includes:

a. Measuring, controlling, reviewing and managing credit risk on Bank-wide basis within the limits set by the Bank's Board of Directors/RMC/ RBI.

b. Enforcing compliance with the credit risk parameters and credit exposure/ concentration limits set by the Board of Directors/ RMC/RBI.

c. Laying down credit risk assessment systems and developing MIS, monitoring quality of loan/ investment portfolio, identifying problems, correcting deficiencies and undertaking loan review/audit.

d. Conducting a complete risk analysis of the proposed obligor/ facility before approval of the credit

e. The CRMD is also responsible for monitoring the quality of the entire loan/ investment portfolio and undertaking portfolio evaluations and conducting comprehensive studies to test the resilience of the loan portfolio.

Policies & Processes

The Bank's Credit Policy, approved by the Board, outlines the credit risk governance framework. The objective of the Bank's Credit Policy is to build and maintain a quality portfolio with sound and well-diversified credit risk distribution. Credit Risk Management is an important tool for achieving this objective, as it helps the Bank to:

- Take informed credit decisions based on an adequate assessment of the relevant risk factors
- Screen credit proposals and assume only such credit risk that is acceptable to the Bank to ensure better credit quality
- Optimise the risk return trade-off by providing guidelines for securing return commensurate with the risk involved in the credit
- Ensure diversification of the credit portfolio through various Board approved limits thus avoiding concentration in credit exposures to individual/ group borrowers, industry/ sector, credit rating, etc
- All these limits are monitored continually and reported to Senior Management on monthly basis and to the RMC/Board on quarterly basis

Risk identification and assessment is the first step in the credit risk management system. In case of wholesale segment, credit risk inherent in credit proposal is assessed by evaluating the below mentioned risk factors among others:

- Financial Risk: This would include an assessment of the entity's overall financial strength based on performance and financial indicators, as derived from its financial statements -historical and projected
- Business Risk: This entails an analysis of the fundamentals of the business unit, its competitive market position in the industry and its operational efficiency
- Industry Risk: This would include an evaluation of the competition/ entry barriers, industry cyclicality/outlook, regulatory risk/government policies and other contemporary issues
- Management Risk: This involves evaluation of the management of the enterprise, their risk philosophy, competence and past track record
- Project Risk: This involves evaluation of any significant project being undertaken by the company and its impact on the financials of the company.
- Conduct of Account: This involves evaluation of the credit behavior of the client with the bank

The creditworthiness and assessment of credit requirement are evaluated and determined in line with the risk rating of the borrower and the credit facilities are sanctioned accordingly. Borrowers in the Bank's credit portfolio which do not fall under the purview of rating models are scored/originated under a product program.

Credit Proposals are approved either through a Committee approach or through Joint Delegation, depending on rating and exposure thresholds outlined in the Bank's Credit Policy.

In case of retail assets segment, the Bank has various products programs in line with the relevant product needs of customers. The product programs generally address areas such as customer segmentation, exposure ceilings, approval authorities, exception reporting and risk assessment parameters like acceptable loan-to-value, maximum tenor & financial parameters.

The product programs are cognizant of relevant regulatory guidelines, internal credit policy, market dynamics, bank's activities etc.

Credit Risk Identification, Measurement, Monitoring and Reporting

The credit risk management function is largely centralized for both credit approvals and disbursements. It is well structured and staffed to ensure that the credit policy and regulatory requirements are adhered to and implemented. Post sanction, an independent Credit Administration unit is responsible for ensuring that the credit policy guidelines and terms of sanction are adhered to.

The Bank has a risk rating system comprising multiple models that assign credit ratings to customers. The models are categorized into Corporate, Financial and Project models which assign ratings to the borrowers based on financial data, industry characteristics, business positioning, project characteristics and other non financial parameters. Model Validation is carried out by objectively assessing the discriminatory power and stability of ratings. All the models have defined hurdle rates, and lending to borrowers below the hurdle rate requires specific approvals as per the Credit Policy of the Bank. The core banking system is used to control and monitor utilization of limits under various products by customer and is also the repository for information on past dues and excesses. There is also a post disbursal tracking system that is used for monitoring appraisal conditions, financial covenants, documentation status etc. Borrowers in the Bank's credit portfolio which do not fall under the purview of rating models would be scored/originated under a product program.

The borrowers are reviewed at least on an annual basis. The analysis carried out during annual review would reflect not only the performance of the company but also the conduct of the account.

Credit Monitoring involves follow-up and supervision of the Bank's individual loans as well as the entire loan portfolio with a view to maintain the asset quality at the desirable level, through proactive and corrective actions, aimed at controlling and mitigating the risks to the Bank. The main objectives of Credit Monitoring are:

(a) To ensure compliance with the terms and conditions of the credit sanctioned
(b) To ensure the end-use of the Bank funds by the borrowers as per the approved purposes and prevent diversion of the funds for unauthorized purposes
(c) To assess the health of the obligor at periodic intervals with reference to the key indicators of performance such as activity level, profitability, management standards
(d) To identify early warning signals, if any, in individual accounts and initiate effective steps to mitigate the risk to the Bank, in consultation with the Segment Head and Risk Management Department
(e) To periodically review the loan portfolio of the Bank or of its specified segment to assess the overall asset quality/ risk and compliance with the prudential norms

For retail banking borrowers, controls in loan underwriting are as enumerated in the respective product programs which are approved by the Bank's Product Program Approval Committee (PPAC) comprising Business, Risk, Compliance, Technology & Strategy leadership. Moreover, for granular lending cases where risk decision making is decentralized, the Bank practices hind-sighting of the approved cases for the preceding quarter.

Policies for Mitigating Credit Risk

Security management is instrumental in mitigating credit risk. It involves creation of enforceable charge over the borrower/third party assets in favour of the Bank, proper valuation/storage/maintenance and insurance of the securities so charged at regular intervals, in order that the Bank's advances/loans remain fully covered by the realizable value of the securities charged to it. Further, the charged securities are valued at periodic intervals and stipulated margins are maintained at all times.

Definition and Classification of Non Performing Assets (NPA)

The Bank classifies its outstanding into performing and non-performing in accordance with the extant RBI guidelines.

A Non Performing Advance (NPA) is defined as a loan or an advance where:

i. interest and/ or installment of principal remains overdue for more than 90 days in respect of a term loan. Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the Bank

ii. a bill purchased/discounted by the Bank remains overdue for a period of more than 90 days

iii. interest and/or installment of principal in respect of an agricultural loan remains overdue for two crop seasons for short duration crops and one crop season for long duration crops

iv. the regular/ad hoc credit limits have not been reviewed/ renewed within 180 days from the due date/ date of ad hoc sanction

v. the account remains 'out of order' in respect of an overdraft/ cash credit (OD/CC). An account is treated as 'out of order' if:

    a) the outstanding balance remains continuously in excess of the sanctioned limit/drawing power, or

    b) where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of the balance sheet or credits are not enough to cover the interest debited during the same period,

vi. Drawings have been permitted in working account for a continuous period of 90 days based on drawing power computed on the basis of stock statements that are more than three months old even though the unit may be working or the borrower's financial position is satisfactory,

vii. An account would be classified as NPA if the interest due and charged during any quarter is not serviced fully within 90 days from the end of the quarter,

viii. The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of guidelines on securitisation dated February 1, 2006

ix. In respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

The Bank's loan portfolio is classified into 4 categories of assets as per extant RBI guidelines as follows:

- Standard Assets: These are Performing assets (or Non- NPAs)
- Non-Performing Assets (NPAs):
  - Sub-standard Assets: i.e. an asset which remains irregular/out of order /overdue for more than 90 days and is classified as NPA for a period of 12 months from the date of such classification.
  - Doubtful Assets: i.e. an NPA that remains Sub-standard Asset for a period of >12 months,
  - Loss Assets: An asset that is identified as uncollectible and of such little value that its continuance as a bankable asset is not warranted although there may be some salvage or recovery value.

The Bank has established appropriate internal mechanism for prompt identification of NPA(s).

4. Credit Risk: Portfolios subject to the Standardized Approach

The Bank is using the ratings assigned by the following domestic external credit rating agencies, approved by the RBI, for risk weighting claims on domestic entities

- Credit Analysis and Research Limited (CARE)
- Credit Rating Information Services of India Limited (CRISIL)
- India Ratings and Research Private Limited (earlier known as Fitch India)
- ICRA Limited (ICRA)
- Brickwork Ratings India Pvt. Ltd
- SMERA Ratings Limited

The Bank is using the ratings assigned by the following international credit rating agencies, approved by the RBI, for risk weighting claims on overseas entities:

- Standard & Poor's
- Moody's
- Fitch Ratings.

Types of exposures for which each agency is used

- The Bank has used the solicited ratings assigned by the above approved credit rating agencies for all eligible exposures, both on balance sheet and off balance sheet, whether short term or long term, in the manner permitted in the RBI guidelines on Basel II & Basel III as well as New Capital Adequacy Framework (NCAF).
- While arriving at risk-weighted assets for credit risk under the standardized approach 'bank loan' ratings of the counterparty have been used. This would include Fund-based and Non-fund based facilities.
- In case of treasury facilities, the Bank has used 'Issuer' ratings of the counterparties, wherever available.

- The Bank ensures that the external rating of the facility / borrower has been reviewed by the external credit rating agencies at least once in the previous 15 months and is in force on the date of application.
- In case there are two ratings provided by two credit rating agencies that map into different risk weights, the higher risk weight is applied.
- In case there are three or more ratings provided by credit rating agencies mapping to different risk weights. The Bank refers to two lowest risk weights. The rating corresponding to higher of these two risk weights is applied.
- If counterparty has a long term or short term rating that warrants a risk weight of 150%, all unrated claims on the same counterparty whether long term or short term are assigned a risk weight of 150%.
- In case the Bank does not have exposure in a rated issue on long term scale, the Bank would use the issue rating for its comparable unrated long term exposures to the same borrower, provided that the Bank's exposures are pari-pasu or senior and of similar or shorter maturity as compared to the rated issue.
- In case the Bank does not have exposure in a rated issue on short term scale, the Bank would use the issue rating for its comparable unrated short term exposures to the same borrower, provided that the Bank's exposures are pari-pasu or senior as compared to the rated issue. Applicable risk weight will be at least one level higher than the risk weight applicable to rated short term exposure of the borrower.

Details of credit exposures* (funded and non funded) classified by risk buckets**

The table below provides the break-up of the Bank's net exposures* into three major risk buckets.

Risk Weight Bands	**₹in Lacs**
Below 100% risk weight	10,934,925
100% risk weight	6,612,708
Above 100% risk weight	1,393,942
Deducted	-
Total	**18,941,575**

**Represents book value as at June 30, 2016*

5. LEVERAGE RATIO

The leverage ratio has been calculated using the definitions of capital and total exposure. The Bank's leverage ratio, calculated in accordance with the RBI guidelines under consolidated framework is as follows:

	Amount in Lacs
Tier I Capital	1,424,116
Exposure Measure	23,010,472
Leverage Ratio	6.19%

6. **Liquidity Coverage Ratio**

(₹ In Lakhs)

7. Full Terms and Conditions of Regulatory Capital Instruments

(A) Common Equity Capital

Sr. No.	Criteria	Terms of Equity Shares of YES BANK
1	Voting shares	Equity shares of YES Bank are voting shares
2	Limit on voting rights	Limits on voting rights, if any, are applicable as per provisions of the Banking Regulation Act, 1949
3	Position in subordination hierarchy	Represent the most subordinated claim in liquidation of the Bank. The paid up amount is neither secured nor covered by a guarantee of the issuer or related entity nor subject to any other arrangement that legally or economically enhances the seniority of the claim.
4	Claim on residual assets	Entitled to a claim on the residual assets, which is proportional to its share of paid up capital, after all senior claims have been repaid in liquidation
5	Perpetuity	Principal is perpetual and never repaid outside of liquidation (except discretionary repurchases / buy backs or other means of effectively reducing capital in a discretionary manner that is allowable under relevant law as well as guidelines, if any, issued by RBI in the matter). The Bank does nothing to create an expectation at issuance that the instrument would be bought back, redeemed or cancelled, nor do the statutory or contractual terms provide any feature which might give rise to such an expectation.
6	Distributions	Distributions are paid out of distributable items (retained earnings included). The level of distributions is not in any way tied or linked to the amount paid up at issuance and is not subject to a contractual cap (except to the extent that a bank is unable to pay distributions that exceed the level of distributable items). Distributions are paid only after all legal and contractual obligations have been met and payments on more senior capital instruments have been made. There are no circumstances under which the distributions are obligatory. Non-payment is therefore not an event of default.
7	Loss absorption	It is the paid up capital that takes the first and proportionately greatest share of any losses as they occur. Within the highest quality capital, each instrument absorbs losses on a going concern basis proportionately and paripassu with all the others.

8	Accounting classification	The paid up amount is classified as equity capital. It is clearly and separately disclosed in the Bank's balance sheet.
9	Directly issued and paid-up	Shares are directly issued and paid up. The Bank cannot directly or indirectly fund the purchase of its own Equity shares
10	Approval for issuance	Paid up capital is only issued with the approval of the shareholders of the Bank, either given directly by the shareholders or, if permitted by applicable law, given by the Board of Directors or by other persons duly authorised by the shareholders.

(B) Innovative Perpetual Debt Instruments and Tier II capital

The Bank has been raising capital funds by means of issuance of Innovative Perpetual Debt Instruments (IPDI), Upper Tier II and Subordinated bonds. Instruments which are non compliant with the eligibility criteria set under Basel III Capital Regulations are phased out in computation of Tier 1 and Tier 2 Capital under the transitional provisions specified in RBI Master Circular on Basel-III Capital Regulations, July, 2014.

The details of IPDI, Upper Tier II and Subordinated Debt (Unsecured Redeemable Non-convertible Subordinated Bonds in the nature of Promissory Notes/Debentures), issued by the Bank and outstanding as of March 31, 2015 are given below.

Tier 1 Capital Instruments

1) Instrument	**Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes**
Credit Rating	'LA +' by ICRA & 'CARE A+' (A Plus) by CARE
Issue Size	Rs. 116 crore including Green shoe option of Rs 66 Crore
Face Value/Issue Price	Rs 10,00,000/- per Bond
Minimum Application Size	1 Bond and in multiples of 1 Bond thereafter
Tenor	Perpetual
Coupon Rate	10.25% p.a
Interest Payment Frequency	Annual
Interest on application money	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
Interest Payment Date	21st February of every year
Lock-in Clause	In terms of RBI Master circular no. DBOD.No.BP.BC.11/21.06.001/ 2008-2009 dated July 1, 2008, on Prudential Guidelines on Capital Adequacy and Market Discipline- Implementation of new Capital Adequacy Framework covering norms for raising of instruments eligible for inclusion under Tier-I capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the

1) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
	prior approval of RBI when the impact of such payment may result in net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest shall not be cumulative.
Record Date	For interest payment Record Date would be 30 days prior to Interest Date. In case of exercise of Call Option record date shall be 10 working days prior to date of call option.
Put/ Call Option	No Put Option, Call option exercisable at the end of 10 years from the deemed date of allotment and on every interest date thereafter (exercisable only with RBI approval).
Step up Option	50 basis points over and above the initial coupon rate of 10.25% at the end of 10 years from the deemed date of allotment, if the call option is not exercised by the Bank
Date of Allotment	February 21, 2009
Listing	BSE Debt Segment
Depository	National Securities Depositories Limited & Central Depository Services (India) Limited
Trustee	IDBI Trusteeship Services Ltd.
Settlement	Payment of interest and repayment of principal shall be made by way of cheque(s)/ interest/redemption warrant(s)/ demand draft(s)/ credit through RTGS/ECS system
Issuance & Trading	Demat Mode

2) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
Credit Rating	'LA +' by ICRA & 'CARE A+' (A Plus) by CARE
Issue Size	Rs. 55 Crore including Green shoe option of Rs 30 Crore
Face Value/Issue Price	Rs 10,00,000/- per Bond
Minimum Application Size	1 Bond and in multiples of 1 Bond thereafter
Tenor	Perpetual
Coupon Rate	10.25% p.a
Interest Payment Frequency	Annual (The interest shall not be cumulative)
Interest on application money	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
Interest Payment Date	9th March of every year

2) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
Lock-in Clause	In terms of RBI Master circular no. DBOD.No.BP.BC.11/21.06.001/ 2008-2009 dated July 1, 2008, on Prudential Guidelines on Capital Adequacy and Market Discipline- Implementation of new Capital Adequacy Framework covering norms for raising of instruments eligible for inclusion under Tier-I capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest shall not be cumulative.

Objects of the Issue	Augmenting Tier - I Capital and overall Capital of the Bank and enhancing long term resources
Minimum Application Size	1 Bond and in multiples of 1 Bond thereafter
Tenor	Perpetual
Security	Unsecured
Conversion	Non-convertible
Coupon Rate	10. 50% p.a. Fixed rate instrument. No coupon Reset

Interest Payment Frequency	Annual (The interest shall not be cumulative)
Interest Payment Date	December 31 of every year
Record Date	For interest payment and exercise of Call Option Record date would be 15 days prior to Interest Date/ Call option date /redemption date.
Computation of Interest	Interest payable will be calculated on the basis of actual number of days elapsed in a year of 365 or 366 days as the case may be(Actual/Actual)
Coupon Discretion	(i) The Bank has Full Discretion at all times to cancel coupon distributions/payments. On cancellation of distributions/payments, these payments will be extinguished and Bank shall have no obligation to make distributions/payments in kind as well. (ii) Bank shall have full access to cancelled payments to meet obligations as they fall due. (iii) Cancellation of discretionary payments shall not be an Event of Default. (iv) Cancellation of distributions/payments must not impose restrictions on the bank except in relation to distributions to common stakeholders as explained in the Dividend Stopper clause below. (v) Coupons shall be paid out of distributable items as per prevailing Indian Laws and RBI guidelines. (vi) The interest shall not be cumulative. This means that interest missed in a year will not be paid in future years, even if adequate profit is available and the level of CRAR conforms to the regulatory minimum. If coupon is paid at a rate lesser than the prescribed rate, the unpaid amount will not be paid in future years, even if adequate profit is available and the level of CRAR conforms to the regulatory minimum. (vii) Distributions/payments by the Bank will be subject to the Minimum Capital Conservation Ratios the Bank must meet at various levels of the Common Equity Tier 1 capital ratios after including the current periods retained earnings (subject to RBI guidelines) and the minimum Capital Requirements to be complied by the Bank at all times (Consolidated & Solo Level) as per RBI Master circular on Basel-III Capital Regulations July 1, 2013
Dividend Stopper Clause	If for any reason Coupons are not paid within 30 Business Days after Coupon Payment Date on this issue of Perpetual Debt Instruments (PDIs), a Dividend Stopper will apply to the Bank subject to **Restrictions on Dividend**

	Stopper Clause and the following Conditions: The Dividend Stopper will restrict the Bank from paying dividend payments on Common Shares issued by the Bank and prohibit Bank's actions that are equivalent to the payment of a dividend such as Discretionary Share Buybacks made, if otherwise permitted The Dividend Stopper can be lifted if majority of Perpetual Debt Instruments (PDIs) Holders approve such an action and RBI does not otherwise object, or if during the following 12 months the Bank pays all scheduled Coupons on Perpetual Debt Instruments (PDIs) in full.
Restrictions on Dividend Stopper Clause	The exercise of 'Dividend Stopper' clause by the holders of this Perpetual Debt Instruments (PDIs) issue shall not impede/hinder :- (i) The Full Discretion that the Bank has at all times to cancel distributions/payments on this issue of Perpetual Debt Instruments (PDIs). (i) The Re-Capitalization of the bank. (ii) The Bank's right to make payments on another instruments where payments are not Fully Discretionary. (iii) The Bank's right to making distributions to shareholders for a period that extends beyond the point in time that coupon /dividends on the Additional Tier 1 instrument are resumed (iv) The normal operation of the bank or any restructuring activity (including acquisitions/disposals).
Put Option	No Put Option
Call Option	The exercise of Call Option by the Bank will be subject to ALL of the below mentioned conditions. a) The instrument has run for at least ten years b) The prior approval of RBI (Department of Banking Operations & Development). c) The instrument is replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank

	OR d) The bank demonstrating to RBI that its capital position is well above the minimum capital requirements after the Repurchase / Buyback / Redemption. Here, minimum refers to Common Equity Tier 1 of 8% of RWAs (including capital conservation buffer of 2.5% of RWAs) and Total Capital of 11.5% of RWAs including any Additional Capital Requirement identified under Pillar 2.
Exercise of Calls Options in Tax Events and Regulatory Event	(i) Bank may call the instrument due to the occurrence of Tax events or Regulatory event only if permitted by RBI. (ii) RBI may permit such type of calls only if it is convinced that the bank was not in a position to anticipate these events at the time of issuance of Perpetual Debt Instruments (PDIs) as per RBI Master circular on Basel-III Capital Regulations July 1, 2013.
Repurchase / Buy-back / Redemption of the Perpetual Debt Instruments (PDIs)	Bank may repurchase / buy-back / redeem the Perpetual Debt Instruments (PDIs) with prior approval of RBI only if:- (i) The instrument is replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank **OR** (ii) The bank demonstrating to RBI that its capital position is well above the minimum capital requirements after the Repurchase / Buyback / Redemption. Here, minimum refers to Common Equity Tier 1 of 8% of RWAs (including capital conservation buffer of 2.5% of RWAs) and Total Capital of 11.5% of RWAs including any Additional Capital Requirement identified under Pillar 2.
Listing	BSE Limited

Depository	National Securities Depository Limited and Central Depository Services (India) Limited
Deemed Date of Allotment	December 31, 2013
Trustee	AXIS Trustee Services Limited
Settlement	Payment of interest and repayment of principal shall be made by way of cheque(s)/ interest/redemption warrant(s)/ demand draft(s)/credit through RTGS/NECS system
Seniority of Claim	The claims of the investors in Bonds being issued for inclusion in Additional Tier I capital shall be (a) superior to the claims of investors in equity shares of the Bank, (b) superior to the claims of investors in perpetual non-cumulative preference shares issued by the Bank, if any, (c) subordinated to the claims of depositors, general creditors and subordinated debt of the bank and (d) is neither secured nor covered by a guarantee of the issuer nor related entity or other arrangement that legally or economically enhances the seniority of the claim vis-à-vis bank creditors
Loss Absorbency clause at the occurrence of an Objective Pre-Specified Trigger Point.	The Perpetual Debt Instruments (PDIs) has **'Principal Loss Absorption'** feature as per RBI's Basel-III Capital Regulations, while the Bank remains a Going Concern. This Principal Loss Absorption feature shall be executed through Full / Partial Temporary Write-down or Full / Partial Permanent Write-off, which allocates losses to the Perpetual Debt Instruments (PDIs) at the Objective Pre-Specified Trigger Point as defined by RBI and mentioned below in the **Objective Pre-Specified Trigger Point for Loss Absorbency** Clause **The write-down will have the following effects:** (i) Reduce the claim of the Perpetual Debt Instruments (PDIs) in liquidation. (ii) Reduce the amount re-paid when a call is exercised. (iii) Partially or fully reduce coupon payments on the instrument. Various criteria for Loss Absorption through write-down / write-off on breach of Objective pre-specified trigger per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013
Objective Pre-Specified Trigger	The Pre-specified Trigger for Loss Absorption through

Point for Loss Absorbency Clause	Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off of the level of Perpetual Debt Instruments (PDIs) is fixed at Bank's Common Equity Tier-1 Ratio (CET1) of 6.125% of Risk Weighted Assets of the Bank.
Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	(i) The option for Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off to be exercised on breach of Objective pre-specified trigger vests with the Bank subject to conditions specified in RBI Basel - III Capital Regulations. (ii) If Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off option is exercised, it shall be exercised across all investors of this particular issue of Perpetual Debt Instruments (PDIs).
Limitations on Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	(i) The Full / Partial write-down can be allowed more than once in case the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial. (ii) The AT-I instruments (including this issue of Perpetual Debt Instruments (PDIs)) once Written-up can be Written-Down again.
Write Up Option	Available subject to conditions per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013
Loss Absorbency clause at the Point of Non-Viability of the Bank	The instrument has the following features exercisable at the option of the Reserve Bank of India, upon the occurrence of the 'Point of Non-Viability (PONV) Trigger: a. Temporary/permanent write-off, if there is no public sector injection of funds. b. Permanent write-off if there is Public sector injection of funds. The amount of Perpetual Debt Instruments (PDIs) for temporary/permanent write-off will be determined by RBI.
Point of Non-Viability (PONV) Trigger	As per Basel-III Guidelines, the 'Point of Non-Viability (PONV) Trigger' event is the earlier of :- a. A decision that a temporary/permanent write-off, without which the Bank would become 'Non-viable', is necessary, as determined by the Reserve

	Bank of India; and b. The decision to make a public sector injection of capital, or equivalent support, without which the Bank would have become 'Non-viable', as determined by the relevant authority. The write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. The AT-1 instruments (including this issue of Perpetual Debt Instruments) with write-off clause will be permanently written-off if there is public sector injection of funds. The Trigger at PONV will be evaluated both at Consolidated and Solo level and breach at Either level will Trigger temporary/permanent write-off. The clauses related to the Loss Absorbency criteria, the process to determine 'PONV' and the operation of the clause in various circumstances are per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013
Limits on Exercise of temporary/ permanent write-off Option at the Point of Non-Viability of the Bank	The write-down can be allowed more than once if the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial. The Perpetual Debt Instruments (PDIs) once written-up can be written-down again.
Order of Write-down of Various Types of Regulatory Capital Instruments at Objective Pre-specified Trigger and PONV	The Basel-III Compliant Perpetual Debt instruments shall be written-down in the order in which they shall absorb losses in a Gone Concern situation as per RBI guidelines / directives. The sequencing/ Ranking for Temporary write-down or Permanent Write-Off of various types of Basel-III Compliant Regulatory Capital instruments issued by the bank/ will be issued in future by the Bank is mentioned below:- a. In the event of occurrence of Loss Absorption Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV), the Common Equity Capital shall be written down first. The Common Equity Share holders shall rank

	paripassu amongst themselves for Loss Absorption. b. All the Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) qualifying as Additional Tier-1 instruments issued by the bank/to be issued in future by the Bank, which have Loss Absorption Clause at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV) as per the terms and conditions of the issue(s) shall rank ***pari-passu*** amongst themselves and hence shall be Temporarily written-down (Full/partial) or Permanently Written-Off (Full/partial) in *pari-passu* upon the occurrence of Loss Absorption Trigger Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV). The Write Down of PDI instruments, as mentioned above, shall be done subsequent to the Write-Down of Common Equity Capital. c. All the Basel-III Compliant Tier 2 bonds issued by the Bank/ to be issued in future by the bank which have Loss Absorption Clause upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as per the terms and conditions of the issue (s) shall rank pari-passu amongst themselves and hence shall be Temporarily written-down or Permanently Written-Off in pari-passu upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as decided by RBI. However, the Basel-III Compliant Tier II bonds shall absorb losses only if Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) issued by the Bank with Loss Absorbency Clause in their terms and conditions have been written down/written-off and such written down/written-off is insufficient to absorb the losses fully/ or to the extent of amount as decided by the RBI to restore the viability of the Bank.
Treatment of the instrument in Insolvency	The Perpetual Debt Instruments (PDIs) instrument shall not contribute to liabilities exceeding assets if such a balance sheet test forms part of a requirement to prove insolvency under any law or otherwise.

Re-Capitalization of the Bank	i. The investors cannot hinder Re-Capitalization of the Bank, if needed. The Bank shall not compensate investors of this issue of Perpetual Debt Instruments (PDIs) if a new Capital Instrument is issued at a lower price during at the currency of this Perpetual Debt Instruments (PDIs).
Cross Default	Not applicable
Treatment of Basel-III compliant PDI instrument of Re-Constitution / Amalgamation/ Acquisition / Winding-Up / Liquidation of the Bank	As per terms and conditions specified in Annex 16 of RBI master circular on Basel-III Capital Regulations, *(Paras 2.9 to 2.15 and para 3.9),* dated July 1, *2013*

Tier 2 Instruments

1) Instrument	**Unsecured, Redeemable Non Convertible, Upper Tier II Bonds in the nature of debentures**
Credit Rating	‘LA +’ by ICRA & ‘CARE A+’ (A Plus) by CARE
Issue Size	Rs.80 crore
Face Value/Issue Price	Rs 10,00,000/- per Bond
Minimum Application Size	5 Bonds
Tenor	15 years
Coupon Rate	9.73% p.a.
Interest Payment Frequency	Annual
Interest on application money	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
Interest Date	January 02 each year
Record Date	In case of exercise of Call Option record date shall be 10 working days prior to date of call option
Put/ Call Option	No Put Option, Call option exercisable after 10 years i.e. on January 02, 2017 (exercisable only with RBI approval)
Step up Option	50 basis points over and above coupon rate of 9.73%, if the call option is not exercised by the Bank
Deemed Date of Allotment	January 02, 2007
Redemption	At the end of 15 years from the deemed date of allotment (with prior approval of RBI)
Maturity Date	January 02, 2022
Lock-in-clause	In terms of RBI circular no. DBOD.No.BP.BC.57/21.01.2002/ 2005-2006 dated January 25, 2006, on enhancement of banks’ capital-raising options covering norms for raising of instruments eligible for inclusion under Upper Tier-II capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank’s CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank’s Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest amount due and remaining unpaid may be allowed to be paid in the later years subject to the Bank complying with the above regulatory requirement.

The investor must have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer.
Provisions related to Cross Default Clause	Not applicable
Trustee	Axis Trustee Services Ltd.
Loss Absorbency	The bonds shall be subjected to loss absorbency features applicable for non-equity capital instruments vide RBI Master Circular DBOD.No.BP.BC.6/21.06.201/2014-15 dated July 1, 2014 on Basel III capital regulations read along with RBI circular DBOD.No.BP.BC.38/21.06.201/2014-15 dated September 1, 2014 on Implementation of Basel III Capital Regulations in India – Amendments covering Criteria for inclusion of debt capital instruments as Tier 2 capital and minimum requirements to ensure loss absorbency of additional Tier 1 instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the Point of Non-viability ("PONV") Accordingly, the Bonds may at the option of RBI either be permanently written off or temporarily written off on the occurrence of the trigger event called the Point of Non Viability (PONV). PONV trigger event shall be as defined in the aforesaid RBI Circular and shall determined by the RBI
Point of Non Viability (PONV) and special features	The present issue of Bonds is being made in pursuance of Master Circular DBOD.No.BP.BC.6/21.06.201/2014-15 dated July 1, 2014 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments as Tier 2 Capital and Minimum Requirements to ensure loss absorbency of Additional Tier 1instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the PONV read along with RBI circular DBOD.No.BP.BC.38/21.06.201/2014-15 dated September 1, 2014 on Implementation of Basel III Capital Regulations in India – Amendments and as amended from time to time. As per the extant instructions issued by RBI, these Bonds, at the option of the Reserve Bank of India, shall be written off upon the occurrence of the trigger event, called the' Point of Non-

PONV Trigger	Viability (PONV) Trigger' stipulated below : (i) The PONV Trigger event is the earlier of: decision that a write-off without which the firm would become nonviable, is necessary, as determined by the Reserve Bank of India; and the decision to make a public sector injection of capital, or equivalent support, without which the firm would have become non-viable, as determined by the relevant authority. The Write-off of any Common Equity Tier 1 capital shall not be required before the write off of any Non-Equity (Additional Tier-I and Tier 2) regulatory capital instrument. (ii) Such a decision would invariably imply that the write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. As such, the contractual terms and conditions of these instruments shall not provide for any residual claims on the issuer which are senior to ordinary shares of the bank (or banking group entity where applicable), following a trigger event and when write-off is undertaken. For the purpose of the above, a non-viable bank will be: A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the bank should be considered as the most appropriate way to prevent the bank from turning nonviable. Such measures would include write-off / conversion of non-equity regulatory capital into common shares in combination with or without other measures as considered appropriate by the Reserve Bank. Write-off Features These instruments are subject to write-off upon the occurrence of the trigger event called PONV as determined by Reserve Bank of India. The amount of non-equity capital to be written-off will be determined by RBI. When a bank breaches the PONV trigger and the equity is replenished through write-off, such replenished amount of equity will be excluded from the total equity of the bank for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining capital conservation buffer. However, once the bank has attained total Common Equity ratio as defined in Table Minimum Capital Required under section 4.19 without counting the replenished equity capital, that point onwards, the bank may include the replenished

	equity capital for all purposes. The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger write-off. Treatment in Bankruptcy / Liquidation The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer. If a bank goes into liquidation before these instruments have been written-down, these instruments will absorb losses in accordance with the order of seniority indicated in the offer document and as per usual legal provisions governing priority of charges. If a bank goes into liquidation after these instruments have been written-down, the holders of these instruments will have no claim on the proceeds of liquidation. Amalgamation of a banking company If a bank is amalgamated with any other bank before these instruments have been written-down, these instruments will become part of the corresponding categories of regulatory capital of the new bank emerging after the merger. If a bank is amalgamated with any other bank after the non-equity regulatory capital instruments have been written-down permanently, these cannot be written-up by the Amalgamated entity. If the relevant authorities decide to reconstitute a bank or amalgamate a bank with any other bank under the Section 45 of BR Act, 1949, such a bank will be deemed as non-viable or approaching non-viability and both the pre-specified trigger and the trigger at the point of non-viability for write-down of these instruments will be activated. Accordingly, these instruments will be fully written-down permanently before amalgamation / reconstitution in accordance with these rules. Order of write-down of various types of capital instruments The capital instruments shall be written-off in order in which they would absorb losses in a gone concern situation. The capital instruments shall absorb losses in accordance with the order of seniority and as per usual legal provisions governing priority of charges. Criteria to Determine the PONV The above framework will be invoked when the Bank is adjudged by Reserve Bank of India to be approaching the point of non-viability, or has already reached the point of non-viability, but in the views of RBI: a) there is a possibility that a timely intervention in form

	of capital support, with or without other supporting interventions, is likely to rescue the Bank; and b) if left unattended, the weaknesses would inflict financial losses on the Bank and, thus, cause decline in its common equity level. The purpose of write-off of the Bonds shall be to shore up the capital level of the Bank. RBI would follow a two-stage approach to determine the non-viability of the Bank. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Bank approaching non- viability and, therefore, a closer examination of the Bank's financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Bank is about to become non-viable. These criteria would be evaluated together and not in isolation. Once the PONV is confirmed, the next step would be to decide whether rescue of the Bank would be through write-off alone or write-off in conjunction with public sector injection of funds. The trigger at PONV shall be evaluated both at consolidated and solo level and breach at either level shall trigger write-off. As the capital adequacy is applicable both at solo and consolidated levels, the minority interests in respect of capital instruments issued by subsidiaries of the Banks including overseas subsidiaries can be included in the consolidated capital of the banking group only if these instruments have pre-specified triggers/loss absorbency at the PONV. The cost to the parent of its investment in each subsidiary and the parent's portion of equity of each subsidiary, at the date on which investment in each subsidiary is made, is eliminated as per AS-21. So, in case of wholly-owned subsidiaries, it would not matter whether or not it has same characteristics as the Bank's capital. However, in the case of less than wholly owned subsidiaries, minority interests constitute additional capital for the banking group over and above what is counted at solo level; therefore, it should be admitted only when it (and consequently the entire capital in that category) has the same characteristics as the Bank's capital. In addition, if the Bank wishes the instrument issued by its subsidiary to be included in the consolidated group's capital, the terms and conditions of that instrument must specify an additional trigger event. The additional trigger event is the earlier of:

	a) a decision that write-off of the Bonds, without which the Bank or the subsidiary would become non-viable, is necessary, as determined by the Reserve Bank of India; and b) the decision to make a public sector injection of capital, or equivalent support, without which the Bank or the subsidiary would have become non-viable, as determined by the Reserve Bank of India. Such a decision would invariably imply that the write-off of the Bonds consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. In such cases, the subsidiary should obtain its regulator's approval/no-objection for allowing the capital instrument to be converted/written-off at the additional trigger point referred above. Any common stock paid as compensation to the holders of the Bonds must be common stock of either the issuing subsidiary or the Bank (including any successor in resolution).
Applicable RBI Guidelines	The present issue of Bonds is being made in pursuance of Master Circular DBOD.No.BP.BC.6/21.06.201/2014-15 dated July 1, 2014 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments, read along with RBI circular DBOD.No. BP.BC.38/21.06.201/2014-15 dated September 1, 2014 on Implementation of Basel III Capital Regulations in India – Amendments (as amended from time to time).

35) Instrument	Non-convertible, Redeemable, Unsecured, Basel III compliant Tier 2 Bonds in the nature of debentures
Instrument	8.90% YBL Tier 2 Bonds 2025
Issue Size	Rs. 15,00,00,00,000/- (Rupees Fifteen Hundred Crores only)
Type of Instrument	Non-convertible, Redeemable, Unsecured, Basel III compliant Tier 2 Bonds in the nature of debentures for augmenting Tier 2 capital of the Issuer with face value of Rs.10,00,000 each (Bond)
Nature of Instrument	Unsecured
Seniority	Claims of the Investors in the Instruments shall be: (iv) Senior to the claims of Investors in Instruments eligible for inclusion in Tier 1 Capital (v) Subordinate to the claims of all Depositors, general Creditors & Non Capital Bonds and debentures outstanding of the Bank and (vi) These Bonds shall neither be secured nor covered by a guarantee of the Issuer or its related entity or other arrangement that legally or economically enhances the seniority of the claim vis -à-vis creditors of the Bank. The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation. The claims of the bondholders shall be subject to the provisions mentioned in the point Special Features, "Point of Nonviability" (PONV) in the term sheet.
Mode of Issue	Private placement
Listing	This issue of Debentures will be listed on Wholesale Debt Market (WDM) Segment the Bombay Stock Exchange (BSE) The Issue will be listed within 20 days from the deemed date of allotment. In case of delay in listing, Bank will pay penal interest of 1% p.a. over the coupon rate from the expiry of 30 days from the deemed date of allotment till the listing of such debt securities to the Investor In case the Debentures are allotted to any SEBI registered FPIs /sub accounts of FPIs and the NCDs are not listed within 15 days then Bank shall immediately redeem/buyback the said securities from the FPIs/sub-accounts of FPIs in such an eventuality
Rating of the Instrument	'ICRA AA+ Hyb' by ICRA & CARE AA+ by CARE
Objects of the Issue	Augmenting Tier II Capital (as defined in the Basel III

	Guidelines issued by RBI) and overall capital of the Issuer for strengthening its capital adequacy and for enhancing its long-term resources. Proceeds of the Bonds raised will be utilized for the business of the Bank.

Trading mode of the Instrument	Demat only
Settlement mode of the Instrument	Cheques, demand drafts, interest/ redemption warrants, pay order, direct credit, ECS, NEFT, RTGS, other online payment mechanism as are permitted by the Reserve Bank of India
Depositories	NSDL/CDSL
Record Date	The date falling 15 (Fifteen) days prior to any Due Date in relation to the Debentures
Events of Default	The Issuer has defaulted in relation to payment of the principal amount / coupon / redemption premium due in respect the Debentures. The investor must have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer.
Provisions related to Cross Default Clause	Not applicable
Trustee	Axis Trustee Services Ltd.
Loss Absorbency	The bonds shall be subjected to loss absorbency features applicable for non-equity capital instruments vide RBI Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 on Basel III capital regulations covering Criteria for inclusion of debt capital instruments as Tier 2 capital and minimum requirements to ensure loss absorbency of additional Tier 1 instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the Point of Non-viability ("PONV") Accordingly, the Bonds may at the option of RBI either be permanently written off or temporarily written off on the occurrence of the trigger event called the Point of Non Viability (PONV). PONV trigger event shall be as defined in the aforesaid RBI Circular and shall determined by the RBI
Point of Non Viability (PONV) and special features	The present issue of Bonds is being made in pursuance of Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 on Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments as Tier 2 Capital and Minimum Requirements to ensure loss absorbency of Additional Tier

PONV Trigger	1instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the PONV. As per the extant instructions issued by RBI, these Bonds, at the option of the Reserve Bank of India, shall be written off upon the occurrence of the trigger event, called the' Point of Non-Viability (PONV) Trigger' stipulated below : (i) The PONV Trigger event is the earlier of: decision that a conversion or write-off without which the firm would become nonviable, is necessary, as determined by the Reserve Bank of India; and the decision to make a public sector injection of capital, or equivalent support, without which the firm would have become non-viable, as determined by the relevant authority. The Write-off of any Common Equity Tier 1 capital shall not be required before the write off of any Non-Equity (Additional Tier-I and Tier 2) regulatory capital instrument. (ii) Such a decision would invariably imply that the write-off or issuance of any new shares as a result of conversion consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. As such, the contractual terms and conditions of these instruments shall not provide for any residual claims on the issuer which are senior to ordinary shares of the bank (or banking group entity where applicable), following a trigger event and when conversion or write-off is undertaken. For the purpose of the above, a non-viable bank will be: A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the bank should be considered as the most appropriate way to prevent the bank from turning nonviable. Such measures would include write-off / conversion of non-equity regulatory capital into common shares in combination with or without other measures as considered appropriate by the Reserve Bank. Write-off Features These instruments are subject to conversion or write-off upon the occurrence of the trigger event called PONV as determined by Reserve Bank of India. The amount of non-equity capital to be written-off will be determined by RBI. When a bank breaches the PONV trigger and the equity is replenished either through conversion or write-off, such replenished amount of equity will be excluded from the total equity of the bank for the purpose of

	determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining capital conservation buffer. However, once the bank has attained total Common Equity ratio as defined in Table Minimum Capital Required under section 4.19 without counting the replenished equity capital, that point onwards, the bank may include the replenished equity capital for all purposes. The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger conversion or write-off. Treatment in Bankruptcy / Liquidation The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer. If a bank goes into liquidation before these instruments have been written-down/converted, these instruments will absorb losses in accordance with the order of seniority indicated in the offer document and as per usual legal provisions governing priority of charges. If a bank goes into liquidation after these instruments have been written-down, the holders of these instruments will have no claim on the proceeds of liquidation. Amalgamation of a banking company If a bank is amalgamated with any other bank before these instruments have been written-down/converted, these instruments will become part of the corresponding categories of regulatory capital of the new bank emerging after the merger. If a bank is amalgamated with any other bank after the non-equity regulatory capital instruments have been written-down permanently, these cannot be written-up by the Amalgamated entity. If the relevant authorities decide to reconstitute a bank or amalgamate a bank with any other bank under the Section 45 of BR Act, 1949, such a bank will be deemed as non-viable or approaching non-viability and both the pre-specified trigger and the trigger at the point of non-viability for conversion/write-down of these instruments will be activated. Accordingly, these instruments will be fully converted/written-down permanently before amalgamation / reconstitution in accordance with these rules. Order of conversion/write-down of various types of capital instruments The capital instruments shall be written-off in order in which they would absorb losses in a gone concern situation. The capital instruments shall absorb losses in accordance with the order of seniority and as per usual legal provisions governing priority of charges.

Criteria to Determine the PONV

The above framework will be invoked when the Bank is adjudged by Reserve Bank of India to be approaching the point of non-viability, or has already reached the point of non-viability, but in the views of RBI:

c) there is a possibility that a timely intervention in form of capital support, with or without other supporting interventions, is likely to rescue the Bank; and

d) if left unattended, the weaknesses would inflict financial losses on the Bank and, thus, cause decline in its common equity level.

The purpose of write-off and/or conversion of the Bonds shall be to shore up the capital level of the Bank. RBI would follow a two-stage approach to determine the non-viability of the Bank. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Bank approaching non- viability and, therefore, a closer examination of the Bank‟s financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Bank is about to become non-viable. These criteria would be evaluated together and not in isolation.

Once the PONV is confirmed, the next step would be to decide whether rescue of the Bank would be through write-off/conversion alone or write-off/conversion in conjunction with public sector injection of funds.

The trigger at PONV shall be evaluated both at consolidated and solo level and breach at either level shall trigger write-off/conversion.

As the capital adequacy is applicable both at solo and consolidated levels, the minority interests in respect of capital instruments issued by subsidiaries of the Banks including overseas subsidiaries can be included in the consolidated capital of the banking group only if these instruments have pre-specified triggers/loss absorbency at the PONV. The cost to the parent of its investment in each subsidiary and the parent‟s portion of equity of each subsidiary, at the date on which investment in each subsidiary is made, is eliminated as per AS-21. So, in case of wholly-owned subsidiaries, it would not matter whether or not it has same characteristics as the Bank‟s capital. However, in the case of less than wholly owned subsidiaries, minority interests constitute additional capital for the banking group over and above what is counted at solo level;

	therefore, it should be admitted only when it (and consequently the entire capital in that category) has the same characteristics as the Bank‟s capital. In addition, if the Bank wishes the instrument issued by its subsidiary to be included in the consolidated group‟s capital, in addition to its solo capital, the terms and conditions of that instrument must specify an additional trigger event. The additional trigger event is the earlier of: c) a decision that write-off/conversion of the Bonds, without which the Bank or the subsidiary would become non-viable, is necessary, as determined by the Reserve Bank of India; and d) the decision to make a public sector injection of capital, or equivalent support, without which the Bank or the subsidiary would have become non-viable, as determined by the Reserve Bank of India. Such a decision would invariably imply that the write-off /conversion of the Bonds consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. In such cases, the subsidiary should obtain its regulator‟s approval/no-objection for allowing the capital instrument to be converted/written-off at the additional trigger point referred above. Any common stock paid as compensation to the holders of the Bonds must be common stock of either the issuing subsidiary or the Bank (including any successor in resolution).
Applicable RBI Guidelines	The present issue of Bonds is being made in pursuance of Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments.

36) Instrument	Non-convertible, Redeemable, Unsecured, Basel III compliant Tier 2 Bonds in the nature of debentures
Instrument	9.00% YBL Tier 2 Bonds 2026
Issue Size	Rs. 8,00,00,00,000/- (Rupees Eight Hundred Crores only)

Furthermore in the event that the Debentures are not listed on the WDM segment of the BSE within a period of 20 (Twenty) days from the Deemed Date of Allotment, the Issuer shall pay a default interest at the rate of 1% (One Percent) per annum over and above the Coupon Rate for the period commencing from 30 (Thirty) calendar days from the Deemed Date of Allotment till the date the Debentures are listed on the WDM of the BSE.
Tenure	10 years from Deemed Date of Allotment
Redemption Date	January 20, 2026
Redemption Amount	At par
Redemption Premium / Discount	Not Applicable
Issue Price	Rs. 10,00,000/- per Debenture
Put Option	Not Applicable
Put option date	Not Applicable
Put option price	Not Applicable
Put notification time	Not Applicable
Call Option	Not Applicable
Call option date	Not Applicable

Call option price	Not Applicable
Call notification time	Not Applicable
Minimum Application size	The minimum application size for the Issue shall be 50 (Fifty) Debentures and in multiples of 10 (Ten) Debentures thereafter
Deemed Date of Allotment:	January 20, 2016
Issuance mode of the Instrument	Demat only
Trading mode of the Instrument	Demat only
Settlement mode of the Instrument	Cheques, demand drafts, interest/ redemption warrants, pay order, direct credit, ECS, NEFT, RTGS, other online payment mechanism as are permitted by the Reserve Bank of India
Depositories	NSDL/CDSL
Record Date	The date falling 15 (Fifteen) days prior to any Due Date in relation to the Debentures
Events of Default	The Issuer has defaulted in relation to payment of the principal amount / coupon / redemption premium due in respect the Debentures. The investor must have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer.
Provisions related to Cross Default Clause	Not applicable
Trustee	Axis Trustee Services Ltd.
Loss Absorbency	The bonds shall be subjected to loss absorbency features applicable for non-equity capital instruments vide RBI Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 on Basel III capital regulations covering Criteria for inclusion of debt capital instruments as Tier 2 capital and minimum requirements to ensure loss absorbency of additional Tier 1 instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the Point of Non-viability ("PONV") Accordingly, the Bonds may at the option of RBI either be permanently written off or temporarily written off on the occurrence of the trigger event called the Point of Non Viability (PONV). PONV trigger event shall be as defined in the aforesaid RBI Circular and shall determined by the RBI
Point of Non Viability (PONV) and special features	The present issue of Bonds is being made in pursuance of Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 on Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments as Tier 2 Capital and Minimum Requirements to ensure loss absorbency of Additional Tier 1instruments at pre-specified trigger and of all non-equity

PONV Trigger	regulatory capital instruments at the PONV. As per the extant instructions issued by RBI, these Bonds, at the option of the Reserve Bank of India, shall be written off upon the occurrence of the trigger event, called the' Point of Non-Viability (PONV) Trigger' stipulated below : (i) The PONV Trigger event is the earlier of: decision that a conversion or write-off without which the firm would become nonviable, is necessary, as determined by the Reserve Bank of India; and the decision to make a public sector injection of capital, or equivalent support, without which the firm would have become non-viable, as determined by the relevant authority. The Write-off of any Common Equity Tier 1 capital shall not be required before the write off of any Non-Equity (Additional Tier-I and Tier 2) regulatory capital instrument. (ii) Such a decision would invariably imply that the write-off or issuance of any new shares as a result of conversion consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. As such, the contractual terms and conditions of these instruments shall not provide for any residual claims on the issuer which are senior to ordinary shares of the bank (or banking group entity where applicable), following a trigger event and when conversion or write-off is undertaken. For the purpose of the above, a non-viable bank will be: A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the bank should be considered as the most appropriate way to prevent the bank from turning nonviable. Such measures would include write-off / conversion of non-equity regulatory capital into common shares in combination with or without other measures as considered appropriate by the Reserve Bank. Write-off Features These instruments are subject to conversion or write-off upon the occurrence of the trigger event called PONV as determined by Reserve Bank of India. The amount of non-equity capital to be written-off will be determined by RBI. When a bank breaches the PONV trigger and the equity is replenished either through conversion or write-off, such replenished amount of equity will be excluded from the total equity of the bank for the purpose of determining the proportion of earnings to be paid out as

	dividend in terms of rules laid down for maintaining capital conservation buffer. However, once the bank has attained total Common Equity ratio as defined in Table Minimum Capital Required under section 4.19 without counting the replenished equity capital, that point onwards, the bank may include the replenished equity capital for all purposes. The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger conversion or write-off. Treatment in Bankruptcy / Liquidation The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer. If a bank goes into liquidation before these instruments have been written-down/converted, these instruments will absorb losses in accordance with the order of seniority indicated in the offer document and as per usual legal provisions governing priority of charges. If a bank goes into liquidation after these instruments have been written-down, the holders of these instruments will have no claim on the proceeds of liquidation. Amalgamation of a banking company If a bank is amalgamated with any other bank before these instruments have been written-down/converted, these instruments will become part of the corresponding categories of regulatory capital of the new bank emerging after the merger. If a bank is amalgamated with any other bank after the non-equity regulatory capital instruments have been written-down permanently, these cannot be written-up by the Amalgamated entity. If the relevant authorities decide to reconstitute a bank or amalgamate a bank with any other bank under the Section 45 of BR Act, 1949, such a bank will be deemed as non-viable or approaching non-viability and both the pre-specified trigger and the trigger at the point of non-viability for conversion/write-down of these instruments will be activated. Accordingly, these instruments will be fully converted/written-down permanently before amalgamation / reconstitution in accordance with these rules. Order of conversion/write-down of various types of capital instruments The capital instruments shall be written-off in order in which they would absorb losses in a gone concern situation. The capital instruments shall absorb losses in accordance with the order of seniority and as per usual legal provisions governing priority of charges. Criteria to Determine the PONV

	The above framework will be invoked when the Bank is adjudged by Reserve Bank of India to be approaching the point of non-viability, or has already reached the point of non-viability, but in the views of RBI: g) there is a possibility that a timely intervention in form of capital support, with or without other supporting interventions, is likely to rescue the Bank; and h) if left unattended, the weaknesses would inflict financial losses on the Bank and, thus, cause decline in its common equity level. The purpose of write-off and/or conversion of the Bonds shall be to shore up the capital level of the Bank. RBI would follow a two-stage approach to determine the non-viability of the Bank. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Bank approaching non- viability and, therefore, a closer examination of the Bank‟s financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Bank is about to become non-viable. These criteria would be evaluated together and not in isolation. Once the PONV is confirmed, the next step would be to decide whether rescue of the Bank would be through write-off/conversion alone or write-off/conversion in conjunction with public sector injection of funds. The trigger at PONV shall be evaluated both at consolidated and solo level and breach at either level shall trigger write-off/conversion. As the capital adequacy is applicable both at solo and consolidated levels, the minority interests in respect of capital instruments issued by subsidiaries of the Banks including overseas subsidiaries can be included in the consolidated capital of the banking group only if these instruments have pre-specified triggers/loss absorbency at the PONV. The cost to the parent of its investment in each subsidiary and the parent‟s portion of equity of each subsidiary, at the date on which investment in each subsidiary is made, is eliminated as per AS-21. So, in case of wholly-owned subsidiaries, it would not matter whether or not it has same characteristics as the Bank‟s capital. However, in the case of less than wholly owned subsidiaries, minority interests constitute additional capital for the banking group over and above what is counted at solo level; therefore, it should be admitted only when it (and consequently the entire

	capital in that category) has the same characteristics as the Bank‟s capital. In addition, if the Bank wishes the instrument issued by its subsidiary to be included in the consolidated group‟s capital, in addition to its solo capital, the terms and conditions of that instrument must specify an additional trigger event. The additional trigger event is the earlier of: g) a decision that write-off/conversion of the Bonds, without which the Bank or the subsidiary would become non-viable, is necessary, as determined by the Reserve Bank of India; and h) the decision to make a public sector injection of capital, or equivalent support, without which the Bank or the subsidiary would have become non-viable, as determined by the Reserve Bank of India. Such a decision would invariably imply that the write-off /conversion of the Bonds consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. In such cases, the subsidiary should obtain its regulator‟s approval/no-objection for allowing the capital instrument to be converted/written-off at the additional trigger point referred above. Any common stock paid as compensation to the holders of the Bonds must be common stock of either the issuing subsidiary or the Bank (including any successor in resolution).
Applicable RBI Guidelines	The present issue of Bonds is being made in pursuance of Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments.

38) Instrument	Non-convertible, Redeemable, Unsecured, Basel III compliant Tier 2 Bonds in the nature of debentures
Instrument	9.00% YBL Tier 2 Bonds 2026
Issue Size	Rs. 3,00,00,00,000/- (Rupees Three Hundred Crores only)
Type of Instrument	Non-convertible, Redeemable, Unsecured, Basel III compliant Tier 2 Bonds in the nature of debentures for augmenting Tier 2 capital of the Issuer with face value of Rs.10,00,000 each (Bond)
Nature of Instrument	Unsecured
Seniority	Claims of the Investors in the Instruments shall be: (A) Senior to the claims of Investors in Instruments eligible for inclusion in Tier 1 Capital (B) Subordinate to the claims of all Depositors, general Creditors & Non Capital Bonds and debentures outstanding of the Bank and (C) These Bonds shall neither be secured nor covered by a guarantee of the Issuer or its related entity or other arrangement that legally or economically enhances the seniority of the claim vis -à-vis creditors of the Bank. The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation. The claims of the bondholders shall be subject to the provisions mentioned in the point Special Features, “Point of Nonviability” (PONV) in the term sheet.
Mode of Issue	Private placement
Listing	This issue of Debentures will be listed on Wholesale Debt Market (WDM) Segment of the Bombay Stock Exchange (BSE). The Issue will be listed within 20 days from the deemed date of allotment. In case of delay in listing, Bank will pay penal interest of 1% p.a. over the coupon rate from the expiry of 30 days from the deemed date of allotment till the listing of such debt securities to the Investor. In case the Debentures are allotted to any SEBI registered FPIs /sub accounts of FPIs and the NCDs are not listed within 15 days then Bank shall immediately redeem/buyback the said securities from the FPIs/sub-accounts of FPIs in such an eventuality.
Rating of the Instrument	‘ICRA AA+ (hyb)’ by ICRA & CARE AA+ by CARE
Objects of the Issue	Augmenting Tier II Capital (as defined in the Basel III

	Guidelines issued by RBI) and overall capital of the Issuer for strengthening its capital adequacy and for enhancing its long-term resources. Proceeds of the Bonds raised will be utilized for the business of the Bank.

The investor must have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer.
Provisions related to Cross Default Clause	Not applicable
Trustee	Axis Trustee Services Ltd.
Loss Absorbency	The bonds shall be subjected to loss absorbency features applicable for non-equity capital instruments vide RBI Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 on Basel III capital regulations covering Criteria for inclusion of debt capital instruments as Tier 2 capital and minimum requirements to ensure loss absorbency of additional Tier 1 instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the Point of Non-viability ("PONV") Accordingly, the Bonds may at the option of RBI either be permanently written off or temporarily written off on the occurrence of the trigger event called the Point of Non Viability (PONV). PONV trigger event shall be as defined in the aforesaid RBI Circular and shall determined by the RBI
Point of Non Viability (PONV) and special features	The present issue of Bonds is being made in pursuance of Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 on Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt

PONV Trigger	Capital Instruments as Tier 2 Capital and Minimum Requirements to ensure loss absorbency of Additional Tier 1instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the PONV. As per the extant instructions issued by RBI, these Bonds, at the option of the Reserve Bank of India, shall be written off upon the occurrence of the trigger event, called the' Point of Non-Viability (PONV) Trigger' stipulated below : (i) The PONV Trigger event is the earlier of: decision that a conversion or write-off without which the firm would become nonviable, is necessary, as determined by the Reserve Bank of India; and the decision to make a public sector injection of capital, or equivalent support, without which the firm would have become non-viable, as determined by the relevant authority. The Write-off of any Common Equity Tier 1 capital shall not be required before the write off of any Non-Equity (Additional Tier-I and Tier 2) regulatory capital instrument. (ii) Such a decision would invariably imply that the write-off or issuance of any new shares as a result of conversion consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. As such, the contractual terms and conditions of these instruments shall not provide for any residual claims on the issuer which are senior to ordinary shares of the bank (or banking group entity where applicable), following a trigger event and when conversion or write-off is undertaken. For the purpose of the above, a non-viable bank will be: A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the bank should be considered as the most appropriate way to prevent the bank from turning nonviable. Such measures would include write-off / conversion of non-equity regulatory capital into common shares in combination with or without other measures as considered appropriate by the Reserve Bank. Write-off Features These instruments are subject to conversion or write-off upon the occurrence of the trigger event called PONV as determined by Reserve Bank of India. The amount of non-equity capital to be written-off will be determined by RBI. When a bank breaches the PONV trigger and the equity is replenished either through

	conversion or write-off, such replenished amount of equity will be excluded from the total equity of the bank for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining capital conservation buffer. However, once the bank has attained total Common Equity ratio as defined in Table Minimum Capital Required under section 4.19 without counting the replenished equity capital, that point onwards, the bank may include the replenished equity capital for all purposes. The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger conversion or write-off. Treatment in Bankruptcy / Liquidation: The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer. If a bank goes into liquidation before these instruments have been written-down/converted, these instruments will absorb losses in accordance with the order of seniority indicated in the offer document and as per usual legal provisions governing priority of charges. If a bank goes into liquidation after these instruments have been written-down, the holders of these instruments will have no claim on the proceeds of liquidation. Amalgamation of a banking company: If a bank is amalgamated with any other bank before these instruments have been written-down/converted, these instruments will become part of the corresponding categories of regulatory capital of the new bank emerging after the merger. If a bank is amalgamated with any other bank after the non-equity regulatory capital instruments have been written-down permanently, these cannot be written-up by the Amalgamated entity. If the relevant authorities decide to reconstitute a bank or amalgamate a bank with any other bank under the Section 45 of BR Act, 1949, such a bank will be deemed as non-viable or approaching non-viability and both the pre-specified trigger and the trigger at the point of non-viability for conversion/write-down of these instruments will be activated. Accordingly, these instruments will be fully converted/written-down permanently before amalgamation / reconstitution in accordance with these rules. Order of conversion/write-down of various types of capital instruments: The capital instruments shall be written-off in order in which they would absorb losses in a gone concern situation. The capital instruments shall absorb losses in accordance with the order of

	seniority and as per usual legal provisions governing priority of charges. Criteria to Determine the PONV: The above framework will be invoked when the Bank is adjudged by Reserve Bank of India to be approaching the point of non-viability, or has already reached the point of non-viability, but in the views of RBI: i) there is a possibility that a timely intervention in form of capital support, with or without other supporting interventions, is likely to rescue the Bank; and j) if left unattended, the weaknesses would inflict financial losses on the Bank and, thus, cause decline in its common equity level. The purpose of write-off and/or conversion of the Bonds shall be to shore up the capital level of the Bank. RBI would follow a two-stage approach to determine the non-viability of the Bank. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Bank approaching non- viability and, therefore, a closer examination of the Bank' s financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Bank is about to become non-viable. These criteria would be evaluated together and not in isolation. Once the PONV is confirmed, the next step would be to decide whether rescue of the Bank would be through write-off/conversion alone or write-off/conversion in conjunction with public sector injection of funds. The trigger at PONV shall be evaluated both at consolidated and solo level and breach at either level shall trigger write-off/conversion. As the capital adequacy is applicable both at solo and consolidated levels, the minority interests in respect of capital instruments issued by subsidiaries of the Banks including overseas subsidiaries can be included in the consolidated capital of the banking group only if these instruments have pre-specified triggers/loss absorbency at the PONV. The cost to the parent of its investment in each subsidiary and the parent' s portion of equity of each subsidiary, at the date on which investment in each subsidiary is made, is eliminated as per AS-21. So, in case of wholly-owned subsidiaries, it would not matter whether or not it has same characteristics as the Bank' s capital. However, in the case of less than wholly owned subsidiaries,

	minority interests constitute additional capital for the banking group over and above what is counted at solo level; therefore, it should be admitted only when it (and consequently the entire capital in that category) has the same characteristics as the Bank's capital. In addition, if the Bank wishes the instrument issued by its subsidiary to be included in the consolidated group's capital, in addition to its solo capital, the terms and conditions of that instrument must specify an additional trigger event. The additional trigger event is the earlier of: i) a decision that write-off/conversion of the Bonds, without which the Bank or the subsidiary would become non-viable, is necessary, as determined by the Reserve Bank of India; and j) the decision to make a public sector injection of capital, or equivalent support, without which the Bank or the subsidiary would have become non-viable, as determined by the Reserve Bank of India. Such a decision would invariably imply that the write-off /conversion of the Bonds consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. In such cases, the subsidiary should obtain its regulator's approval/no-objection for allowing the capital instrument to be converted/written-off at the additional trigger point referred above. Any common stock paid as compensation to the holders of the Bonds must be common stock of either the issuing subsidiary or the Bank (including any successor in resolution).
Applicable RBI Guidelines	The present issue of Bonds is being made in pursuance of Master Circular DBR.No.BP.BC.1/21.06.201/2015-16 dated July 1, 2015 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments.
