

## YES BANK LIMITED

### DISCLOSURES UNDER THE BASEL III CAPITAL REGULATIONS September 30, 2014

The RBI guideline on 'Basel III Capital Regulation' was issued on May 2, 2012 for implementation in India in phases with effect from April 1, 2013 and to be fully implemented by March 31, 2019. YES Bank is subject to the RBI Master Circular on Basel-III Capital Regulations, July, 2014 and amendments thereto issued on time to time basis by RBI. The Basel III framework consists of three-mutually reinforcing pillars:

- Pillar 1 - Minimum capital requirements for credit risk, market risk and operational risk
- Pillar 2 - Supervisory review of capital adequacy
- Pillar 3 - Market discipline

Market discipline (Pillar 3) comprises a set of disclosures on the Capital Adequacy and Risk Management framework of the Bank. Pillar 3 disclosures as per RBI master circular on Basel-III Capital Regulations are set out in the following sections for information.

#### 1. Scope of Application

##### Top Bank in the Group

YES BANK Limited is a publicly held bank; which was incorporated as a limited company under the Companies Act, 1956, on November 21, 2003. The Bank received the licence to commence banking operations from the Reserve Bank of India ('RBI') on May 24, 2004. YES BANK was included to the Second Schedule of the Reserve Bank of India Act, 1934 with effect from August 21, 2004. The Bank has incorporated a wholly owned subsidiary named YES Securities (India) Limited during the financial year ended March 31, 2013.

The Basel III Capital Regulation (Basel III) is applicable to YES Bank Limited (hereinafter referred to as the 'Bank') and its subsidiary (YES Securities (India) Limited) which together constitute the Group in line with the Reserve Bank of India ('RBI') guidelines on the preparation of consolidated prudential reports.

##### Accounting and Regulatory consolidation

For the purpose of financial reporting, the Bank consolidates its subsidiary in accordance with Accounting Standard ('AS') 21, Consolidated Financial Statements, on a line-by-line basis by adding together like items of assets, liabilities, income and expenditure.

For the purpose of consolidated prudential regulatory reporting, the consolidated Bank includes all group entities under its control. The Bank does not have insurance and non-financial services subsidiary.

Details of subsidiaries of the Bank with the consolidation status for accounting and regulatory purpose is given below:

Name of the entity/ Country of Incorporation	Included under the accounting scope of consolidation	Method of accounting consolidation	Included under the regulatory scope of consolidation	Method of Regulatory consolidation	Reasons for difference in method of consolidation	Reasons for consolidation under only one of the scopes of consolidation
Yes Securities (India) Limited [ India]	Yes	Consolidated in accordance with Accounting Standard 21-Consolidated Financial Statement	Yes	Consolidated in accordance with Accounting Standard 21-Consolidated Financial Statement	Not Applicable	Not Applicable

**Group entities not considered for consolidation both under the accounting and regulatory scope of consolidation**

There are no group entities that were not considered for consolidation under both the accounting scope of consolidation and regulatory scope of consolidation.

**Group entities considered for regulatory consolidation**

Name of the entity/ Country of Incorporation	Principle activity of the entity	Total Balance Sheet Equity* (as stated in the accounting balance sheet of the Bank)	Total Balance Sheet Assets (as stated in the accounting balance sheet of the Bank)
Yes Securities (India) Limited [India]	Securities Broking	₹1,458 Lacs	₹6,010 Lacs

\* Comprises of Equity Capital and Reserves & Surplus

**Capital deficiencies in subsidiaries**

There is no capital deficiency in the subsidiaries of the Bank as of September 30, 2014.

**The aggregate amounts of the bank's total interests in insurance entities**

The bank does not have investment in any insurance entities as on September 30, 2014.

**Restrictions or impediments on transfer of funds or regulatory capital within the banking group**

There are no restrictions on transfer of funds or regulatory capital within the Group as of September 30, 2014.

## 2. Capital Adequacy

The Bank has a sound and comprehensive policy and process for evaluating its overall capital adequacy commensurate with the overall risk profile, business projections and capital management strategies.

The Bank is subject to the Capital adequacy norms as per Master Circular on Basel-III Capital Regulations issued by the Reserve Bank of India ('RBI'). The Basel III capital regulation is being implemented in India from April 1, 2013 in phases and it will be fully implemented as on March 31, 2019. In view of the gradual phase-in of regulatory adjustments to the capital Components under Basel III, certain specific prescriptions of Basel II capital adequacy framework shall also continue to apply till March 31, 2017.

As at September 30, 2014, the capital of the Bank is higher than the minimum capital requirement as per Basel-III guidelines.

The Bank currently follows Standardized Approach for Credit Risk, Standardized Duration Approach for Market Risk and Basic Indicator Approach for Operational risk capital charge computation.

The Bank has a Board approved policy on Internal Capital Adequacy Assessment Process (ICAAP) as stipulated by RBI. The ICAAP also details the Risk Appetite of the Bank, assessment of material risks, the process for capital adequacy assessment to support business projections / risks for a period of 3 years, risk thresholds, adequacy of risk control framework, capital raising plans and Bank-wide stress testing.

The Bank has implemented a Board approved Stress Testing Framework which is also an integral part of the Bank's ICAAP. The Bank conducts Stress Testing on periodic basis to assess the Bank's potential vulnerability to extreme but plausible stressed business conditions in various risk areas.

The periodic assessment of bank's performance against the Risk Appetite defined under ICAAP and results of stress testing are reported to Risk Monitoring Committee of the Board and the Board of Directors on quarterly basis for their review.

The integration of risk assessment with business processes and strategies governed by a robust risk management framework under ICAAP enables the Bank to effectively manage risk-return trade off.

₹ in Lacs

### Risk Management Framework

YES BANK inculcates and nurtures a conscientious risk culture, underpinned by a clear governance structure, incorporating the 'Three lines of Defense'. The Bank has institutionalized a principled approach towards taking risks responsibly with a shared understanding of Risk Appetite which is embedded in the organization-wide controls.

The risk management framework at YES Bank is driven by a well informed and knowledgeable Board (comprising of several Independent directors) and Senior Management. The Board has the overall responsibility for risk management and risk strategies in the Bank. There are two Board level sub-committees (Risk Monitoring Committee and Audit & Compliance Committee) to deal with risk management related specific matters and has delegated powers for different functional areas.

Risk Monitoring Committee is a Board level sub-committee and is an independent body that puts in place specific policies and procedures for managing Enterprise Wide Risk Management of the Bank, as per RBI's Guidance Note on the same.

Audit & Compliance Committee is also a Board level sub-committee which oversees the internal audit and compliance function. The Internal audit function is responsible for the independent review of risk management and the control environment.

In addition to the committees outlined above, the Bank has in place a Board Credit Committee (BCC) which is a Board level sub-committee that is responsible for approving credits beyond a certain threshold, as defined in the Bank's Board approved Credit Policy. The thresholds for credit approval and the composition of this Committee are approved by the Board. The BCC will also review specific cases that may need special attention as and when recommended by the Management Credit Committee.

### **Senior Management Oversight**

The following specialized committees comprising Top and Senior management personnel ensure oversight and effective implementation of the overall Risk Management Framework:

- **Management Credit Committee (MCC):** This committee comprises MD&CEO, CRO, Risk Heads, Business Heads and Product Heads and is responsible for approval of cases based on exposure and internal rating thresholds defined in the Board approved credit policy. It is also responsible for reviewing and recommending actions on rating trends, event based portfolio actions, thematic/sectoral reviews, reviews of stressed accounts/NPAs, credit policy related recommendations to the RMC/Board, etc.
- **Executive Credit Committee (ECC):** The Executive Credit Committee of the Bank is chaired by the CRO and comprises CRO, Chief Credit Officer (CCO) and executives from Risk/Business/Product teams designated as EVP & Above. The quorum required for approval by the ECC comprises CRO, CCO, Business Head and any other two members.
- **Asset Liability Committee (ALCO):** The ALCO is a strategic decision making body, constituted by the Board. The Committee is headed by the Managing Director & CEO and comprises other senior executives of the Bank. It is responsible for recommending prudent Asset Liability Management policies to the Board to achieve the strategic goals of the Bank. ALCO is responsible for managing market risk, liquidity risks as well as capital position of the Bank from a strategic risk return perspective while operating in full compliance with existing regulatory guidelines.
- **Investment Committee:** The ALCO has set up an Investment Committee as its sub-committee comprising representatives from Financial Markets, Market risk, Credit risk and Finance. The Investment committee is responsible for overall investment strategy in Financial Markets.
- **Operational Risk Management Committee (ORMC):** ORMC, chaired by the CRO, comprises top management from Operations, Business and Support Units. The Committee is responsible for development, implementation and monitoring of the Operational Risk Management Framework, review of risk profile and Key Risk Indicators of Units and review Operational Loss and events suffered by the Bank.
- **Fraud and Suspicious Transaction Monitoring Committee (FASCOM):** This committee chaired by the MD&CEO comprises top management including the CRO, COO, Head of Audit, President HCM, General Counsel, and several other key personnel from Client

Relationship groups, Product Management and Operations. The committee is responsible for reviewing aspects relating to frauds / suspicious transactions and identifying corrective actions and additional controls, wherever necessary

- **Information Technology Security Council:** This committee, chaired by the CRO, act as a central representative body of all business functions to jointly discuss and resolve issues related to Information Security within YES Bank. The Council reviews and approves information security policy and takes decisions basis the evolving risks and threats applicable to the Bank.
- **Outsourcing Management Committee (OMC):** This committee is chaired by the CRO and is responsible for management of risk arising out of outsourcing activities.
- **Reputation Risk Management Committee (RRMC):** This Committee is chaired by MD &CEO and oversees implementation of Reputation risk management policy, management and review Bank's Reputation Risk profile and incidents.

### **Risk Management Unit at YES BANK**

The Risk Management Department (RMD) is delegated specific responsibilities of managing the risk in the Bank by the RMC. The Risk Management Department is headed by the Chief Risk Officer (CRO) who leads the Credit Risk Unit, General Legal Counsel and Risk Control Units. The CRO reports to the MD&CEO. Credit Risk Unit is responsible for evaluating, rating and underwriting credit under respective Credit Risk Heads. The Risk Control Units such as Market Risk, Operational Risk, Capital Compliance Unit, Information Security, Portfolio Analytics Unit, Credit Risk Control Unit, Credit Mid Office and Risk Containment Unit are responsible for independent review, monitoring and reporting of all risk control parameters and to take appropriate corrective actions where necessary. These units are also responsible for ensuring compliance to internal policies and regulatory guidelines.

### **Responsibility Profile of RMD**

- a. **Chief Risk Officer (CRO):** The Chief Risk Officer (CRO) is responsible for the overall Risk Governance and Supervision. CRO ensures an effective implementation of an enterprise wide risk management framework and risk culture through various risk policies, processes, thresholds and controls that enables prompt risk identification, accurate risk measurement and effective risk mitigation. CRO is also responsible for risk compliance and monitoring as well as reviewing and presenting various risk reports, policies and dashboards to RMC and Board.
- b. **General Legal Counsel** is responsible for ensuring legal compliance of applicable laws, ensuring documentation entered into by the Bank is legally valid and enforceable; and filing and defending legal suits for and on behalf of the Bank.
- c. **Credit Risk Unit:** These units under the supervision of their respective Chief Credit Officers (CCOs) are responsible for screening/assessment of facilities/exposures on the potential borrowers, finalizing risk ratings and approving credit proposals as part of the Three Initials Approving System / Management Credit Committee. The Credit Risk Heads are also

responsible for managing the overall segment portfolio and undertaking remedial actions/ thematic reviews as required.

- d. **Risk Control Unit (s):** Independent unit(s) responsible for review, monitoring and reporting of all risk control parameters and taking appropriate corrective actions where necessary. The Units are also responsible for ensuring compliance to internal policies and regulatory guidelines. The various units are given below:
- i. **Information Security Unit** – The Unit is responsible for ensuring compliance with and implementation of Information Security Management System and ensuring that sufficient measures are taken to protect the Bank’s Information assets.
  - ii. **Enterprise Risk Management Unit** – The Unit is responsible for implementation of ERM, Bank-wide RPT & Risk Aggregation, RAROC, Pillar II Risk assessment of – Reputational Risk, Compliance Risk, Concentration risk etc, BASEL II / III compliance, ICAAP review, migration to advanced approaches and Bank wide Stress testing.
  - iii. **Operational Risk Unit** - The Unit is responsible for identification, assessment and monitoring of Operational Risk of the Bank including Outsourcing Risk and Business Continuity Preparedness. The unit shall support Capital Compliance in migration to advanced approaches under Operational Risk.
  - iv. **Market Risk:** Responsible for the independent market risk and liquidity risk analysis and monitoring. Key functions of the team involve Policy review, limits review, Risk Modeling and Analytics, Basel II / III implementation towards Interest Rate Risks in Trading as well as Banking Book, Liquidity Risk, Counterparty Credit Risk in Financial Market products.
  - v. **Portfolio Analytics Unit (PAU)** - The Unit is responsible for monitoring the entire credit portfolio across all segments including monitoring of early warning signals, identifying portfolio trends and generating portfolio level MIS covering various credit quality indicators across various business units of the Bank. The unit is also responsible for scorecard development /implementation/testing for retail / program based lending.
  - vi. **Credit Risk Control Unit (CRCU)** – The Unit is responsible for independently reviewing the Bank’s credit policies and programs, conducting industry studies and determining industry outlook. The credit rating model (IRS) and related policies are also managed and enhanced on a continual basis by this team. It is also responsible for the Bank’s migration to IRB approach under Credit Risk.
  - vii. **Credit Mid Office (Credit Admin)** – The Unit is responsible for implementing the Credit administration policies, procedures and post sanction monitoring of the asset portfolio with respect to covenants / documentation. Responsible for reporting of the status of Borrower documentation/securities perfection. The Units also ensures compliance with regulatory guidelines on the credit proposals and adherence to internal systems & controls for operational risk management and compliance.

- viii. **Risk Containment Unit** – The Unit is responsible for proactive fraud anticipation & control, diagnostics / interpretation and resolutions for the Bank’s SME and retail business segments. The unit is further responsible for implementation of adequate measures to avert fraud and improving process transparency for the minimization or elimination of frauds to the largest extent possible. The Unit is also responsible for preparing regular reports on fraud control through both financial and non financial means, and managing various vendor agencies responsible for fraud control.

### 3. Credit Risk

#### **Credit Risk Management Objectives, Processes and Structure (CRM):**

The **Credit Risk Management Department (CRMD)** within the RMD consists of the Credit Risk Unit and the following Risk Control Units:

- Portfolio Analytics Unit (PAU)
- Credit Risk Control Unit (CRCU)
- Credit Administration Unit
- Risk Containment Unit.

The main role and responsibilities of CRMD includes:

- a. Measuring, controlling, reviewing and managing credit risk on Bank-wide basis within the limits set by the Bank’s Board of Directors/RMC/ RBI.
- b. Enforcing compliance with the credit risk parameters and credit exposure/ concentration limits set by the Board of Directors/ RMC/RBI.
- c. Laying down credit risk assessment systems and developing MIS, monitoring quality of loan/ investment portfolio, identifying problems, correcting deficiencies and undertaking loan review/audit.
- d. Conducting a complete risk analysis of the proposed obligor/ facility before approval of the credit
- e. The CRMD is also responsible for monitoring the quality of the entire loan/ investment portfolio and undertaking portfolio evaluations and conducting comprehensive studies to test the resilience of the loan portfolio.

#### **Policies & Processes**

The Bank’s Credit Policy, approved by the Board, outlines the credit risk governance framework. The objective of the Bank’s Credit Policy is to build and maintain a quality portfolio with sound and well-diversified credit risk distribution. Credit Risk Management is an important tool for achieving this objective, as it helps the Bank to:

- Take informed credit decisions based on an adequate assessment of the relevant risk factors
- Screen credit proposals and assume only such credit risk that is acceptable to the Bank to ensure better credit quality
- Optimise the risk return trade-off by providing guidelines for securing return commensurate with the risk involved in the credit
- Ensure diversification of the credit portfolio through various Board approved limits thus avoiding concentration in credit exposures to individual/ group borrowers, industry/ sector, credit rating, etc
- All these limits are monitored continually and reported to Senior Management on monthly basis and to the RMC/Board on quarterly basis

Risk identification and assessment is the first step in the credit risk management system. In case of wholesale segment, credit risk inherent in credit proposal is assessed by evaluating the below mentioned risk factors among others:

- Financial Risk: This would include an assessment of the entity's overall financial strength based on performance and financial indicators, as derived from its financial statements - historical and projected
- Business Risk: This entails an analysis of the fundamentals of the business unit, its competitive market position in the industry and its operational efficiency
- Industry Risk: This would include an evaluation of the competition/ entry barriers, industry cyclicity/outlook, regulatory risk/government policies and other contemporary issues
- Management Risk: This involves evaluation of the management of the enterprise, their risk philosophy, competence and past track record
- Project Risk: This involves evaluation of any significant project being undertaken by the company and its impact on the financials of the company.
- Conduct of Account: This involves evaluation of the credit behavior of the client with the bank

The creditworthiness and assessment of credit requirement are evaluated and determined in line with the risk rating of the borrower and the credit facilities are sanctioned accordingly. Borrowers in the Bank's credit portfolio which do not fall under the purview of rating models are scored/originated under a product program.

Credit Proposals are approved either through a Committee approach or through Joint Delegation, depending on rating and exposure thresholds outlined in the Bank's Credit Policy.

In case of retail assets segment, the Bank has various products programs in line with the relevant product needs of customers. The product programs generally address areas such as customer segmentation, exposure ceilings, approval authorities, exception reporting and risk assessment parameters like acceptable loan-to-value, maximum tenor & financial parameters. The product programs are cognizant of relevant regulatory guidelines, internal credit policy, market dynamics, bank's activities etc.

### **Credit Risk Identification, Measurement, Monitoring and Reporting**

The credit risk management function is largely centralized for both credit approvals and disbursements. It is well structured and staffed to ensure that the credit policy and regulatory

requirements are adhered to and implemented. Post sanction, an independent Credit Administration unit is responsible for ensuring that the credit policy guidelines and terms of sanction are adhered to.

The Bank has a risk rating system comprising multiple models that assign credit ratings to customers. The models are categorized into Corporate, Financial and Project models which assign ratings to the borrowers based on financial data, industry characteristics, business positioning, project characteristics and other non financial parameters. Model Validation is carried out by objectively assessing the discriminatory power and stability of ratings. All the models have defined hurdle rates, and lending to borrowers below the hurdle rate requires specific approvals as per the Credit Policy of the Bank. The core banking system is used to control and monitor utilization of limits under various products by customer and is also the repository for information on past dues and excesses. There is also a post disbursement tracking system that is used for monitoring appraisal conditions, financial covenants, documentation status etc. Borrowers in the Bank's credit portfolio which do not fall under the purview of rating models would be scored/originated under a product program.

The borrowers are reviewed at least on an annual basis. The analysis carried out during annual review would reflect not only the performance of the company but also the conduct of the account.

Credit Monitoring involves follow-up and supervision of the Bank's individual loans as well as the entire loan portfolio with a view to maintain the asset quality at the desirable level, through proactive and corrective actions, aimed at controlling and mitigating the risks to the Bank. The main objectives of Credit Monitoring are:

- (a) To ensure compliance with the terms and conditions of the credit sanctioned
- (b) To ensure the end-use of the Bank funds by the borrowers as per the approved purposes and prevent diversion of the funds for unauthorized purposes
- (c) To assess the health of the obligor at periodic intervals with reference to the key indicators of performance such as activity level, profitability, management standards
- (d) To identify early warning signals, if any, in individual accounts and initiate effective steps to mitigate the risk to the Bank, in consultation with the Segment Head and Risk Management Department
- (e) To periodically review the loan portfolio of the Bank or of its specified segment to assess the overall asset quality/ risk and compliance with the prudential norms

For retail banking borrowers, controls in loan underwriting are as enumerated in the respective product programs which are approved by the Bank's Product Program Approval Committee (PPAC) comprising Business, Risk, Compliance, Technology & Strategy leadership. Moreover, for granular lending cases where risk decision making is decentralized, the Bank practices hindsighting of the approved cases for the preceding quarter.

### **Policies for Mitigating Credit Risk**

Security management is instrumental in mitigating credit risk. It involves creation of enforceable charge over the borrower/third party assets in favour of the Bank, proper valuation/storage/maintenance and insurance of the securities so charged at regular intervals, in order that the Bank's advances/loans remain fully covered by the realizable value of the

securities charged to it. Further, the charged securities are valued at periodic intervals and stipulated margins are maintained at all times.

### **Definition and Classification of Non Performing Assets (NPA)**

The Bank classifies its outstanding into performing and non-performing in accordance with the extant RBI guidelines.

A Non Performing Advance (NPA) is defined as a loan or an advance where:

- i. interest and/ or installment of principal remains overdue for more than 90 days in respect of a term loan. Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the Bank
- ii. a bill purchased/discounted by the Bank remains overdue for a period of more than 90 days
- iii. interest and/or installment of principal in respect of an agricultural loan remains overdue for two crop seasons for short duration crops and one crop season for long duration crops
- iv. the regular/ad hoc credit limits have not been reviewed/ renewed within 180 days from the due date/ date of ad hoc sanction
- v. the account remains 'out of order' in respect of an overdraft/ cash credit (OD/CC). An account is treated as 'out of order' if:
  - a) the outstanding balance remains continuously in excess of the sanctioned limit/drawing power, or
  - b) where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of the balance sheet or credits are not enough to cover the interest debited during the same period,
- vi. Drawings have been permitted in working account for a continuous period of 90 days based on drawing power computed on the basis of stock statements that are more than three months old even though the unit may be working or the borrower's financial position is satisfactory,
- vii. An account would be classified as NPA if the interest due and charged during any quarter is not serviced fully within 90 days from the end of the quarter,
- viii. The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of guidelines on securitisation dated February 1, 2006
- ix. In respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

The Bank's loan portfolio is classified into 4 categories of assets as per extant RBI guidelines as follows:

- Standard Assets: These are Performing assets (or Non- NPAs)
- Non-Performing Assets (NPAs):

- Sub-standard Assets: i.e. an asset which remains irregular/out of order /overdue for more than 90 days and is classified as NPA for a period of 12 months from the date of such classification.
- Doubtful Assets: i.e. an NPA that remains Sub-standard Asset for a period of >12 months,
- Loss Assets: An asset that is identified as uncollectible and of such little value that its continuance as a bankable asset is not warranted although there may be some salvage or recovery value.

The Bank has established appropriate internal mechanism for prompt identification of NPA(s).

**4. Credit Risk: Portfolios subject to the Standardized Approach**

**Ratings used under Standardized Approach**

The Bank is using the ratings assigned by the following domestic external credit rating agencies, approved by the RBI, for risk weighting claims on domestic entities

- Credit Analysis and Research Limited (CARE)
- Credit Rating Information Services of India Limited (CRISIL)
- India Ratings and Research Private Limited (earlier known as Fitch India)
- ICRA Limited (ICRA)
- Brickwork Ratings India Pvt. Ltd
- SMERA Ratings Limited

The Bank is using the ratings assigned by the following international credit rating agencies, approved by the RBI, for risk weighting claims on overseas entities:

- Standard & Poor's
- Moody's
- Fitch Ratings.

**Types of exposures for which each agency is used**

The Bank has used the solicited ratings assigned by the above approved credit rating agencies for all eligible exposures, both on balance sheet and off balance sheet, whether short term or long term, in the manner permitted in the RBI guidelines on the New Capital Adequacy Framework (NCAF). While arriving at risk-weighted assets for credit risk under the standardized approach 'bank loan' ratings of the counterparty have been used. This would include Fund-based and Non-fund based facilities. In case of treasury facilities, the Bank has used 'Issuer' ratings of the counterparties, wherever available. In case the Bank does not have exposure in a rated issue, the Bank would use the issue rating for its comparable unrated exposures to the same borrower, provided that the Bank's exposures are pari-passu or senior and of similar or shorter maturity as compared to the rated issue. Further the lower rating, where there are two ratings and the second-lowest rating where there are three or more ratings are used in cases where multiple ratings for a given facility are considered.

**Details of credit exposures\* (funded and non funded\*\*) classified by risk buckets**

The table below provides the break-up of the Bank's net exposures\* into three major risk buckets.

Risk Weight Bands	₹ in Lacs	
	Fund Based Exposure*	Non Funded** Exposure*
Below 100% risk weight	6,198,463	1,696,912
100% risk weight	3,557,270	1,191,876
Above 100% risk weight	669,790	169,357
Deducted	-	-
<b>Total</b>	<b>10,425,523</b>	<b>3,058,145</b>

\*Represents book value as at September 30, 2014

\*\*Non-fund based exposures are guarantees given on behalf of the constituents, Letter of Credits, acceptances and endorsements

## 5. Credit Risk Mitigation- Disclosures for Standardized Approaches

The Bank's Credit Policy outlines the type of collateral that can be taken for different facilities and the process for its valuation.

Currently, eligible financial collateral in the form of fixed deposits under lien and guarantees issued by eligible guarantor as specified in RBI guidelines have been used as credit risk mitigants. In the case of fixed deposits under lien, the Bank reduces its credit exposure to counterparty by the value of the fixed deposits.

In case of exposures backed by guarantees, the guaranteed portion is assigned the risk weight of the guarantor when the conditions outlined by extant RBI guidelines are fulfilled.

The total exposure that is covered by guarantees and eligible financial collateral has been disclosed for each industry sector separately in the earlier section.

The credit risk mitigation taken is largely in the form of cash deposit with the Bank and thus the risk (credit and market) concentration of the mitigants is low.

## 6. Securitization : Disclosure for Standardized Approach

During half year ended September 30, 2014, the Bank did not securitize any of its assets.

The Bank however, acquires investment grade securitized debt instruments backed by financial assets originating from diverse sectors for regulatory /investment purposes. The Bank has processes in place to monitor the purchased securitization exposures by way of monthly review of servicer reports. Further, for managing the interest rate risk in the purchased securitized assets, the Bank uses PVBP as a sensitivity measure on a periodical basis.

With respect to the securitized exposures purchased, the valuation is carried out by applying an appropriate mark-up (reflecting associated credit risk) over the Yield To Maturity (YTM) rates of government securities. Such mark up and YTM rates applied are as per the relevant rates published by FIMMDA. There are no changes in the methods and key assumptions used in the current year as compared to the previous year.

### Banking Book- Securitization Exposures

During the half year ended September 30, 2014, the Bank did not undertake any securitization transaction in its Banking Book.

The Bank does not have any securitization exposure (retained or purchased) in its Banking book as at September 30, 2014.

### Trading Book- Securitization Exposures

In its Trading Book, the Bank has no retained exposures for exposures securitized by the Bank as at September 30, 2014.

The details of On- balance sheet & off balance sheet securitization exposures purchased and outstanding as at September 30, 2014 is given below.

## **7. Market Risk in Trading Book**

### **Market Risk Management Objectives, Processes and Structure**

Trading Book Market risk is the possibility of loss arising in Trading Book from changes in the value of a financial instrument as a result of changes in market variables such as interest rates, exchange rates, credit spreads and other asset prices.

### **Market Risk Governance Structure**

The Bank has implemented a robust and comprehensive Market Risk Management architecture.

The Board of Directors of the Bank defines the risk appetite, sets the market risk strategy and approves the market risk policies of the Bank.

The Bank's risk management processes are guided by the Board approved well defined policies independent risk oversight and periodic monitoring of portfolio by Risk Monitoring Committee (RMC).

Board approved ALM and Investment Policy define constitution of the Asset Liability Management Committee (ALCO) and the Investment Committee of the Bank which are responsible for monitoring of Market Risk under the overall guidance of the Risk Monitoring Committee (RMC) of the Bank. ALCO and Investment Committee are headed by MD&CEO of the Bank and include Key Top and Senior Management executives of the Bank.

These Committees of the Bank are supported by the Bank's independent Market Risk and Middle Office functions which measure and monitor Market Risk and highlight the exceptions, if any.

Key responsibilities of the Market Risk Function involve Policy / Limit review, Risk Modeling and Analytics, Basel implementation for Market Risk, Credit Risk measurement for treasury Products. Further, key responsibilities of Middle Office Function are independent Valuation, Risk Monitoring and Reporting.

### **Policies and Processes**

The market risk for the Trading Book of the Bank is managed in accordance to the Board approved Investment Policy, Market Risk Policy and Derivative Policy. These policies provide guidelines to the operations, Valuations, and various risk limits and controls pertaining to various securities, foreign exchange and derivatives. These policies enhance Bank's ability to transact in various instruments in accordance with the extant regulatory guidelines and provide sound foundation for day to day Risk Control, Risk management, and prompt business decision making. The Bank also has a Stress Testing Policy and Framework which enables Bank to capture impact of various stress scenarios on Trading Book Portfolio. All these policies are reviewed periodically to incorporate changes in economic, business and regulatory environment.

Further, the Bank has implemented a state-of-the-art Treasury system which supports robust risk management capabilities and facilitates Straight-through Processing and supports the Bank to monitor its Risk actively.

The Bank also has strong MIS framework which provides relevant and timely information to relevant Management Executives, ALCO, Investment Committee as well as RMC and Board of the Bank. The Bank also periodically reports related portfolio information to the regulators in compliance with the regulatory requirement.

### **Market Risk Identification, Measurement, Monitoring and Reporting**

Risk management and reporting is based on globally accepted parameters such as Modified Duration, PVO1, Exposure and Gap Limits, VaR, etc. As per the Market Risk Policy, limits have been set for Forex Open Position limits (Daylight / Overnight), stop-loss limit, Sensitivity limit, VaR limit and exposure limits which are monitored on a daily basis. Back testing of the current VaR model is carried out on a daily basis and reported to Investment Committee on Monthly basis.

Corporate Investment Portfolio of the Bank is evaluated through detailed credit appraisal process and parameters detailed in Board approved Credit Risk Policy of the Bank.

### **Approach for Computation of Capital Charge for Market Risk**

Bank has adopted the Standardised Duration Approach as prescribed by RBI for computation of capital charge for market risk and is already fully compliant with such RBI guidelines. Standardised Duration Approach is applied for calculation of Market Risk for:

- ✓ Securities under HFT category
- ✓ Securities under AFS category
- ✓ All Derivatives except those entered into for Hedging Balance Sheet
- ✓ Open foreign exchange position
- ✓ Equity positions.

<b>Amount of Capital required for Market Risk as at September 30, 2014</b>	<b>₹ in Lakhs</b>
Interest rate risk	64,892
Foreign Exchange risk	3,000
Equity position risk	10,589
<b>Total capital required for Market Risk</b>	<b>78,481</b>

## 8. Operational Risk

Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational Risk includes legal risk but excludes strategic risk and reputation risk.

### Operational Risk Governance Structure

The Bank has comprehensive Operational Risk Management framework. The Board of Directors of the Bank defines the risk appetite, sets the risk management strategies and approves the operational risk policies of the Bank. The Bank's risk management processes are guided by well defined policies appropriate for various risk categories, independent risk oversight and periodic monitoring by Risk Monitoring Committee (RMC).

For the effective management of Operational Risk, the Bank has constituted the Operational Risk Management Committee (ORMC) consisting of senior management personnel. The ORMC, which supports the Risk Monitoring Committee (RMC) of the Board of Directors, is responsible for implementing the Operational Risk Management Policy and adopting the best practices. The key functions of the ORMC are:

- Establish clear lines of management responsibility, accountability, and reporting in such a manner that they are distinct to avoid conflict of interest
- Implement operational risk framework
- Review all significant operational risk events and suggest process improvements and mitigants

Additionally, with a view to ensure sound practices in respect of governance of the overall operational risk, the Bank has outlined policies and processes in respect of Information & Physical Security; Outsourcing; Business Continuity Planning & IT Disaster Recovery; Records Management, Fraud Control and Customer Service.

For effective implementation of the above policies Bank has also put in place various committees such as:

- Security Council committee (Physical & Information)
- Outsourcing Management committee
- Fraud Monitoring and Suspicious Transaction Monitoring Committee
- Standing Committee on Customer Service & Service Excellence Committee
- Product Program Approval Committee (PPAC)

These committees meet on a predefined frequency to discuss the implementation of best practices/risk management frameworks, various related events within the Bank, recent development and key actions steps required if any. The minutes of these meetings are reported and discussed in Risk Monitoring Committee as well as to the Board of Directors.

## **Policies & Processes**

The Bank has in accordance with the regulatory guidelines, implemented a comprehensive board approved Operational Risk Management Policy to put in place an operational risk management as an integral part of its overall Risk Management Architecture. The overall objective of the policy is:

- Determine Bank's appetite for Operational Risk
- Framework to identify, assess and monitor operational risk for effective mitigation
- Strengthen overall control environment at the Bank
- Improvement in customer service and minimise operational losses

The bank has also put in place a comprehensive Operational Risk Events and Loss Data Policy detailing types of Operational Risk Events and Losses, Process for Management of Operational Risk Events and Losses, Categorization of Operational Risk Events etc.

## **Operational Risk Identification, Measurement, Monitoring and Reporting**

The Bank has implemented a systematic process for identifying, assessing and recording operational risk events with or without financial impact on a periodical basis. These events are then analyzed for root cause and corrective actions are implemented.

The Bank has adopted best practices in mitigating operational risk in transaction processing, adherence to defined policies & laws, customer documentation and business continuity through:

- Well defined, documented and updated process manuals and policies
- Centralized processing at National Operating Centres
- Segregation of duties, maker checker concept, automated processes
- Transaction monitoring and analysis
- Additional checks for high value transactions, reconciliation of accounts & data, control MIS for various limits, periodical trainings, standardized documentations, authorization matrix, regular process reviews and business continuity /disaster recovery testing

The Bank has also taken insurance for certain types of operational risk including bankers indemnity, cash movement, electronic and cyber crimes and fixed assets to cover operational risk losses.

Besides the above, the Bank also undertakes the following to proactively identify operational risks in the operations and external environment.

- Robust processes for review of products and critical process prior to launch/modifications
- Comprehensive Risk Control and Self Assessment (RCSA) of processes in critical units
- Monitoring of Key Risk Indicators for Operational Risk against pre-defined risk thresholds
- Monitoring of external OR events/frauds and gaining insights for improvements in processes/controls.

## **Approach for Computation of Capital Charge for Operational Risk**

In accordance with Reserve Bank of India guidelines, the Bank has adopted the Basic Indicator Approach (BIA) for measurement of Operational Risk. The Bank is also undertaking various steps for migration to Advanced Approaches for computation of Capital Charge for Operational Risk.

### **9. Interest rate risk in the Banking Book (IRRBB)**

Interest Rate Risk in Banking Book (IRRBB) is the risk which impacts assets and liabilities of Bank's non-trading (core) exposures which are contracted for steady income and statutory obligations and are generally held till maturity. Interest rate risk is measured as the potential volatility in the Bank's core net interest income caused by changes in market interest rates. Difference in pricing parameters of these Assets and Liabilities which may be due to different tenor, asset type, liability type or other parameters exposes the Bank to possible loss. Objective of the Bank is to limit IRRBB under Board approved risk limits.

#### **IRRBB Governance Structure**

The Bank has implemented a robust and comprehensive IRRBB Management architecture.

The Board of Directors of the Bank defines the risk appetite, sets the strategy and approves the ALM policy of the Bank. The Bank's risk management processes are guided by the Board approved well defined policies, independent risk oversight and periodic monitoring of portfolio by Risk Monitoring Committee (RMC). The Risk Monitoring Committee (RMC) also reviews various decisions taken by the Asset Liability Management Committee (ALCO) for managing IRRBB.

Board approved ALM policy has defined the constitution of the ALCO which is responsible for evaluating and institutionalizing appropriate systems and procedures for monitoring and managing the IRRBB under the overall guidance of the Risk Monitoring Committee (RMC) of the Bank. ALCO is headed by MD&CEO of the Bank and include Key Top and Senior Management executives of the Bank.

Independent Market Risk function of the Bank has dedicated team which measures and monitors IRRBB Risk and highlights the exceptions, if any. Key responsibilities of this team involve Policy / Limit review, Limit compliance monitoring, Modeling and Analytics, Basel implementation for IRRBB.

#### **Policies and Processes**

IRRBB of the Bank is managed in accordance to the Board approved ALM and Market Risk Policy. The Bank also has a Stress Testing Policy and Framework which enables Bank to capture impact of various stress scenarios on Banking Book Portfolio. All these policies are reviewed periodically to incorporate changes in economic, business and regulatory environment.

#### **IRRBB Identification, Measurement, Monitoring and Reporting**

IRRBB architecture is the framework to measure, monitor and control the adverse impact of interest rates on the Bank's financial condition within tolerable limits. This impact is calculated from following perspectives:

a) **Earnings perspective:** Indicates the impact on Bank's Net Interest Income (NII) in the short term.

b) **Economic perspective:** Indicates the impact on the net-worth of bank due to re-pricing of assets, liabilities and off-balance sheet items.

The ALM & Market Risk Policies define the framework for managing IRRBB through measures such as:

1. **Interest Rate Sensitivity Report:** Measures mismatches between rate sensitive liabilities and rate sensitive assets (including off-balance sheet positions) in various tenor buckets based on re-pricing or maturity, as applicable.
2. **Duration Gap Analysis:** Measures the mismatch in duration of assets & liabilities and the resultant impact on economic value of bank's capital.
3. **Banking Book Value at Risk (VaR):** Estimates the maximum possible loss, at a predefined confidence level, on the market value of banking-book over a certain time horizon under normal conditions.
4. **Earnings at Risk (EaR):** Estimates the impact on net interest income over one year horizon due to 1% changes in interest rates.
5. **Sensitivity Analysis:** Evaluates the impact on both trading and banking book due to parallel and non parallel shifts in interest rates.
6. **Stress Testing:** Evaluates the impact on duration of capital of banking book under various stress scenarios.

All the above risk metrics are measured on regular basis and reported to ALCO/RMC periodically as guided by the ALM policy of the Bank.

### Impact of Interest rate Risk

₹ in Lakhs

Earnings Perspective (Impact on Net Interest Income)		
Currency	If interest Rate were to goes down by 100 bps	If interest Rate were to goes up by 100 bps
INR	(24,388)	24,388
USD	2,335	(2,335)
Others	129	(129)
<b>Total</b>	<b>(21,924)</b>	<b>21,924</b>

<b>Economic Value Perspective (Impact on Market Value of Equity)</b>		
Currency	If interest Rate were to goes down by 100 bps	If interest Rate were to goes up by 100 bps
INR	17,919	(17,919)
USD	(339)	339
Others	(752)	752
<b>Total</b>	<b>16,828</b>	<b>(16,828)</b>

**Notes**

1. The above impact is for 100 bps parallel shift in the interest rates for both assets and liabilities.
2. The above computation doesn't include Non SLR AFS investments (which already form part of Trading Book for capital computation) which are contracted on account of relationship / steady income and generally with a long term holding horizon.

**10. Exposures related to Counterparty Credit Risk**

Counterparty Credit Risk (CCR) is the risk of default by the counterparty towards settlement of the transaction before or at maturity. Counterparty credit risk management framework for financial market products of the Bank is governed by:

- Credit Risk Policy – for credit related processes around limit set-up as well as measurement and monitoring.
- Derivative Policy and Derivative Appropriateness Policy – for product related framework.

Counterparty Credit Risk (CCR) Limits are approved based on guidelines outlined in the Bank's Credit Policy and requirements of the counterparties. Eligible Bank Counterparties are assessed based on an internal model that considers parameters such as credit rating, capital adequacy, resource raising ability, asset quality, management assessment, profitability, liquidity and systemic importance. In case of other counterparties, CCR limit is approved based on a detailed credit assessment process followed by the Bank as per the Credit Policy. CCR limits are set on the amount and tenor while fixing the limits to respective counterparties with limits for various products and post approval of the credit limit, the credit exposures are monitored on a daily basis against approved limits.

All the Derivative transactions with the Counterparty are evaluated through Board approved Derivative Suitability and Appropriateness Policy of the Bank. The Bank has classified various derivative transactions in categories based on complexity of the transactions. Counterparties are evaluated based on their financial strength, subject understanding and infrastructure vis-à-vis complexity category of the transaction type for eligibility to transact.

In addition to this, the MTM for the clients are monitored on a regular basis and circulated to the top management of the Bank. Also, the Bank monitors concentration in MTM exposures across currency pairs, ratings, products, maturities, to understand the inherent credit risk in the

derivatives portfolio to enable the management to focus on key risk areas. The Bank also tries to monitor the quality of the underlying by trying to capture if the underlying exposure being hedged by the derivative is an existing exposure of the Bank. Capital for CCR exposure is assessed based on Basel Standardized Approach.

### **Policies for securing collateral and establishing credit reserves**

In order to mitigate CCR, the Bank has Credit Risk mitigation measures viz. collateralization, guarantees, netting, break clause, etc which form a part of the Derivative Policy and are exercised by the Bank as and when deemed necessary.

### **Impact of the amount of collateral the bank would have to provide given a credit rating downgrade**

The Bank has not signed any CSA with counterparties that require maintenance of additional collateral in the event of credit rating downgrade and any such impact is currently not quantifiable.

### **Policies with respect to wrong-way risk exposures**

Wrong way risk arises if the exposure tends to increase when the counterparty credit quality gets worse. Wrong way risk is qualitatively judged at this point by the Bank. The Bank will evaluate quantitative measures to compute the wrong way risk when it feels there is a significant risk to the portfolio.

The Bank does not recognize bilateral netting. However for exposure guaranteed by central counterparties, the bank recognises netting of MTM for deals having same expiry date. The derivative exposure is calculated using Current Exposure Method (CEM) and the balance out standing as on September 30, 2014 is given below.

	(₹ in Lakhs)		
<b>Particulars</b>	<b>Notional Amount</b>	<b>Current Exposure</b>	<b>Gross Positive MTM</b>
Foreign Exchange Contracts	14,390,415	391,354	128,594
Interest Rate Derivative Contracts	4,456,433	69,154	29,066
Currency Swaps	569,156	106,849	54,355
Currency Options	375,028	18,466	6,763
<b>Total</b>	<b>19,791,032</b>	<b>585,823</b>	<b>218,779</b>

1. *Currency Options includes only bought options*
2. *Current Exposure of Foreign Exchange Contracts includes 100% of Default Fund and margin utilised under Settlement Guarantee Fund with CCIL.*

## Full Terms and Conditions of Regulatory Capital Instruments

### (A) Common Equity Capital

Sr. No.	Criteria	Terms of Equity Shares of YES BANK
1	Voting shares	Equity shares of YES Bank are voting shares
2	Limit on voting rights	Limits on voting rights, if any, are applicable as per provisions of the Banking Regulation Act, 1949
3	Position in subordination hierarchy	Represent the most subordinated claim in liquidation of the Bank. The paid up amount is neither secured nor covered by a guarantee of the issuer or related entity nor subject to any other arrangement that legally or economically enhances the seniority of the claim.
4	Claim on residual assets	Entitled to a claim on the residual assets, which is proportional to its share of paid up capital, after all senior claims have been repaid in liquidation
5	Perpetuity	Principal is perpetual and never repaid outside of liquidation (except discretionary repurchases / buy backs or other means of effectively reducing capital in a discretionary manner that is allowable under relevant law as well as guidelines, if any, issued by RBI in the matter). The Bank does nothing to create an expectation at issuance that the instrument would be bought back, redeemed or cancelled, nor do the statutory or contractual terms provide any feature which might give rise to such an expectation.
6	Distributions	Distributions are paid out of distributable items (retained earnings included). The level of distributions is not in any way tied or linked to the amount paid up at issuance and is not subject to a contractual cap (except to the extent that a bank is unable to pay distributions that exceed the level of distributable items).  Distributions are paid only after all legal and contractual obligations have been met and payments on more senior capital instruments have been made.
7	Loss absorption	It is the paid up capital that takes the first and proportionately greatest share of any losses as they occur. Within the highest quality capital, each instrument absorbs losses on a going concern basis proportionately and paripassu with all the others.
8	Accounting classification	The paid up amount is classified as equity capital. It is clearly and separately disclosed in the Bank's balance sheet.

9	Directly issued and paid-up	Shares are directly issued and paid up. The Bank cannot directly or indirectly fund the purchase of its own Equity shares
10	Approval for issuance	Paid up capital is only issued with the approval of the shareholders of the Bank, either given directly by the shareholders or, if permitted by applicable law, given by the Board of Directors or by other persons duly authorised by the shareholders.

## (B) Innovative Perpetual Debt Instruments and Tier II capital

The Bank has been raising capital funds by means of issuance of Innovative Perpetual Debt Instruments (IPDI), Upper Tier II and Subordinated bonds. Instruments which are non compliant with the eligibility criteria set under Basel III Capital Regulations are phased out in computation of Tier 1 and Tier 2 Capital under the transitional provisions specified in RBI Master Circular on Basel-III Capital Regulations, July, 2013.

The details of IPDI, Upper Tier II and Subordinated Debt (Unsecured Redeemable Non-convertible Subordinated Bonds in the nature of Promissory Notes/Debentures), issued by the Bank and outstanding as of March 31, 2014 are given below.

### Tier 1 Capital Instruments

<b>1) Instrument</b>	<b>Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes</b>
<b>Credit Rating</b>	'LA +' by ICRA & 'CARE A+' (A Plus) by CARE
<b>Issue Size</b>	Rs. 116 crore including Green shoe option of Rs 66 Crore
<b>Face Value/Issue Price</b>	Rs 10,00,000/- per Bond
<b>Minimum Application Size</b>	1 Bond and in multiples of 1 Bond thereafter
<b>Tenor</b>	Perpetual
<b>Coupon Rate</b>	10.25% p.a
<b>Interest Payment Frequency</b>	Annual
<b>Interest on application money</b>	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
<b>Interest Payment Date</b>	21 <sup>st</sup> February of every year
<b>Lock-in Clause</b>	In terms of RBI Master circular no. DBOD.No.BP.BC.11/21.06.001/2008-2009 dated July 1, 2008, on Prudential Guidelines on Capital Adequacy and Market Discipline- Implementation of new Capital Adequacy Framework covering norms for raising of instruments eligible for inclusion under Tier-I capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in

<b>1) Instrument</b>	<b>Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes</b>
	net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest shall not be cumulative.
<b>Record Date</b>	For interest payment Record Date would be 30 days prior to Interest Date. In case of exercise of Call Option record date shall be 10 working days prior to date of call option.
<b>Put/ Call Option</b>	No Put Option, Call option exercisable at the end of 10 years from the deemed date of allotment and on every interest date thereafter (exercisable only with RBI approval).
<b>Step up Option</b>	50 basis points over and above the initial coupon rate of 10.25% at the end of 10 years from the deemed date of allotment, if the call option is not exercised by the Bank
<b>Date of Allotment</b>	February 21, 2009
<b>Listing</b>	BSE Debt Segment
<b>Depository</b>	National Securities Depositories Limited & Central Depository Services (India) Limited

<b>Credit Rating</b>	[ICRA] A (hyb)
<b>Mode of Issue</b>	Private Placement
<b>Issue Size</b>	Rs 280 Crore
<b>Face Value/Issue Price</b>	Rs 10,00,000 per Bond
<b>Objects of the Issue</b>	Augmenting Tier - I Capital and overall Capital of the Bank and enhancing long term resources
<b>Minimum Application Size</b>	1 Bond and in multiples of 1 Bond thereafter
<b>Tenor</b>	Perpetual
<b>Security</b>	Unsecured
<b>Conversion</b>	Non-convertible
<b>Coupon Rate</b>	10.50% p.a. Fixed rate instrument. No coupon Reset
<b>Interest Payment Frequency</b>	Annual (The interest shall not be cumulative)

Interest Payment Date	December 31 of every year
Record Date	For interest payment and exercise of Call Option Record date would be 15 days prior to Interest Date/ Call option date /redemption date.
Computation of Interest	Interest payable will be calculated on the basis of actual number of days elapsed in a year of 365 or 366 days as the case may be(Actual/ Actual)
Coupon Discretion	<p>(i) The Bank has Full Discretion at all times to cancel coupon distributions/payments. On cancellation of distributions/payments, these payments will be extinguished and Bank shall have no obligation to make distributions/payments in kind as well.</p> <p>(ii) Bank shall have full access to cancelled payments to meet obligations as they fall due.</p> <p>(iii) Cancellation of discretionary payments shall not be an Event of Default.</p> <p>(iv) Cancellation of distributions/payments must not impose restrictions on the bank except in relation to distributions to common stakeholders as explained in the Dividend Stopper clause below.</p> <p>(v) Coupons shall be paid out of distributable items as per prevailing Indian Laws and RBI guidelines.</p> <p>(vi) The interest shall not be cumulative. This means that interest missed in a year will not be paid in future years, even if adequate profit is available and the level of CRAR conforms to the regulatory minimum. If coupon is paid at a rate lesser than the prescribed rate, the unpaid amount will not be paid in future years, even if adequate profit is available and the level of CRAR conforms to the regulatory minimum.</p> <p>(vii) Distributions/payments by the Bank will be subject to the Minimum Capital Conservation Ratios the Bank must meet at various levels of the Common Equity Tier 1 capital ratios after including the current periods retained earnings (subject to RBI guidelines) and the minimum Capital Requirements to be complied by the Bank at all times (Consolidated &amp; Solo Level) as per RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
Dividend Stopper Clause	If for any reason Coupons are not paid within 30 Business Days after Coupon Payment Date on this issue of Perpetual Debt Instruments (PDIs), a Dividend Stopper will apply to the Bank subject to <b>Restrictions on Dividend Stopper Clause</b> and the following Conditions:

	<p>The Dividend Stopper will restrict the Bank from paying dividend payments on Common Shares issued by the Bank and prohibit Bank's actions that are equivalent to the payment of a dividend such as Discretionary Share Buybacks made, if otherwise permitted</p> <p>The Dividend Stopper can be lifted if majority of Perpetual Debt Instruments (PDIs) Holders approve such an action and RBI does not otherwise object, or if during the following 12 months the Bank pays all scheduled Coupons on Perpetual Debt Instruments (PDIs) in full.</p>
Restrictions on Dividend Stopper Clause	<p>The exercise of 'Dividend Stopper' clause by the holders of this Perpetual Debt Instruments (PDIs) issue shall not impede/hinder :-</p> <ul style="list-style-type: none"> <li>(i) The Full Discretion that the Bank has at all times to cancel distributions/payments on this issue of Perpetual Debt Instruments (PDIs).</li> <li>(i) The Re-Capitalization of the bank.</li> <li>(ii) The Bank's right to make payments on another instruments where payments are not Fully Discretionary.</li> <li>(iii) The Bank's right to making distributions to shareholders for a period that extends beyond the point in time that coupon /dividends on the Additional Tier 1 instrument are resumed</li> <li>(iv) The normal operation of the bank or any restructuring activity (including acquisitions/disposals).</li> </ul>
Put Option	No Put Option
Call Option	<p>The exercise of Call Option by the Bank will be subject to ALL of the below mentioned conditions.</p> <ul style="list-style-type: none"> <li>a) The instrument has run for at least ten years</li> <li>b) The prior approval of RBI (Department of Banking Operations &amp; Development).</li> <li>c) The instrument is replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank</li> </ul> <p>OR</p> <ul style="list-style-type: none"> <li>d) The bank demonstrating to RBI that its capital position is well above the minimum capital requirements after the Repurchase / Buyback /</li> </ul>

	Redemption. Here, minimum refers to Common Equity Tier 1 of 8% of RWAs (including capital conservation buffer of 2.5% of RWAs) and Total Capital of 11.5% of RWAs including any Additional Capital Requirement identified under Pillar 2.
Exercise of Calls Options in Tax Events and Regulatory Event	<p>(i) Bank may call the instrument due to the occurrence of Tax events or Regulatory event only if permitted by RBI.</p> <p>(ii) RBI may permit such type of calls only if it is convinced that the bank was not in a position to anticipate these events at the time of issuance of Perpetual Debt Instruments (PDIs) as per RBI Master circular on Basel-III Capital Regulations July 1, 2013.</p>
Repurchase / Buy-back / Redemption of the Perpetual Debt Instruments (PDIs)	<p>Bank may repurchase / buy-back / redeem the Perpetual Debt Instruments (PDIs) with prior approval of RBI only if:-</p> <p>(i) The instrument is replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank</p> <p style="text-align: center;"><b>OR</b></p> <p>(ii) The bank demonstrating to RBI that its capital position is well above the minimum capital requirements after the Repurchase / Buyback / Redemption. Here, minimum refers to Common Equity Tier 1 of 8% of RWAs (including capital conservation buffer of 2.5% of RWAs) and Total Capital of 11.5% of RWAs including any Additional Capital Requirement identified under Pillar 2.</p>
Listing	BSE Limited
Depository	National Securities Depository Limited and Central Depository Services (India) Limited
Deemed Date of Allotment	December 31, 2013
Trustee	AXIS Trustee Services Limited
Settlement	Payment of interest and repayment of principal shall be made by way of cheque(s)/ interest/redemption warrant(s)/ demand draft(s)/credit through RTGS/NECS system

Seniority of Claim	The claims of the investors in Bonds being issued for inclusion in Additional Tier I capital shall be (a) superior to the claims of investors in equity shares of the Bank, (b) superior to the claims of investors in perpetual non-cumulative preference shares issued by the Bank, if any, (c) subordinated to the claims of depositors, general creditors and subordinated debt of the bank and (d) is neither secured nor covered by a guarantee of the issuer nor related entity or other arrangement that legally or economically enhances the seniority of the claim vis-à-vis bank creditors
Loss Absorbency clause at the occurrence of an Objective Pre-Specified Trigger Point.	<p>The Perpetual Debt Instruments (PDIs) has '<b>Principal Loss Absorption</b>' feature as per RBI's Basel-III Capital Regulations, while the Bank remains a Going Concern. This Principal Loss Absorption feature shall be executed through Full / Partial Temporary Write-down or Full / Partial Permanent Write-off, which allocates losses to the Perpetual Debt Instruments (PDIs) at the Objective Pre-Specified Trigger Point as defined by RBI and mentioned below in the <b>Objective Pre-Specified Trigger Point for Loss Absorbency Clause</b></p> <p><b>The write-down will have the following effects:</b></p> <ul style="list-style-type: none"> <li>(i) Reduce the claim of the Perpetual Debt Instruments (PDIs) in liquidation.</li> <li>(ii) Reduce the amount re-paid when a call is exercised.</li> <li>(iii) Partially or fully reduce coupon payments on the instrument.</li> </ul> <p>Various criteria for Loss Absorption through write-down / write-off on breach of Objective pre-specified trigger per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
Objective Pre-Specified Trigger Point for Loss Absorbency Clause	The Pre-specified Trigger for Loss Absorption through Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off of the level of Perpetual Debt Instruments (PDIs) is fixed at Bank's Common Equity Tier-1 Ratio (CET1) of 6.125% of Risk Weighted Assets of the Bank.
Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	<ul style="list-style-type: none"> <li>(i) The option for Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off to be exercised on breach of Objective pre-specified trigger vests with the Bank subject to conditions specified in RBI Basel - III Capital Regulations.</li> <li>(ii) If Full / Partial Temporary Write-Down or Full /</li> </ul>

	Partial Permanent Write-off option is exercised, it shall be exercised across all investors of this particular issue of Perpetual Debt Instruments (PDIs).
Limitations on Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	<p>(i) The Full / Partial write-down can be allowed more than once in case the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial.</p> <p>(ii) The AT-I instruments (including this issue of Perpetual Debt Instruments (PDIs)) once Written-up can be Written-Down again.</p>
Write Up Option	Available subject to conditions per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013
Loss Absorbency clause at the Point of Non-Viability of the Bank	<p>The instrument has the following features exercisable at the option of the Reserve Bank of India, upon the occurrence of the 'Point of Non-Viability (PONV) Trigger:</p> <ol style="list-style-type: none"> <li>a. Temporary/permanent write-off, if there is no public sector injection of funds.</li> <li>b. Permanent write-off if there is Public sector injection of funds.</li> </ol> <p>The amount of Perpetual Debt Instruments (PDIs) for temporary/permanent write-off will be determined by RBI.</p>
Point of Non-Viability (PONV) Trigger	<p>As per Basel-III Guidelines, the 'Point of Non-Viability (PONV) Trigger' event is the earlier of :-</p> <ol style="list-style-type: none"> <li>a. A decision that a temporary/permanent write-off, without which the Bank would become 'Non-viable', is necessary, as determined by the Reserve Bank of India; and</li> <li>b. The decision to make a public sector injection of capital, or equivalent support, without which the Bank would have become 'Non-viable', as determined by the relevant authority. The write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. The AT-1 instruments (including this issue of Perpetual Debt Instruments) with write-off clause will be permanently written-off if there is public sector injection of funds.</li> </ol>

	<p>The Trigger at PONV will be evaluated both at Consolidated and Solo level and breach at Either level will Trigger temporary/permanent write-off.</p> <p>The clauses related to the Loss Absorbency criteria, the process to determine 'PONV' and the operation of the clause in various circumstances are per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
<p>Limits on Exercise of temporary/permanent write-off Option at the Point of Non-Viability of the Bank</p>	<p>The write-down can be allowed more than once if the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial. The Perpetual Debt Instruments (PDIs) once written-up can be written-down again.</p>
<p>Order of Write-down of Various Types of Regulatory Capital Instruments at Objective Pre-specified Trigger and PONV</p>	<p>The Basel-III Compliant Perpetual Debt instruments shall be written-down in the order in which they shall absorb losses in a Gone Concern situation as per RBI guidelines / directives. The sequencing/ Ranking for Temporary write-down or Permanent Write-Off of various types of Basel-III Compliant Regulatory Capital instruments issued by the bank/ will be issued in future by the Bank is mentioned below:-</p> <ol style="list-style-type: none"> <li>a. In the event of occurrence of Loss Absorption Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV), the Common Equity Capital shall be written down first. The Common Equity Share holders shall rank paripassu amongst themselves for Loss Absorption.</li> <li>b. All the Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) qualifying as Additional Tier-1 instruments issued by the bank/to be issued in future by the Bank, which have Loss Absorption Clause at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV) as per the terms and conditions of the issue(s) shall rank <i>pari-passu</i> amongst themselves and hence shall be Temporarily written-down (Full/partial) or Permanently Written-Off (Full/partial) in <i>pari-passu</i> upon the occurrence of Loss Absorption Trigger Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV). The Write Down of PDI instruments, as mentioned above, shall be done subsequent to the Write-</li> </ol>

	<p>Down of Common Equity Capital.</p> <p>c. All the Basel-III Compliant Tier 2 bonds issued by the Bank/ to be issued in future by the bank which have Loss Absorption Clause upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as per the terms and conditions of the issue (s) shall rank pari-passu amongst themselves and hence shall be Temporarily written-down or Permanently Written-Off in pari-passu upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as decided by RBI. However, the Basel-III Compliant Tier II bonds shall absorb losses only if Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) issued by the Bank with Loss Absorbency Clause in their terms and conditions have been written down/written-off and such written down/written-off is insufficient to absorb the losses fully/ or to the extent of amount as decided by the RBI to restore the viability of the Bank.</p>
Treatment of the instrument in Insolvency	The Perpetual Debt Instruments (PDIs) instrument shall not contribute to liabilities exceeding assets if such a balance sheet test forms part of a requirement to prove insolvency under any law or otherwise.
Re-Capitalization of the Bank	<p>i. The investors cannot hinder Re-Capitalization of the Bank, if needed.</p> <p>The Bank shall not compensate investors of this issue of Perpetual Debt Instruments (PDIs) if a new Capital Instrument is issued at a lower price during at the currency of this Perpetual Debt Instruments (PDIs).</p>
Cross Default	Not applicable
Treatment of Basel-III compliant PDI instrument of Re-Constitution / Amalgamation/ Acquisition / Winding-Up / Liquidation of the Bank	As per terms and conditions specified in Annex 16 of RBI master circular on Basel-III Capital Regulations, ( <i>Paras 2.9 to 2.15 and para 3.9</i> ), dated July 1, 2013

## Tier 2 Capital Instruments

<b>1) Instrument</b>	<b>Unsecured, Redeemable Non Convertible, Subordinated Bonds in the nature of promissory notes</b>
<b>Credit Rating</b>	'LAA-' by ICRA & 'CARE AA-' by CARE
<b>Issue Size</b>	Rs. 100 Crore plus Greenshoe Option upto Rs.80 Crore
<b>Face Value/Issue Price</b>	Rs 10,00,000/- per Bond
<b>Minimum Application Size</b>	5 Bonds
<b>Tenor</b>	9 years 6 months
<b>Coupon Rate</b>	9.10 % p.a.
<b>Interest Payment Frequency</b>	Annual
<b>Interest on application money</b>	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
<b>Interest Payment Date</b>	November 7 each year and May 7 in the year of maturity
<b>Record Date</b>	For interest payment record date would be 30 days prior to interest date
<b>Put/Call Option</b>	Nil
<b>Step Up Option</b>	Nil
<b>Deemed Date of Allotment</b>	November 7, 2006
<b>Redemption</b>	Bullet Redemption at par at the end of tenor of the bond
<b>Maturity Date</b>	May 7, 2016
<b>Listing</b>	NSE WDM Segment
<b>Trustee</b>	IDBI Trusteeship Services Ltd.
<b>Issuance &amp; Trading</b>	Demat Mode

<b>2) Instrument</b>	<b>Unsecured, Redeemable Non Convertible, Upper Tier II Bonds in the nature of debentures</b>
<b>Credit Rating</b>	'LA +' by ICRA & 'CARE A+' (A Plus) by CARE
<b>Issue Size</b>	Rs.80 crore
<b>Face Value/Issue Price</b>	Rs 10,00,000/- per Bond
<b>Minimum Application Size</b>	5 Bonds
<b>Tenor</b>	15 years
<b>Coupon Rate</b>	9.73% p.a.
<b>Interest Payment Frequency</b>	Annual
<b>Interest on application money</b>	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
<b>Interest Date</b>	January 02 each year
<b>Record Date</b>	In case of exercise of Call Option record date shall be 10 working days prior to date of call option
<b>Put/ Call Option</b>	No Put Option, Call option exercisable after 10 years i.e. on January 02, 2017 (exercisable only with RBI approval)
<b>Step up Option</b>	50 basis points over and above coupon rate of 9.73%, if the call option is not exercised by the Bank
<b>Deemed Date of Allotment</b>	January 02, 2007
<b>Redemption</b>	At the end of 15 years from the deemed date of allotment (with prior approval of RBI)
<b>Maturity Date</b>	January 02, 2022
<b>Lock-in-clause</b>	In terms of RBI circular no. DBOD.No.BP.BC.57/21.01.2002/ 2005-2006 dated January 25, 2006, on enhancement of banks' capital-raising options covering norms for raising of instruments eligible for inclusion under Upper Tier-II capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest amount due and remaining unpaid may be allowed to be paid in the later years subject to the Bank complying with the above regulatory requirement.

<b>Step up Option</b>	NIL
<b>Deemed Date of Allotment</b>	March 30, 2012
<b>Maturity Date</b>	March 28, 2027
<b>Redemption</b>	At the end of 15 years from the deemed date of allotment (with prior approval of RBI)
<b>Lock-in-Clause</b>	In terms of RBI circular no. DBOD.No.BP.BC.57/21.01.2002/2005-2006 dated January 25, 2006, on enhancement of banks' capital-raising options covering norms for raising of instruments eligible for inclusion under Upper Tier-II capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest amount due and remaining unpaid may be allowed to be paid in the later years subject to the Bank complying with the above regulatory requirement.
<b>Issuance &amp; Trading</b>	Physical
