

YES BANK LIMITED

DISCLOSURES UNDER THE BASEL III CAPITAL REGULATIONS September 30, 2015

The RBI guideline on 'Basel III Capital Regulation' was issued on May 2, 2012 for implementation in India in phases with effect from April 1, 2013 and to be fully implemented by March 31, 2019. YES Bank is subject to the RBI Master Circular on Basel-III Capital Regulations, July, 2015 and amendments thereto issued on time to time basis by RBI. The Basel III framework consists of three-mutually reinforcing pillars:

- Pillar 1 - Minimum capital requirements for credit risk, market risk and operational risk
- Pillar 2 - Supervisory review of capital adequacy
- Pillar 3 - Market discipline

Market discipline (Pillar 3) comprises a set of disclosures on the Capital Adequacy and Risk Management framework of the Bank. Pillar 3 disclosures as per RBI master circular on Basel-III Capital Regulations are set out in the following sections for information.

1. Scope of Application

Top Bank in the Group

YES BANK Limited is a publicly held bank; which was incorporated as a limited company under the Companies Act, 1956, on November 21, 2003. The Bank received the licence to commence banking operations from the Reserve Bank of India ('RBI') on May 24, 2004. YES BANK was included to the Second Schedule of the Reserve Bank of India Act, 1934 with effect from August 21, 2004. The Bank has incorporated a wholly owned subsidiary named YES Securities (India) Limited during the financial year ended March 31, 2013.

The Basel III Capital Regulation (Basel III) is applicable to YES Bank Limited (hereinafter referred to as the 'Bank') and its subsidiary (YES Securities (India) Limited) which together constitute the Group in line with the Reserve Bank of India ('RBI') guidelines on the preparation of consolidated prudential reports.

Accounting and Regulatory consolidation

For the purpose of financial reporting, the Bank consolidates its subsidiary in accordance with Accounting Standard ('AS') 21, Consolidated Financial Statements, on a line-by-line basis by adding together like items of assets, liabilities, income and expenditure.

For the purpose of consolidated prudential regulatory reporting, the consolidated Bank includes all group entities under its control. The Bank does not have insurance and non-financial services subsidiary.

Details of subsidiaries of the Bank with the consolidation status for accounting and regulatory purpose is given below:

Name of the entity/ Country of Incorporation	Included under the accounting scope of consolidation	Method of accounting consolidation	Included under the regulatory scope of consolidation	Method of Regulatory consolidation	Reasons for difference in method of consolidation	Reasons for consolidation under only one of the scopes of consolidation
Yes Securities (India) Limited [India]	Yes	Consolidated in accordance with Accounting Standard 21- Consolidated Financial Statement	Yes	Consolidated in accordance with Accounting Standard 21- Consolidated Financial Statement	Not Applicable	Not Applicable

Group entities not considered for consolidation both under the accounting and regulatory scope of consolidation

There are no group entities that were not considered for consolidation under both the accounting scope of consolidation and regulatory scope of consolidation.

Group entities considered for regulatory consolidation

Name of the entity/ Country of Incorporation	Principle activity of the entity	Total Balance Sheet Equity* (as stated in the accounting balance sheet of the Bank)	Total Balance Sheet Assets (as stated in the accounting balance sheet of the Bank)
Yes Securities (India) Limited [India]	Securities Broking	₹1,408 Lacs	₹2,065 Lacs

* Comprises of Equity Capital and Reserves & Surplus

Capital deficiencies in subsidiaries

There is no capital deficiency in the subsidiaries of the Bank as of September 30, 2015.

The aggregate amounts of the bank's total interests in insurance entities

The bank does not have investment in any insurance entities as on September 30, 2015.

Restrictions or impediments on transfer of funds or regulatory capital within the banking group

There are no restrictions on transfer of funds or regulatory capital within the Group as of September 30, 2015.

2. Capital Adequacy -

The Bank has a sound and comprehensive policy and process for evaluating its overall capital adequacy commensurate with the overall risk profile, business projections and capital management strategies.

The Bank is subject to the Capital adequacy norms as per Master Circular on Basel-III Capital Regulations issued by the Reserve Bank of India ('RBI'). The Basel III capital regulation is being implemented in India from April 1, 2013 in phases and it will be fully implemented as on March 31, 2019. In view of the gradual phase-in of regulatory adjustments to the capital components under Basel III, certain specific prescriptions of Basel II capital adequacy framework shall also continue to apply till March 31, 2017.

As at September 30, 2015, the capital of the Bank is higher than the minimum capital requirement as per Basel-III guidelines.

The Bank currently follows Standardized Approach for Credit Risk, Standardized Duration Approach for Market Risk and Basic Indicator Approach for Operational risk capital charge computation.

The Bank has a Board approved policy on Internal Capital Adequacy Assessment Process (ICAAP) as stipulated by RBI. The ICAAP also details the Risk Appetite of the Bank, assessment of material risks, the process for capital adequacy assessment to support business projections / risks for a period of 3 years, risk thresholds, adequacy of risk control framework, capital raising plans and Bank-wide stress testing.

The Bank has implemented a Board approved Stress Testing Framework which is also an integral part of the Bank's ICAAP. The Bank conducts Stress Testing on periodic basis to assess the Bank's potential vulnerability to extreme but plausible stressed business conditions in various risk areas.

The periodic assessment of bank's performance against the Risk Appetite defined under ICAAP and results of stress testing are reported to Risk Monitoring Committee of the Board and the Board of Directors on quarterly basis for their review.

The integration of risk assessment with business processes and strategies governed by a robust risk management framework under ICAAP enables the Bank to effectively manage risk-return trade off.

₹ in Lacs

Capital adequacy	Standalone	Consolidated
A. Capital requirements for Credit Risk		
i. Portfolios subject to Standardized Approach	1,001,311	1,000,910

Total Capital Adequacy ratio	14.1%	14.2%

Risk Management Framework

YES BANK inculcates and nurtures a conscientious risk culture, underpinned by a clear governance structure, incorporating the 'Three lines of Defense'. The Bank has institutionalized a principled approach towards taking risks responsibly with a shared understanding of Risk Appetite which is embedded in the organization-wide controls.

The risk management framework at YES Bank is driven by a well informed and knowledgeable Board (comprising of several Independent directors) and Senior Management. The Board has the overall responsibility for risk management and risk strategies in the Bank. There are two Board level sub-committees (Risk Monitoring Committee and Audit Committee) to deal with risk management related specific matters and has delegated powers for different functional areas.

Risk Monitoring Committee is a Board level sub-committee and is an independent body that puts in place specific policies and procedures for managing Enterprise Wide Risk Management of the Bank, as per RBI's Guidance Note on the same.

Audit Committee is also a Board level sub-committee which oversees the internal audit and compliance function. The Internal audit function is responsible for the independent review of risk management and the control environment.

In addition to the committees outlined above, the Bank has in place a Board Credit Committee (BCC) which is a Board level sub-committee that is responsible for approving credits beyond a certain threshold, as defined in the Bank's Board approved Credit Policy. The thresholds for credit approval and the composition of this Committee are approved by the Board. The BCC will also review specific cases that may need special attention as and when recommended by the Management Credit Committee.

Senior Management Oversight

The following specialized committees comprising Top and Senior management personnel ensure oversight and effective implementation of the overall Risk Management Framework:

- **Management Credit Committee (MCC):** This committee comprises MD&CEO, CRO, Risk Heads, Business Heads and Product Heads and is responsible for approval of cases based on exposure and internal rating thresholds defined in the Board approved credit policy. It is also responsible for reviewing and recommending actions on rating trends, event based portfolio actions, thematic/sectoral reviews, reviews of stressed accounts/NPAs, credit policy related recommendations to the RMC/Board, etc.
- **Executive Credit Committee (ECC):** The Executive Credit Committee of the Bank is chaired by the CRO and comprises CRO, Chief Credit Officer (CCO) and executives from Risk/Business/Product teams designated as EVP & Above. The quorum required for approval by the ECC comprises CRO, CCO, Business Head and any other two members.
- **Asset Liability Committee (ALCO):** The ALCO is a strategic decision making body, constituted by the Board. The Committee is headed by the Managing Director & CEO and comprises other senior executives of the Bank. It is responsible for recommending prudent Asset Liability Management policies to the Board to achieve the strategic goals of the Bank. ALCO is responsible for managing market risk, liquidity risks as well as capital position of the Bank from a strategic risk return perspective while operating in full compliance with existing regulatory guidelines.
- **Investment Committee:** The ALCO has set up an Investment Committee as its sub-committee comprising representatives from Financial Markets, Market risk, Credit risk and Finance. The Investment committee is responsible for overall investment strategy in Financial Markets.
- **Operational Risk Management Committee (ORMC):** ORMC, chaired by the CRO, comprises top management from Operations, Business and Support Units. The Committee is responsible for development, implementation and monitoring of the Operational Risk Management Framework, review of risk profile and Key Risk Indicators of Units and review Operational Loss and events suffered by the Bank.

- **Fraud and Suspicious Transaction Monitoring Committee (FASCOM):** This committee chaired by the MD&CEO comprises top management including the CRO, COO, Head of Audit, President HCM, General Counsel, and several other key personnel from Client Relationship groups, Product Management and Operations. The committee is responsible for reviewing aspects relating to frauds / suspicious transactions and identifying corrective actions and additional controls, wherever necessary
- **Information Technology Security Council:** This committee, chaired by the CRO, act as a central representative body of all business functions to jointly discuss and resolve issues related to Information Security within YES Bank. The Council reviews and approves information security policy and takes decisions basis the evolving risks and threats applicable to the Bank.
- **Outsourcing Management Committee (OMC):** This committee is chaired by the CRO and is responsible for management of risk arising out of outsourcing activities.
- **Reputation Risk Management Committee (RRMC):** This Committee is chaired by MD &CEO and oversees implementation of Reputation risk management policy, management and review Bank's Reputation Risk profile and incidents.
- **Enterprise Risk and Capital Management Committee (ERCC):** This Committee is chaired by MD & CEO and oversees enterprise-wide risks including Pillar I and Pillar II risks, ICAAP, Bank-wide stress testing and bank-wide limits monitoring.

Risk Management Unit at YES BANK

The Risk Management Department (RMD) is delegated specific responsibilities of managing the risk in the Bank by the RMC. The Risk Management Department is headed by the Chief Risk Officer (CRO) who leads the Credit Risk Unit, General Legal Counsel and Risk Control Units. The CRO reports to the MD&CEO. Credit Risk Unit is responsible for evaluating, rating and underwriting credit under respective Credit Risk Heads. The Risk Control Units such as Market Risk, Operational Risk, Enterprise Risk Management Unit, Information Security, Portfolio Analytics Unit, Credit Risk Control Unit, Credit Mid Office and Risk Containment Unit are responsible for independent review, monitoring and reporting of all risk control parameters and to take appropriate corrective actions where necessary. These units are also responsible for ensuring compliance to internal policies and regulatory guidelines.

Responsibility Profile of RMD

- a. **Chief Risk Officer (CRO):** The Chief Risk Officer (CRO) is responsible for the overall Risk Governance and Supervision. CRO ensures an effective implementation of an enterprise wide risk management framework and risk culture through various risk policies, processes, thresholds and controls that enables prompt risk identification, accurate risk measurement and effective risk mitigation. CRO is also responsible for risk compliance and monitoring as well as reviewing and presenting various risk reports, policies and dashboards to RMC and Board.

- b. **General Legal Counsel** is responsible for ensuring legal compliance of applicable laws, ensuring documentation entered into by the Bank is legally valid and enforceable; and filing and defending legal suits for and on behalf of the Bank.
- c. **Credit Risk Units:** These units under the supervision of their respective Chief Credit Officers (CCOs) are responsible for screening/assessment of facilities/exposures on the potential borrowers, finalizing risk ratings and approving credit proposals. The Credit Risk Heads are also responsible for managing the overall segment portfolio and undertaking remedial actions/ thematic reviews as required.
- d. **Risk Control Unit (s):** Independent unit(s) responsible for review, monitoring and reporting of all risk control parameters and taking appropriate corrective actions where necessary. The Units are also responsible for ensuring compliance to internal policies and regulatory guidelines. The various units are given below:
 - i. **Information Security Unit** - The Unit is responsible for ensuring compliance with and implementation of Information Security Management System and ensuring that sufficient measures are taken to protect the Bank's Information assets.
 - ii. **Enterprise Risk Management Unit (ERM Unit)** - The Unit is responsible for implementation of ERM, Risk Aggregation, Risk based pricing, Pillar II Risk assessment of -Reputational Risk, Compliance Risk, Concentration risk etc, BASEL II / III compliance, ICAAP review, migration to advanced approaches and Bank wide Stress testing.
 - iii. **Operational Risk Unit** - The Unit is responsible for identification, assessment and monitoring of Operational Risk of the Bank including Outsourcing Risk and Business Continuity Preparedness. The unit shall support Capital Compliance in migration to advanced approaches under Operational Risk.
 - iv. **Market Risk:** Responsible for the independent market risk and liquidity risk analysis and monitoring. Key functions of the team involve Policy review, limits review, Risk Modeling and Analytics, implementation of BASEL guidelines towards Interest Rate Risks in Trading as well as Banking Book, Liquidity Risk and Counterparty Credit Risk in Financial Market products.
 - v. **Portfolio Analytics Unit (PAU)** - The Unit is responsible for monitoring the entire credit portfolio across all segments including monitoring of early warning signals, identifying portfolio trends and generating portfolio level MIS covering various credit quality indicators across various business units of the Bank. This unit is also responsible for conducting industry studies and determining industry outlook.
 - vi. **Credit Risk Control Unit (CRCU)** - The Unit is responsible for independently reviewing the Bank's credit policies and programs. The credit rating model (IRS) and related policies are also managed and enhanced on a continual basis by this team. It is also responsible for the Bank's migration to IRB approach under Credit Risk and for scorecard development /implementation/testing for retail / program based lending.

- vii. **Credit Mid Office (Credit Admin)** – The Unit is responsible for implementing the Credit administration policies, procedures and post sanction monitoring of the asset portfolio with respect to covenants / documentation. Responsible for reporting of the status of Borrower documentation/securities perfection. The Units also ensures compliance with regulatory guidelines on the credit proposals and adherence to internal systems & controls for operational risk management and compliance.
- viii. **Risk Containment Unit** – The Unit is responsible for proactive fraud anticipation & control, diagnostics / interpretation and resolutions for the Bank’s SME and retail business segments. The unit is further responsible for implementation of adequate measures to avert fraud and improving process transparency for the minimization or elimination of frauds to the largest extent possible. The Unit is also responsible for preparing regular reports on fraud control through both financial and non financial means, and managing various vendor agencies responsible for fraud control..

3. Credit Risk

Credit Risk Management Objectives, Processes and Structure (CRM):

The **Credit Risk Management Department (CRMD)** within the RMD consists of the Credit Risk Unit and the following Risk Control Units:

- Portfolio Analytics Unit (PAU)
- Credit Risk Control Unit (CRCU)
- Credit Administration Unit
- Risk Containment Unit.

The main role and responsibilities of CRMD includes:

- a. Measuring, controlling, reviewing and managing credit risk on Bank-wide basis within the limits set by the Bank’s Board of Directors/RMC/ RBI.
- b. Enforcing compliance with the credit risk parameters and credit exposure/ concentration limits set by the Board of Directors/ RMC/RBI.
- c. Laying down credit risk assessment systems and developing MIS, monitoring quality of loan/ investment portfolio, identifying problems, correcting deficiencies and undertaking loan review/audit.
- d. Conducting a complete risk analysis of the proposed obligor/ facility before approval of the credit
- e. The CRMD is also responsible for monitoring the quality of the entire loan/ investment portfolio and undertaking portfolio evaluations and conducting comprehensive studies to test the resilience of the loan portfolio.

Policies & Processes

The Bank's Credit Policy, approved by the Board, outlines the credit risk governance framework. The objective of the Bank's Credit Policy is to build and maintain a quality portfolio with sound and well-diversified credit risk distribution. Credit Risk Management is an important tool for achieving this objective, as it helps the Bank to:

- Take informed credit decisions based on an adequate assessment of the relevant risk factors
- Screen credit proposals and assume only such credit risk that is acceptable to the Bank to ensure better credit quality
- Optimise the risk return trade-off by providing guidelines for securing return commensurate with the risk involved in the credit
- Ensure diversification of the credit portfolio through various Board approved limits thus avoiding concentration in credit exposures to individual/ group borrowers, industry/ sector, credit rating, etc
- All these limits are monitored continually and reported to Senior Management on monthly basis and to the RMC/Board on quarterly basis

Risk identification and assessment is the first step in the credit risk management system. In case of wholesale segment, credit risk inherent in credit proposal is assessed by evaluating the below mentioned risk factors among others:

- Financial Risk: This would include an assessment of the entity's overall financial strength based on performance and financial indicators, as derived from its financial statements - historical and projected
- Business Risk: This entails an analysis of the fundamentals of the business unit, its competitive market position in the industry and its operational efficiency
- Industry Risk: This would include an evaluation of the competition/ entry barriers, industry cyclicity/outlook, regulatory risk/government policies and other contemporary issues
- Management Risk: This involves evaluation of the management of the enterprise, their risk philosophy, competence and past track record
- Project Risk: This involves evaluation of any significant project being undertaken by the company and its impact on the financials of the company.
- Conduct of Account: This involves evaluation of the credit behavior of the client with the bank

The creditworthiness and assessment of credit requirement are evaluated and determined in line with the risk rating of the borrower and the credit facilities are sanctioned accordingly. Borrowers in the Bank's credit portfolio which do not fall under the purview of rating models are scored/originated under a product program.

Credit Proposals are approved either through a Committee approach or through Joint Delegation, depending on rating and exposure thresholds outlined in the Bank's Credit Policy.

In case of retail assets segment, the Bank has various products programs in line with the relevant product needs of customers. The product programs generally address areas such as customer segmentation, exposure ceilings, approval authorities, exception reporting and risk

assessment parameters like acceptable loan-to-value, maximum tenor & financial parameters. The product programs are cognizant of relevant regulatory guidelines, internal credit policy, market dynamics, bank's activities etc.

Credit Risk Identification, Measurement, Monitoring and Reporting

The credit risk management function is largely centralized for both credit approvals and disbursements. It is well structured and staffed to ensure that the credit policy and regulatory requirements are adhered to and implemented. Post sanction, an independent Credit Administration unit is responsible for ensuring that the credit policy guidelines and terms of sanction are adhered to.

The Bank has a risk rating system comprising multiple models that assign credit ratings to customers. The models are categorized into Corporate, Financial and Project models which assign ratings to the borrowers based on financial data, industry characteristics, business positioning, project characteristics and other non financial parameters. Model Validation is carried out by objectively assessing the discriminatory power and stability of ratings. All the models have defined hurdle rates, and lending to borrowers below the hurdle rate requires specific approvals as per the Credit Policy of the Bank. The core banking system is used to control and monitor utilization of limits under various products by customer and is also the repository for information on past dues and excesses. There is also a post disbursement tracking system that is used for monitoring appraisal conditions, financial covenants, documentation status etc. Borrowers in the Bank's credit portfolio which do not fall under the purview of rating models would be scored/originated under a product program.

The borrowers are reviewed at least on an annual basis. The analysis carried out during annual review would reflect not only the performance of the company but also the conduct of the account.

Credit Monitoring involves follow-up and supervision of the Bank's individual loans as well as the entire loan portfolio with a view to maintain the asset quality at the desirable level, through proactive and corrective actions, aimed at controlling and mitigating the risks to the Bank. The main objectives of Credit Monitoring are:

- (a) To ensure compliance with the terms and conditions of the credit sanctioned
- (b) To ensure the end-use of the Bank funds by the borrowers as per the approved purposes and prevent diversion of the funds for unauthorized purposes
- (c) To assess the health of the obligor at periodic intervals with reference to the key indicators of performance such as activity level, profitability, management standards
- (d) To identify early warning signals, if any, in individual accounts and initiate effective steps to mitigate the risk to the Bank, in consultation with the Segment Head and Risk Management Department
- (e) To periodically review the loan portfolio of the Bank or of its specified segment to assess the overall asset quality/ risk and compliance with the prudential norms

For retail banking borrowers, controls in loan underwriting are as enumerated in the respective product programs which are approved by the Bank's Product Program Approval Committee (PPAC) comprising Business, Risk, Compliance, Technology & Strategy leadership. Moreover, for granular lending cases where risk decision making is decentralized, the Bank practices hindsighting of the approved cases for the preceding quarter.

Policies for Mitigating Credit Risk

Security management is instrumental in mitigating credit risk. It involves creation of enforceable charge over the borrower/third party assets in favour of the Bank, proper valuation/storage/maintenance and insurance of the securities so charged at regular intervals, in order that the Bank's advances/loans remain fully covered by the realizable value of the securities charged to it. Further, the charged securities are valued at periodic intervals and stipulated margins are maintained at all times.

Definition and Classification of Non Performing Assets (NPA)

The Bank classifies its outstanding into performing and non-performing in accordance with the extant RBI guidelines.

A Non Performing Advance (NPA) is defined as a loan or an advance where:

- i. interest and/ or installment of principal remains overdue for more than 90 days in respect of a term loan. Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the Bank
- ii. a bill purchased/ discounted by the Bank remains overdue for a period of more than 90 days
- iii. interest and/or installment of principal in respect of an agricultural loan remains overdue for two crop seasons for short duration crops and one crop season for long duration crops
- iv. the regular/ad hoc credit limits have not been reviewed/ renewed within 180 days from the due date/ date of ad hoc sanction
- v. the account remains 'out of order' in respect of an overdraft/ cash credit (OD/CC). An account is treated as 'out of order' if:
 - a) the outstanding balance remains continuously in excess of the sanctioned limit/drawing power, or
 - b) where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of the balance sheet or credits are not enough to cover the interest debited during the same period,
- vi. Drawings have been permitted in working account for a continuous period of 90 days based on drawing power computed on the basis of stock statements that are more than three months old even though the unit may be working or the borrower's financial position is satisfactory,
- vii. An account would be classified as NPA if the interest due and charged during any quarter is not serviced fully within 90 days from the end of the quarter,
- viii. The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of guidelines on securitisation dated February 1, 2006

- ix. In respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

The Bank's loan portfolio is classified into 4 categories of assets as per extant RBI guidelines as follows:

- Standard Assets: These are Performing assets (or Non- NPAs)
- Non-Performing Assets (NPAs):
 - Sub-standard Assets: i.e. an asset which remains irregular/out of order /overdue for more than 90 days and is classified as NPA for a period of 12 months from the date of such classification.
 - Doubtful Assets: i.e. an NPA that remains Sub-standard Asset for a period of >12 months,
 - Loss Assets: An asset that is identified as uncollectible and of such little value that its continuance as a bankable asset is not warranted although there may be some salvage or recovery value.

The Bank has established appropriate internal mechanism for prompt identification of NPA(s).

4. Credit Risk: Portfolios subject to the Standardized Approach

The Bank is using the ratings assigned by the following domestic external credit rating agencies, approved by the RBI, for risk weighting claims on domestic entities

- Credit Analysis and Research Limited (CARE)
- Credit Rating Information Services of India Limited (CRISIL)
- India Ratings and Research Private Limited (earlier known as Fitch India)
- ICRA Limited (ICRA)
- Brickwork Ratings India Pvt. Ltd
- SMERA Ratings Limited

The Bank is using the ratings assigned by the following international credit rating agencies, approved by the RBI, for risk weighting claims on overseas entities:

- Standard & Poor's
- Moody's
- Fitch Ratings.

Types of exposures for which each agency is used

The Bank has used the solicited ratings assigned by the above approved credit rating agencies for all eligible exposures, both on balance sheet and off balance sheet, whether short term or long term, in the manner permitted in the RBI guidelines on the New Capital Adequacy Framework (NCAF). While arriving at risk-weighted assets for credit risk under the standardized approach 'bank loan' ratings of the counterparty have been used. This would include Fund-based and Non-fund based facilities. In case of treasury facilities, the Bank has used 'Issuer' ratings of the counterparties, wherever available. In case the Bank does not have exposure in a rated issue, the Bank would use the issue rating for its comparable unrated exposures to the same borrower, provided that the Bank's exposures are pari-pasu or senior and of similar or shorter maturity as compared to the rated issue. Further the lower rating, where there are two ratings and the second-lowest rating where there are three or more ratings are used in cases where multiple ratings for a given facility are considered.

Details of credit exposures* (funded and non funded**) classified by risk buckets

The table below provides the break-up of the Bank's net exposures* into three major risk buckets.

Risk Weight Bands	₹ in Lacs
Below 100% risk weight	9,818,890
100% risk weight	5,687,552
Above 100% risk weight	991,734
Deducted	-
Total	16,498,176

*Represents book value as at September 30, 2015

5. Credit Risk Mitigation- Disclosures for Standardized Approaches -

The Bank's Credit Policy outlines the type of collateral that can be taken for different facilities and the process for its valuation.

Currently, eligible financial collateral in the form of fixed deposits under lien and guarantees issued by eligible guarantor as specified in RBI guidelines have been used as credit risk mitigants. In the case of fixed deposits under lien, the Bank reduces its credit exposure to counterparty by the value of the fixed deposits.

In case of exposures backed by guarantees, the guaranteed portion is assigned the risk weight of the guarantor when the conditions outlined by extant RBI guidelines are fulfilled.

The total exposure that is covered by guarantees and eligible financial collateral has been disclosed for each industry sector separately in the earlier section.

The credit risk mitigation taken is largely in the form of deposits with the Bank and thus the risk (credit and market) concentration of the mitigants is low.

6. Securitization : Disclosure for Standardized Approach

During the half year ended September 30, 2015, the Bank did not securitize any of its assets.

The Bank however, acquires investment grade securitized debt instruments backed by financial assets originating from diverse sectors for regulatory /investment purposes. The Bank has processes in place to monitor the purchased securitization exposures by way of monthly review of servicer reports. Further, for managing the interest rate risk in the purchased securitized assets, the Bank uses PVBP as a sensitivity measure on a periodical basis.

With respect to the securitized exposures purchased, the valuation is carried out by applying an appropriate mark-up (reflecting associated credit risk) over the Yield To Maturity (YTM) rates of government securities. Such mark up and YTM rates applied are as per the relevant rates published by FIMMDA. There are no changes in the methods and key assumptions used in the current year as compared to the previous year.

Banking Book- Securitization Exposures

During the half year ended September 30, 2015, the Bank did not undertake any securitization transaction in its Banking Book.

The Bank does not have any securitization exposure (retained or purchased) in its Banking book as at September 30, 2015.

Trading Book- Securitization Exposures

In its Trading Book, the Bank has no retained exposures from exposures securitized by the Bank as at September 30, 2015.

The details of On-balance sheet & off balance sheet securitization exposures purchased and outstanding as at September 30, 2015 is given below.

7. Market Risk in Trading Book

Market Risk Management Objectives, Processes and Structure

Trading Book Market risk is the possibility of loss arising in Trading Book from changes in the value of a financial instrument as a result of changes in market variables such as interest rates, exchange rates, credit spreads and other asset prices.

Market Risk Governance Structure

The Bank has implemented a robust and comprehensive Market Risk Management architecture.

The Board of Directors of the Bank defines the risk appetite, sets the market risk strategy and approves the market risk policies of the Bank.

The Bank's risk management processes are guided by the Board approved well defined policies, independent risk oversight and periodic monitoring of portfolio by Risk Monitoring Committee (RMC).

Board approved ALM and Investment Policy define constitution of the Asset Liability Management Committee (ALCO) and the Investment Committee of the Bank which are responsible for monitoring of Market Risk under the overall guidance of the Risk Monitoring Committee (RMC) of the Bank. ALCO and Investment Committee are headed by MD&CEO of the Bank and include Key Top and Senior Management executives of the Bank.

These Committees of the Bank are supported by the Bank's independent Market Risk and Middle Office functions which measure and monitor Market Risk and highlight the exceptions, if any.

Key responsibilities of the Market Risk Function involve Policy / Limit review, Risk Modeling and Analytics, Basel implementation for Market Risk and Credit Risk measurement for treasury Products. Further, key responsibilities of Middle Office Function are independent Valuation, Risk Monitoring and Reporting.

Policies and Processes

The market risk for the Trading Book of the Bank is managed in accordance to the Board approved Investment Policy, Market Risk Policy and Derivative Policy. These policies provide guidelines to the operations, Valuations, and various risk limits and controls pertaining to various securities, foreign exchange and derivatives. These policies enhance Bank's ability to transact in various instruments in accordance with the extant regulatory guidelines and provide sound foundation for day to day Risk Control, Risk management, and prompt business decision making. The Bank also has a Stress Testing Policy and Framework which enables Bank to capture impact of various stress scenarios on Trading Book Portfolio. All these policies are reviewed periodically to incorporate changes in economic, business and regulatory environment.

Further, the Bank has implemented a state-of-the-art Treasury system which supports robust risk management capabilities and facilitates Straight-through Processing and supports the Bank to monitor its Risk actively.

The Bank also has strong MIS framework which provides relevant and timely information to relevant Management Executives, ALCO, Investment Committee as well as RMC and Board of the Bank. The Bank also periodically reports related portfolio information to the regulators in compliance with the regulatory requirement.

Market Risk Identification, Measurement, Monitoring and Reporting

Risk management and reporting is based on globally accepted parameters such as Modified Duration, PVO1, Exposure and Gap Limits, VaR, etc. As per the Market Risk Policy, limits have been set for Forex Open Position limits (Daylight / Overnight), Option Greeks, stop-loss limit, Sensitivity limit, VaR limit and exposure limits which are monitored on a daily basis. Back testing of the current VaR model is carried out on a daily basis and reported to Investment Committee on Monthly basis.

Corporate Investment Portfolio of the Bank is evaluated through detailed credit appraisal process and parameters detailed in Board approved Credit Risk Policy of the Bank.

Approach for Computation of Capital Charge for Market Risk

Bank has adopted the Standardised Duration Approach as prescribed by RBI for computation of capital charge for market risk and is already fully compliant with such RBI guidelines. Standardised Duration Approach is applied for calculation of Market Risk for:

- ✓ Securities under HFT category
- ✓ Securities under AFS category
- ✓ All Derivatives except those entered into for Hedging Balance Sheet
- ✓ Open foreign exchange position
- ✓ Equity positions.

Amount of Capital required for Market Risk as at September 30, 2015	₹ in Lakhs
Interest rate risk	67,005
Foreign Exchange risk	11,250
Equity position risk	5,893
Total capital required for Market Risk	84,148

8. Operational Risk

Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational Risk includes legal risk but excludes strategic risk and reputation risk.

Operational Risk Governance Structure

The Bank has comprehensive Operational Risk Management framework. The Board of Directors of the Bank defines the risk appetite, sets the risk management strategies and approves the operational risk policies of the Bank. The Bank's risk management processes are guided by well defined policies appropriate for various risk categories, independent risk oversight and periodic monitoring by Risk Monitoring Committee (RMC).

For the effective management of Operational Risk, the Bank has constituted the Operational Risk Management Committee (ORMC) consisting of senior management personnel. The ORMC, which supports the Risk Monitoring Committee (RMC) of the Board of Directors, is responsible for implementing the Operational Risk Management Policy and adopting the best practices. The key functions of the ORMC are:

- Establish clear lines of management responsibility, accountability, and reporting in such a manner that they are distinct to avoid conflict of interest
- Implement operational risk framework
- Review all significant operational risk events and suggest process improvements and mitigants

Additionally, with a view to ensure sound practices in respect of governance of the overall operational risk, the Bank has outlined policies and processes in respect of Information & Physical Security; Outsourcing; Business Continuity Planning & IT Disaster Recovery; Records Management, Fraud Control and Customer Service.

For effective implementation of the above policies Bank has also put in place various committees such as:

- Security Council committee (Physical & Information)
- Outsourcing Management committee
- Fraud Monitoring and Suspicious Transaction Monitoring Committee
- Standing Committee on Customer Service & Service Excellence Committee
- Product Program Approval Committee (PPAC)

These committees meet on a predefined frequency to discuss the implementation of best practices/risk management frameworks, various related events within the Bank, recent development and key actions steps required if any. The minutes of these meetings are reported and discussed in Risk Monitoring Committee as well as to the Board of Directors.

Policies & Processes

The Bank has in accordance with the regulatory guidelines, implemented a comprehensive board approved Operational Risk Management Policy to put in place an operational risk management as an integral part of its overall Risk Management Architecture. The overall objective of the policy is:

- Determine Bank's appetite for Operational Risk
- Framework to identify, assess and monitor operational risk for effective mitigation
- Strengthen overall control environment at the Bank
- Improvement in customer service and minimise operational losses

The bank has also put in place a comprehensive Operational Risk Events and Loss Data Policy detailing types of Operational Risk Events and Losses, Process for Management of Operational Risk Events and Losses, Categorization of Operational Risk Events etc.

Operational Risk Identification, Measurement, Monitoring and Reporting

The Bank has implemented a systematic process for identifying, assessing and recording operational risk events with or without financial impact on a periodical basis. These events are then analyzed for root cause and corrective actions are implemented.

The Bank has adopted best practices in mitigating operational risk in transaction processing, adherence to defined policies & laws, customer documentation and business continuity through:

- Well defined, documented and updated process manuals and policies
- Centralized processing at National Operating Centres
- Segregation of duties, maker checker concept, automated processes
- Transaction monitoring and analysis
- Additional checks for high value transactions, reconciliation of accounts & data, control MIS for various limits, periodical trainings, standardized documentations, authorization matrix, regular process reviews and business continuity /disaster recovery testing

The Bank has also taken insurance for certain types of operational risk including bankers indemnity, cash movement, electronic and cyber crimes and fixed assets to cover operational risk losses.

Besides the above, the Bank also undertakes the following to proactively identify operational risks in the operations and external environment.

- Robust processes for review of products and critical process prior to launch/modifications
- Comprehensive Risk Control and Self Assessment (RCSA) of processes in critical units
- Monitoring of Key Risk Indicators for Operational Risk against pre-defined risk thresholds
- Monitoring of external OR events/frauds and gaining insights for improvements in processes/controls.

Approach for Computation of Capital Charge for Operational Risk

In accordance with Reserve Bank of India guidelines, the Bank has adopted the Basic Indicator Approach (BIA) for measurement of Operational Risk. The Bank is also undertaking various steps for migration to Advanced Approaches for computation of Capital Charge for Operational Risk.

9. Interest rate risk in the Banking Book (IRRBB)

Interest Rate Risk in Banking Book (IRRBB) is the risk which impacts assets and liabilities of Bank's non-trading exposures which are contracted for steady income and statutory obligations and are generally held till maturity. Interest rate risk is measured as the potential volatility in the Bank's core net interest income caused by changes in market interest rates. Difference in pricing parameters of these Assets and Liabilities which may be due to different tenor, asset type, liability type or other parameters exposes the Bank to possible loss. Objective of the Bank is to limit IRRBB under Board approved risk limits.

IRRBB Governance Structure

The Bank has implemented a robust and comprehensive IRRBB Management architecture.

The Board of Directors of the Bank define the risk appetite, sets the strategy and approve the ALM policy of the Bank. The Bank's risk management processes are guided by the Board approved well defined policies, independent risk oversight and periodic monitoring of portfolio by Risk Monitoring Committee (RMC). The Risk Monitoring Committee (RMC) also reviews various decisions taken by the Asset Liability Management Committee (ALCO) for managing IRRBB.

Board approved ALM policy has defined the constitution of the ALCO which is responsible for evaluating and institutionalizing appropriate systems and procedures for monitoring and managing the IRRBB under the overall guidance of the Risk Monitoring Committee (RMC) of the Bank. ALCO is headed by MD&CEO of the Bank and includes Key Top and Senior Management executives of the Bank.

Independent Market Risk function of the Bank has dedicated team which measures and monitors IRRBB Risk and highlights the exceptions, if any. Key responsibilities of this team involve Policy / Limit review, Limit compliance monitoring, Modeling and Analytics, Basel implementation for IRRBB.

Policies and Processes

IRRBB of the Bank is managed in accordance to the Board approved ALM and Market Risk Policy. The Bank also has a Stress Testing Policy and Framework which enables Bank to capture impact of various stress scenarios on Banking Book Portfolio. All these policies are reviewed periodically to incorporate changes in economic, business and regulatory environment.

IRRBB Identification, Measurement, Monitoring and Reporting

IRRBB architecture is the framework to measure, monitor and control the adverse impact of interest rates on the Bank's financial condition within tolerable limits. This impact is calculated from following perspectives:

a) Earnings perspective: Indicates the impact on Bank's Net Interest Income (NII) in the short term.

b) Economic perspective: Indicates the impact on the net-worth of bank due to re-pricing of assets, liabilities and off-balance sheet items.

The ALM & Market Risk Policies define the framework for managing IRRBB through measures such as:

1. **Interest Rate Sensitivity Report:** Measures mismatches between rate sensitive liabilities and rate sensitive assets (including off-balance sheet positions) in various tenor buckets based on re-pricing or maturity, as applicable.
2. **Duration Gap Analysis:** Measures the mismatch in duration of assets & liabilities and the resultant impact on market value of equity.
3. **Banking Book Value at Risk (VaR):** Estimates the maximum possible loss, at a predefined confidence level, on the market value of banking-book over a certain time horizon under normal conditions.
4. **Earnings at Risk (EaR):** Estimates the impact on net interest income over one year horizon due to 1% changes in interest rates.
5. **Sensitivity Analysis:** Evaluates the impact on both trading and banking book due to parallel and non parallel shifts in interest rates.
6. **Stress Testing:** Evaluates the impact on duration of capital of banking book under various stress scenarios.

All the above risk metrics are measured on regular basis and reported to ALCO/RMC periodically as guided by the ALM policy of the Bank.

Impact of Interest rate Risk

₹in Lakhs

Earnings Perspective (Impact on Net Interest Income)		
Currency	If interest Rate were to goes down by 100 bps	If interest Rate were to goes up by 100 bps
INR	(37,918)	37,918
USD	5,077	(5,077)
Others	708	(708)
Total	(32,133)	32,133

Economic Value Perspective (Impact on Market Value of Equity)		
Currency	If interest Rate were to goes down by 100 bps	If interest Rate were to goes up by 100 bps
INR	29,929	(29,929)
USD	556	(556)
Others	(1,949)	1,949
Total	28,536	(28,536)

Notes

1. The above impact is for 100 bps parallel shift in the interest rates for both assets and liabilities.
2. The above computation doesn't include Non SLR AFS investments (which already form part of Trading Book for capital computation) which are contracted on account of relationship / steady income and generally with a long term holding horizon.

10. Exposures related to Counterparty Credit Risk

Counterparty Credit Risk (CCR) is the risk of default by the counterparty towards settlement of the transaction before or at maturity. Counterparty credit risk management framework for financial market products of the Bank is governed by:

- Credit Risk Policy - for credit related processes around limit set-up as well as measurement and monitoring.
- Derivative Policy and Derivative Appropriateness Policy - for product related framework.

Counterparty Credit Risk (CCR) Limits are approved based on guidelines outlined in the Bank's Credit Policy and requirements of the counterparties. Eligible Bank Counterparties are assessed based on an internal model that considers parameters such as credit rating, capital adequacy, resource raising ability, asset quality, management assessment, profitability, liquidity and systemic importance. In case of other counterparties, CCR limit is approved based on a detailed credit assessment process followed by the Bank as per the Credit Policy. CCR limits are set on the amount and tenor while fixing the limits to respective counterparties with limits for various products and post approval of the credit limit, the credit exposures are monitored on a daily basis against approved limits.

All the Derivative transactions with the Counterparty are evaluated through Board approved Derivative Suitability and Appropriateness Policy of the Bank. The Bank has classified various derivative transactions in categories based on complexity of the transactions. Counterparties are evaluated based on their financial strength, subject understanding and infrastructure vis-à-vis complexity category of the transaction type for eligibility to transact.

In addition to this, the MTM for the clients are monitored on a regular basis and circulated to the top management of the Bank. Also, the Bank monitors concentration in MTM exposures across currency pairs, ratings, products, maturities, to understand the inherent credit risk in the derivatives portfolio to enable the management to focus on key risk areas. The Bank also tries to

monitor the quality of the underlying by trying to capture if the underlying exposure being hedged by the derivative is an existing exposure of the Bank. Capital for CCR exposure is assessed based on Basel Standardized Approach.

Policies for securing collateral and establishing credit reserves

In order to mitigate CCR, the Bank has Credit Risk mitigation measures viz. collateralization, guarantees, netting, break clause, etc which form a part of the Derivative Policy and are exercised by the Bank as and when deemed necessary.

Impact of the amount of collateral the bank would have to provide given a credit rating downgrade

The Bank has not signed any CSA with counterparties that require maintenance of additional collateral in the event of credit rating downgrade and any such impact is currently not quantifiable.

Policies with respect to wrong-way risk exposures

Wrong way risk arises if the exposure tends to increase when the counterparty credit quality gets worse. Wrong way risk is qualitatively judged at this point by the Bank. The Bank will evaluate quantitative measures to compute the wrong way risk when it feels there is a significant risk to the portfolio.

The Bank does not recognize bilateral netting. However for exposure guaranteed by central counterparties, the bank recognises netting of MTM for deals having same expiry date. The derivative exposure is calculated using Current Exposure Method (CEM) and the balance out standing as on September 30, 2015 is given below.

Particulars	Notional Amount	Current Exposure	(₹ in Lakhs)
			Gross Positive MTM
Foreign Exchange Contracts	18,224,877	487,885	100,360
Interest Rate Derivative Contracts	6,673,896	93,758	35,508
Currency Swaps	1,144,702	175,598	58,494
Currency Options	907,124	43,372	16,032
Total	26,950,599	800,613	210,394

1. *Currency Options includes only bought options*
2. *Current Exposure of Foreign Exchange Contracts includes 100% of Default Fund and margin utilised under Settlement Guarantee Fund with CCIL.*

13. LEVERAGE RATIO

The leverage ratio has been calculated using the definitions of capital and total exposure. The Bank's leverage ratio, calculated in accordance with the RBI guidelines under consolidated framework is as follows:

Leverage ratio Common Disclosure Template as of September 30, 2015

Sr. No.	Leverage ratio framework	₹ in Million
On-balance sheet exposures		
1	On-balance sheet items (excluding derivatives and SFTs, but including collateral)	1,374,411
2	(Asset amounts deducted in determining Basel III Tier 1 capital)	(4,921)
3	Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of lines 1 and 2)	1,369,490
Derivative exposures		
4	Replacement cost associated with all derivatives transactions (i.e. net of eligible cash variation margin)	20,139
5	Add-on amounts for PFE associated with all derivatives transactions	60,685
6	Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework	-
7	(Deductions of receivables assets for cash variation margin provided in derivatives transactions)	-
8	(Exempted CCP leg of client-cleared trade exposures)	-
9	Adjusted effective notional amount of written credit derivatives	-
10	(Adjusted effective notional offsets and add-on deductions for written credit derivatives)	-
11	Total derivative exposures (sum of lines 4 to 10)	80,824
Securities financing transaction exposures		
12	Gross SFT assets (with no recognition of netting), after adjusting for sale accounting transactions	53,039
13	(Netted amounts of cash payables and cash receivables of gross SFT assets)	-
14	CCR exposure for SFT assets	1,785
15	Agent transaction exposures	-
16	Total securities financing transaction exposures (sum of lines 12 to 15)	54,824
Other off-balance sheet exposures		

17	Off-balance sheet exposure at gross notional amount	973,818
18	(Adjustments for conversion to credit equivalent amounts)	(524,621)
19	Off-balance sheet items (sum of lines 17 and 18)	449,197
Capital and total exposures		
20	Tier 1 capital	117,822
21	Total exposures (sum of lines 3, 11, 16 and 19)	1,954,335
Leverage ratio		
22	Basel III leverage ratio	6.03%

Comparison of accounting assets and leverage ratio exposure

Sr. No.	Particulars	₹ in Million
1	Total consolidated assets as per published financial statements	1,447,589
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	-

21	TOTAL HQLA		2,236,902
22	Total Net Cash Outflows		2,675,811
23	Liquidity Coverage Ratio (%)		83.6%

Note: The average weighted and unweighted amounts are calculated taking simple average for the month of Jul 15, Aug 15 and Sep 15.

15. EQUITIES - DISCLOSURE FOR BANKING BOOK POSITIONS

The risk oversight relating to the equity portfolio is part of the overall independent risk management structure of the Bank and is subjected to the risk management processes and policies approved by the Bank.

In accordance with the RBI guidelines, investments including Equity investments are classified on the date of purchase as:

- Held for Trading (“HFT”);
- Available for Sale (“AFS”); and
- Held to Maturity (“HTM”).

Investments which the Bank intends to hold till maturity are classified as HTM securities. In accordance with the RBI guidelines, equity investments held under the HTM category are classified as banking book for capital adequacy purpose. Further, Equity investments only in the equity of subsidiaries/joint ventures are eligible to be categorized as HTM in accordance with the RBI guidelines. All other investments are required to be classified as HFT / AFS securities.

Further, Investments classified under HTM category are carried at their acquisition cost and not marked to market. Any diminution, other than temporary, in the value of equity investments is provided for. Any loss on sale of investments in HTM category is recognized in the Statement of Profit and Loss. Any gain from sale of investments under HTM category is recognized in the Statement of Profit and Loss and is appropriated, net of taxes and statutory reserve, to “Capital Reserve” in accordance with the RBI Guidelines.

The Bank has classified investments in wholly owned subsidiary for Rs 3,500 Lacs as at September 30, 2015 under HTM as per prudential guidance. There has been no sale or liquidation of these investments during the half year ended September 30, 2015. On account of this investment, the Bank has not recognised any unrealised gain or loss in the financial statement as of September 30, 2015.

Full Terms and Conditions of Regulatory Capital Instruments

(A) Common Equity Capital

Sr. No.	Criteria	Terms of Equity Shares of YES BANK
1	Voting shares	Equity shares of YES Bank are voting shares
2	Limit on voting rights	Limits on voting rights, if any, are applicable as per provisions of the Banking Regulation Act, 1949
3	Position in subordination hierarchy	Represent the most subordinated claim in liquidation of the Bank. The paid up amount is neither secured nor covered by a guarantee of the issuer or related entity nor subject to any other arrangement that legally or economically enhances the seniority of the claim.
4	Claim on residual assets	Entitled to a claim on the residual assets, which is proportional to its share of paid up capital, after all senior claims have been repaid in liquidation
5	Perpetuity	Principal is perpetual and never repaid outside of liquidation (except discretionary repurchases / buy backs or other means of effectively reducing capital in a discretionary manner that is allowable under relevant law as well as guidelines, if any, issued by RBI in the matter). The Bank does nothing to create an expectation at issuance that the instrument would be bought back, redeemed or cancelled, nor do the statutory or contractual terms provide any feature which might give rise to such an expectation.
6	Distributions	Distributions are paid out of distributable items (retained earnings included). The level of distributions is not in any way tied or linked to the amount paid up at issuance and is not subject to a contractual cap (except to the extent that a bank is unable to pay distributions that exceed the level of distributable items). Distributions are paid only after all legal and contractual obligations have been met and payments on more senior capital instruments have been made.
7	Loss absorption	It is the paid up capital that takes the first and proportionately greatest share of any losses as they occur. Within the highest quality capital, each instrument absorbs losses on a going concern basis proportionately and paripassu with all the others.
8	Accounting classification	The paid up amount is classified as equity capital. It is clearly and separately disclosed in the Bank's balance

		sheet.
9	Directly issued and paid-up	Shares are directly issued and paid up. The Bank cannot directly or indirectly fund the purchase of its own Equity shares
10	Approval for issuance	Paid up capital is only issued with the approval of the shareholders of the Bank, either given directly by the shareholders or, if permitted by applicable law, given by the Board of Directors or by other persons duly authorised by the shareholders.

(B) Innovative Perpetual Debt Instruments and Tier II capital

The Bank has been raising capital funds by means of issuance of Innovative Perpetual Debt Instruments (IPDI), Upper Tier II and Subordinated bonds. Instruments which are non compliant with the eligibility criteria set under Basel III Capital Regulations are phased out in computation of Tier 1 and Tier 2 Capital under the transitional provisions specified in RBI Master Circular on Basel-III Capital Regulations, July, 2014.

The details of IPDI, Upper Tier II and Subordinated Debt (Unsecured Redeemable Non-convertible Subordinated Bonds in the nature of Promissory Notes/Debentures), issued by the Bank and outstanding as of March 31, 2015 are given below.

Tier 1 Capital Instruments

1) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
Credit Rating	'LA +' by ICRA & 'CARE A+' (A Plus) by CARE
Issue Size	Rs. 116 crore including Green shoe option of Rs 66 Crore
Face Value/Issue Price	Rs 10,00,000/- per Bond
Minimum Application Size	1 Bond and in multiples of 1 Bond thereafter
Tenor	Perpetual
Coupon Rate	10.25% p.a
Interest Payment Frequency	Annual
Interest on application money	Interest on application money will be the same as the Coupon rate (subject to deduction of Tax at Source at the rate prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modifications or re-enactment thereof) will be paid on application money to the applicants from the date of realisation of funds till the deemed date of allotment but excluding the deemed date of allotment
Interest Payment Date	21 st February of every year
Lock-in Clause	In terms of RBI Master circular no. DBOD.No.BP.BC.11/21.06.001/2008-2009 dated July 1, 2008, on Prudential Guidelines on Capital Adequacy and Market Discipline- Implementation of new Capital Adequacy Framework covering norms for raising of instruments eligible for inclusion under Tier-I capital, these Bonds shall be subjected to a lock-in clause in terms of which the Bank shall not be liable to pay interest if (a) the Bank's CRAR is below the minimum regulatory requirement prescribed by RBI or (b) the impact of such payment results in Bank's Capital to Risk Assets Ratio (CRAR) falling below or remaining below the minimum regulatory requirement prescribed by the RBI. However, the Bank may pay interest with the prior approval of RBI when the impact of such payment may result in

1) Instrument	Unsecured, Non Convertible, Tier I Subordinated Perpetual Bonds in the nature of Promissory Notes
	net loss or increase the net loss provided CRAR remains above the regulatory norm. The interest shall not be cumulative.
Record Date	For interest payment Record Date would be 30 days prior to Interest Date. In case of exercise of Call Option record date shall be 10 working days prior to date of call option.
Put/ Call Option	No Put Option, Call option exercisable at the end of 10 years from the deemed date of allotment and on every interest date thereafter (exercisable only with RBI approval).
Step up Option	50 basis points over and above the initial coupon rate of 10.25% at the end of 10 years from the deemed date of allotment, if the call option is not exercised by the Bank
Date of Allotment	February 21, 2009
Listing	BSE Debt Segment
Depository	National Securities Depositories Limited & Central Depository Services (India) Limited
Trustee	IDBI Trusteeship Services Ltd.
Settlement	Payment of interest and repayment of principal shall be made by way of cheque(s)/ interest/redemption warrant(s)/ demand draft(s)/ credit through RTGS/ECS system

	<p>The Dividend Stopper will restrict the Bank from paying dividend payments on Common Shares issued by the Bank and prohibit Bank's actions that are equivalent to the payment of a dividend such as Discretionary Share Buybacks made, if otherwise permitted</p> <p>The Dividend Stopper can be lifted if majority of Perpetual Debt Instruments (PDIs) Holders approve such an action and RBI does not otherwise object, or if during the following 12 months the Bank pays all scheduled Coupons on Perpetual Debt Instruments (PDIs) in full.</p>
Restrictions on Dividend Stopper Clause	<p>The exercise of 'Dividend Stopper' clause by the holders of this Perpetual Debt Instruments (PDIs) issue shall not impede/hinder :-</p> <ul style="list-style-type: none"> (i) The Full Discretion that the Bank has at all times to cancel distributions/payments on this issue of Perpetual Debt Instruments (PDIs). (i) The Re-Capitalization of the bank. (ii) The Bank's right to make payments on another instruments where payments are not Fully Discretionary. (iii) The Bank's right to making distributions to shareholders for a period that extends beyond the point in time that coupon /dividends on the Additional Tier 1 instrument are resumed (iv) The normal operation of the bank or any restructuring activity (including acquisitions/disposals).
Put Option	No Put Option
Call Option	<p>The exercise of Call Option by the Bank will be subject to ALL of the below mentioned conditions.</p> <ul style="list-style-type: none"> a) The instrument has run for at least ten years b) The prior approval of RBI (Department of Banking Operations & Development). c) The instrument is replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank <p>OR</p>

	<p>d) The bank demonstrating to RBI that its capital position is well above the minimum capital requirements after the Repurchase / Buyback / Redemption. Here, minimum refers to Common Equity Tier 1 of 8% of RWAs (including capital conservation buffer of 2.5% of RWAs) and Total Capital of 11.5% of RWAs including any Additional Capital Requirement identified under Pillar 2.</p>
Exercise of Calls Options in Tax Events and Regulatory Event	<p>(i) Bank may call the instrument due to the occurrence of Tax events or Regulatory event only if permitted by RBI.</p> <p>(ii) RBI may permit such type of calls only if it is convinced that the bank was not in a position to anticipate these events at the time of issuance of Perpetual Debt Instruments (PDIs) as per RBI Master circular on Basel-III Capital Regulations July 1, 2013.</p>
Repurchase / Buy-back / Redemption of the Perpetual Debt Instruments (PDIs)	<p>Bank may repurchase / buy-back / redeem the Perpetual Debt Instruments (PDIs) with prior approval of RBI only if:-</p> <p>(i) The instrument is replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank</p> <p style="text-align: center;">OR</p> <p>(ii) The bank demonstrating to RBI that its capital position is well above the minimum capital requirements after the Repurchase / Buyback / Redemption. Here, minimum refers to Common Equity Tier 1 of 8% of RWAs (including capital conservation buffer of 2.5% of RWAs) and Total Capital of 11.5% of RWAs including any Additional Capital Requirement identified under Pillar 2.</p>
Listing	BSE Limited
Depository	National Securities Depository Limited and Central

	Depository Services (India) Limited
Deemed Date of Allotment	December 31, 2013
Trustee	AXIS Trustee Services Limited
Settlement	Payment of interest and repayment of principal shall be made by way of cheque(s)/ interest/redemption warrant(s)/ demand draft(s)/credit through RTGS/NECS system
Seniority of Claim	The claims of the investors in Bonds being issued for inclusion in Additional Tier I capital shall be (a) superior to the claims of investors in equity shares of the Bank, (b) superior to the claims of investors in perpetual non-cumulative preference shares issued by the Bank, if any, (c) subordinated to the claims of depositors, general creditors and subordinated debt of the bank and (d) is neither secured nor covered by a guarantee of the issuer nor related entity or other arrangement that legally or economically enhances the seniority of the claim vis-à-vis bank creditors
Loss Absorbency clause at the occurrence of an Objective Pre-Specified Trigger Point.	<p>The Perpetual Debt Instruments (PDIs) has 'Principal Loss Absorption' feature as per RBI's Basel-III Capital Regulations, while the Bank remains a Going Concern. This Principal Loss Absorption feature shall be executed through Full / Partial Temporary Write-down or Full / Partial Permanent Write-off, which allocates losses to the Perpetual Debt Instruments (PDIs) at the Objective Pre-Specified Trigger Point as defined by RBI and mentioned below in the Objective Pre-Specified Trigger Point for Loss Absorbency Clause</p> <p>The write-down will have the following effects:</p> <ul style="list-style-type: none"> (i) Reduce the claim of the Perpetual Debt Instruments (PDIs) in liquidation. (ii) Reduce the amount re-paid when a call is exercised. (iii) Partially or fully reduce coupon payments on the instrument. <p>Various criteria for Loss Absorption through write-down / write-off on breach of Objective pre-specified trigger per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
Objective Pre-Specified Trigger Point for Loss Absorbency Clause	The Pre-specified Trigger for Loss Absorption through Full / Partial Temporary Write-Down or Full / Partial

	Permanent Write-off of the level of Perpetual Debt Instruments (PDIs) is fixed at Bank's Common Equity Tier-1 Ratio (CET1) of 6.125% of Risk Weighted Assets of the Bank.
Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	<p>(i) The option for Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off to be exercised on breach of Objective pre-specified trigger vests with the Bank subject to conditions specified in RBI Basel - III Capital Regulations.</p> <p>(ii) If Full / Partial Temporary Write-Down or Full / Partial Permanent Write-off option is exercised, it shall be exercised across all investors of this particular issue of Perpetual Debt Instruments (PDIs).</p>
Limitations on Exercise of Option to Write down at the Objective Pre-Specified Trigger Point for Loss Absorbency Clause	<p>(i) The Full / Partial write-down can be allowed more than once in case the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial.</p> <p>(ii) The AT-I instruments (including this issue of Perpetual Debt Instruments (PDIs)) once Written-up can be Written-Down again.</p>
Write Up Option	Available subject to conditions per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013
Loss Absorbency clause at the Point of Non-Viability of the Bank	<p>The instrument has the following features exercisable at the option of the Reserve Bank of India, upon the occurrence of the 'Point of Non-Viability (PONV) Trigger:</p> <ol style="list-style-type: none"> a. Temporary/permanent write-off, if there is no public sector injection of funds. b. Permanent write-off if there is Public sector injection of funds. <p>The amount of Perpetual Debt Instruments (PDIs) for temporary/permanent write-off will be determined by RBI.</p>
Point of Non-Viability (PONV) Trigger	<p>As per Basel-III Guidelines, the 'Point of Non-Viability (PONV) Trigger' event is the earlier of :-</p> <ol style="list-style-type: none"> a. A decision that a temporary/permanent write-off, without which the Bank would become 'Non-viable', is necessary, as determined by the Reserve Bank of India; and

	<p>b. The decision to make a public sector injection of capital, or equivalent support, without which the Bank would have become 'Non-viable', as determined by the relevant authority. The write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. The AT-1 instruments (including this issue of Perpetual Debt Instruments) with write-off clause will be permanently written-off if there is public sector injection of funds.</p> <p>The Trigger at PONV will be evaluated both at Consolidated and Solo level and breach at Either level will Trigger temporary/permanent write-off.</p> <p>The clauses related to the Loss Absorbency criteria, the process to determine 'PONV' and the operation of the clause in various circumstances are per Annex 16 of RBI Master circular on Basel-III Capital Regulations July 1, 2013</p>
Limits on Exercise of temporary/permanent write-off Option at the Point of Non-Viability of the Bank	The write-down can be allowed more than once if the Bank hits the Pre-specified Trigger level subsequent to the First write-down which was partial. The Perpetual Debt Instruments (PDIs) once written-up can be written-down again.
Order of Write-down of Various Types of Regulatory Capital Instruments at Objective Pre-specified Trigger and PONV	<p>The Basel-III Compliant Perpetual Debt instruments shall be written-down in the order in which they shall absorb losses in a Gone Concern situation as per RBI guidelines / directives. The sequencing/ Ranking for Temporary write-down or Permanent Write-Off of various types of Basel-III Compliant Regulatory Capital instruments issued by the bank/ will be issued in future by the Bank is mentioned below:-</p> <p>a. In the event of occurrence of Loss Absorption Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV), the Common Equity Capital shall be written down first. The Common Equity Share holders shall rank paripassu amongst themselves for Loss</p>

	<p>Absorption.</p> <p>b. All the Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) qualifying as Additional Tier-1 instruments issued by the bank/to be issued in future by the Bank, which have Loss Absorption Clause at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV) as per the terms and conditions of the issue(s) shall rank <i>pari-passu</i> amongst themselves and hence shall be Temporarily written-down (Full/partial) or Permanently Written-Off (Full/partial) in <i>pari-passu</i> upon the occurrence of Loss Absorption Trigger Events at the Objective Pre-specified Trigger point and Point of Non-Viability (PONV). The Write Down of PDI instruments, as mentioned above, shall be done subsequent to the Write-Down of Common Equity Capital.</p> <p>c. All the Basel-III Compliant Tier 2 bonds issued by the Bank/ to be issued in future by the bank which have Loss Absorption Clause upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as per the terms and conditions of the issue (s) shall rank <i>pari-passu</i> amongst themselves and hence shall be Temporarily written-down or Permanently Written-Off in <i>pari-passu</i> upon the occurrence of the Trigger event of Point of Non-Viability (PONV) as decided by RBI. However, the Basel-III Compliant Tier II bonds shall absorb losses only if Basel-III Compliant Perpetual Debt Instruments (PDIs) (including this Tranche) issued by the Bank with Loss Absorbency Clause in their terms and conditions have been written down/written-off and such written down/written-off is insufficient to absorb the losses fully/ or to the extent of amount as decided by the RBI to restore the viability of the Bank.</p>
Treatment of the instrument in Insolvency	The Perpetual Debt Instruments (PDIs) instrument shall not contribute to liabilities exceeding assets if such a balance sheet test forms part of a requirement to prove insolvency under any law or otherwise.
Re-Capitalization of the Bank	i. The investors cannot hinder Re-Capitalization of the Bank, if needed.

	The Bank shall not compensate investors of this issue of Perpetual Debt Instruments (PDIs) if a new Capital Instrument is issued at a lower price during at the currency of this Perpetual Debt Instruments (PDIs).
Cross Default	Not applicable
Treatment of Basel-III compliant PDI instrument of Re-Constitution / Amalgamation/ Acquisition / Winding-Up / Liquidation of the Bank	As per terms and conditions specified in Annex 16 of RBI master circular on Basel-III Capital Regulations, (<i>Paras 2.9 to 2.15 and para 3.9</i>), dated July 1, 2013

Tier 2 Capital Instruments

1) Instrument	Unsecured, Redeemable Non Convertible, Subordinated Bonds in the nature of promissory notes
Credit Rating	'LAA-' by ICRA & 'CARE AA-' by CARE
Issue Size	Rs. 100 Crore plus Greenshoe Option upto Rs.80 Crore

Provisions related to Cross Default Clause	Not applicable
Trustee	Axis Trustee Services Ltd.
Loss Absorbency	<p>The bonds shall be subjected to loss absorbency features applicable for non-equity capital instruments vide RBI Master Circular DBOD.No.BP.BC.6/21.06.201/2014-15 dated July 1, 2014 on Basel III capital regulations read along with RBI circular DBOD.No.BP.BC.38/21.06.201/2014-15 dated September 1, 2014 on Implementation of Basel III Capital Regulations in India - Amendments covering Criteria for inclusion of debt capital instruments as Tier 2 capital and minimum requirements to ensure loss absorbency of additional Tier 1 instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the Point of Non-viability ("PONV")</p> <p>Accordingly, the Bonds may at the option of RBI either be permanently written off or temporarily written off on the occurrence of the trigger event called the Point of Non Viability (PONV). PONV trigger event shall be as defined in the aforesaid RBI Circular and shall determined by the RBI</p>
Point of Non Viability (PONV) and special features	<p>The present issue of Bonds is being made in pursuance of Master Circular DBOD.No.BP.BC.6/21.06.201/2014-15 dated July 1, 2014 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments as Tier 2 Capital and Minimum Requirements to ensure loss absorbency of Additional Tier 1 instruments at pre-specified trigger and of all non-equity regulatory capital instruments at the PONV read along with RBI circular DBOD.No.BP.BC.38/21.06.201/2014-15 dated September 1, 2014 on Implementation of Basel III Capital Regulations in India - Amendments and as amended from time to time. As per the extant instructions issued by RBI, these Bonds, at the option of the Reserve Bank of India, shall be written off upon the occurrence of the trigger event, called the ' Point of Non-</p>

PONV Trigger

Viability (PONV) Trigger' stipulated below :

(i) The PONV Trigger event is the earlier of: decision that a write-off without which the firm would become nonviable, is necessary, as determined by the Reserve Bank of India; and the decision to make a public sector injection of capital, or equivalent support, without which the firm would have become non-viable, as determined by the relevant authority. The Write-off of any Common Equity Tier 1 capital shall not be required before the write off of any Non-Equity (Additional Tier-I and Tier 2) regulatory capital instrument.

(ii) Such a decision would invariably imply that the write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. As such, the contractual terms and conditions of these instruments shall not provide for any residual claims on the issuer which are senior to ordinary shares of the bank (or banking group entity where applicable), following a trigger event and when write-off is undertaken.

For the purpose of the above, a non-viable bank will be: A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the bank should be considered as the most appropriate way to prevent the bank from turning nonviable. Such measures would include write-off / conversion of non-equity regulatory capital into common shares in combination with or without other measures as considered appropriate by the Reserve Bank.

Write-off Features

These instruments are subject to write-off upon the occurrence of the trigger event called PONV as determined by Reserve Bank of India. The amount of non-equity capital to be written-off will be determined by RBI. When a bank breaches the PONV trigger and the equity is replenished through write-off, such replenished amount of equity will be excluded from the total equity of the bank for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining capital conservation buffer. However, once the bank has attained total Common Equity ratio as defined in Table Minimum Capital Required under section 4.19 without counting the replenished equity capital, that point onwards, the bank may include the replenished

equity capital for all purposes. The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger write-off.

Treatment in Bankruptcy / Liquidation The Bondholders shall have no rights to accelerate the repayment of future scheduled payments (coupon or principal) except in bankruptcy and liquidation of the Issuer.

If a bank goes into liquidation before these instruments have been written-down, these instruments will absorb losses in accordance with the order of seniority indicated in the offer document and as per usual legal provisions governing priority of charges. If a bank goes into liquidation after these instruments have been written-down, the holders of these instruments will have no claim on the proceeds of liquidation.

Amalgamation of a banking company

If a bank is amalgamated with any other bank before these instruments have been written-down, these instruments will become part of the corresponding categories of regulatory capital of the new bank emerging after the merger. If a bank is amalgamated with any other bank after the non-equity regulatory capital instruments have been written-down permanently, these cannot be written-up by the Amalgamated entity. If the relevant authorities decide to reconstitute a bank or amalgamate a bank with any other bank under the Section 45 of BR Act, 1949, such a bank will be deemed as non-viable or approaching non-viability and both the pre-specified trigger and the trigger at the point of non-viability for write-down of these instruments will be activated. Accordingly, these instruments will be fully written-down permanently before amalgamation / reconstitution in accordance with these rules.

Order of write-down of various types of capital instruments

The capital instruments shall be written-off in order in which they would absorb losses in a gone concern situation. The capital instruments shall absorb losses in accordance with the order of seniority and as per usual legal provisions governing priority of charges.

Criteria to Determine the PONV

The above framework will be invoked when the Bank is adjudged by Reserve Bank of India to be approaching the point of non-viability, or has already reached the point of non-viability, but in the views of RBI:

- a) there is a possibility that a timely intervention in form

of capital support, with or without other supporting interventions, is likely to rescue the Bank; and

- b) if left unattended, the weaknesses would inflict financial losses on the Bank and, thus, cause decline in its common equity level.

The purpose of write-off of the Bonds shall be to shore up the capital level of the Bank. RBI would follow a two-stage approach to determine the non-viability of the Bank. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Bank approaching non- viability and, therefore, a closer examination of the Bank's financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Bank is about to become non-viable. These criteria would be evaluated together and not in isolation.

Once the PONV is confirmed, the next step would be to decide whether rescue of the Bank would be through write-off alone or write-off in conjunction with public sector injection of funds.

The trigger at PONV shall be evaluated both at consolidated and solo level and breach at either level shall trigger write-off. As the capital adequacy is applicable both at solo and consolidated levels, the minority interests in respect of capital instruments issued by subsidiaries of the Banks including overseas subsidiaries can be included in the consolidated capital of the banking group only if these instruments have pre-specified triggers/loss absorbency at the PONV. The cost to the parent of its investment in each subsidiary and the parent's portion of equity of each subsidiary, at the date on which investment in each subsidiary is made, is eliminated as per AS-21. So, in case of wholly-owned subsidiaries, it would not matter whether or not it has same characteristics as the Bank's capital. However, in the case of less than wholly owned subsidiaries, minority interests constitute additional capital for the banking group over and above what is counted at solo level; therefore, it should be admitted only when it (and consequently the entire capital in that category) has the same characteristics as the Bank's capital. In addition, if the Bank wishes the instrument issued by its subsidiary to be included in the consolidated group's capital, the terms and conditions of that instrument must specify an additional trigger event.

The additional trigger event is the earlier of:

- a) a decision that write-off of the Bonds, without which

	<p>the Bank or the subsidiary would become non-viable, is necessary, as determined by the Reserve Bank of India; and</p> <p>b) the decision to make a public sector injection of capital, or equivalent support, without which the Bank or the subsidiary would have become non-viable, as determined by the Reserve Bank of India. Such a decision would invariably imply that the write-off of the Bonds consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted.</p> <p>In such cases, the subsidiary should obtain its regulator's approval/no-objection for allowing the capital instrument to be converted/written-off at the additional trigger point referred above.</p> <p>Any common stock paid as compensation to the holders of the Bonds must be common stock of either the issuing subsidiary or the Bank (including any successor in resolution).</p>
<p>Applicable RBI Guidelines</p>	<p>The present issue of Bonds is being made in pursuance of Master Circular DBOD.No.BP.BC.6/21.06.201/2014-15 dated July 1, 2014 issued by the RBI, covering Prudential Guidelines on Implementation of Basel III Capital Regulations in India covering Criteria for Inclusion of Debt Capital Instruments, read along with RBI circular DBOD.No. BP.BC.38/21.06.201/2014-15 dated September 1, 2014 on Implementation of Basel III Capital Regulations in India - Amendments (as amended from time to time).</p>
