5. Industry Outlook & Impact on HSCC

According to India Brand Equity Foundation (IBEF), the government has targeted an investment of Rs. 25 lac crores in infrastructure sector over a period of three years, which will include Rs. 8 lac crores for developing 27 industrial clusters and an additional Rs. 5 lac crores for road, railway and port connectivity projects. According to IBEF publications, the Indian real estate market is expected to touch US\$ 180 billion by 2020, representing a compounded annual growth rate (CAGR) of 11.2% in the period FY 2008-2020.

Indian healthcare delivery system is categorised into two major components - public and private. The public healthcare system comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centres (PHCs) in rural areas. The private sector provides majority of secondary, tertiary and quaternary care institutions with a major concentration in metros, tier I and tier II cities.

According to IBEF report on healthcare industry in India, the healthcare expenditure stood at Rs. 7.40 lac crores in 2016. About 65.00% of it was accounted by healthcare delivery which includes hospitals, nursing homes, diagnostic centres and pharmaceuticals. The sector is expected to grow at 26.30% per annum to Rs. 18.70 lac crores by 2020 as opposed to the growth of 11.80% between 2008 and 2016.

Healthcare infrastructure shall contribute sizeably to the growth with increasing public spending reflected in the budget 2017-18 which allocated Rs. 48,878.00 crores (~2.30% of budget) from Rs. 39,879.00 crores (~2.00% of budget), representing y-o-y growth of 22.00%. The government is also implementing a universal health plan to that aims to increase healthcare coverage across the country; this plan envisages an investment of Rs. 1.60 lac crores over next 4.00 years.

In 2015, India had 3,601.00 Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy (AYUSH) Hospitals, 1,56,926.00 sub-centres and 1,96,312.00 hospitals and nursing homes. There were 215.00 private medical colleges and 189.00 government medical colleges. At these levels, India's healthcare infrastructure stood at 1.00 hospital bed per 1,000.00 individuals as compared with the global median at 2.90 hospital beds per 1,000.00 individuals. According to the IBEF report, there is an opportunity to add 1.80 million hospital beds by 2025 and scope to add 1.54 million doctors and 2.40 million nurses.

This expected growth in physical healthcare infrastructure along with the investment in digital infrastructure through both private and public enterprises shall propel the demand for services by engineering firms engaged in provision of construction services for healthcare infrastructure among other infrastructure.

Key Industry Characteristics

- Major Employment Generator – According to IBEF, real estate market in India is the second largest employer after agriculture. It is ranked 3rd among the 14 major sectors in terms of direct, indirect and induced impacts in the overall economy.
- Fragmented Industry Structure – The industry has lower entry barriers and limited capital requirement to set up an EPC or PMC company, enabling several small companies to start business by hiring talented engineers required to carry-out business activities. The industry is

HSCC (India) Limited
Preliminary Information Memorandum
October 2017

constituted by both private and government players with government entities largely set up to cater to infrastructural requirements of the country.

- Low working capital requirements – PMC industry requires negligible working capital financing as the advance is received for execution of construction contract from the party awarding the contract while payments are released to EPC companies for construction on achieving milestones.
- High intensity of competition – Due to presence of several small companies which house talented pool of engineers, there is high intensity of competition. However, as bidding remains the most preferred way of choosing a contractor, competition can be limited by way of putting minimum qualifying criteria, while inviting bids, in the form of financial health of the company, years of experience, order book size, sector experience, etc.
Further, in case of government agencies awarding work, large contracts are often awarded via nomination to government owned PMC and EPC companies.
- Susceptible to external environment – The completion of a project is often subjected to receiving multiple approvals from several central and state regulatory bodies such as pollution boards, airport authority, ministry of environment, ministry of forest, etc. Receiving such approvals in a timely manner can be a hurdle for most projects. Further, land acquisition also poses a problem at times due to unfair compensation offered to the land owners that can lead to stalling the project after it has started from the protesting land owners and activists.

Key Future Growth Drivers of Industry that Impact HSCC

As HSCC's corporate objectives include both healthcare infrastructure and diversification into other sectors, it is likely to benefit from the current industry developments and government initiatives that target to address the low capacity of healthcare infrastructure, housing shortage and upgrading of cities under specific missions of the central government.

- Government's focus on healthcare – In 2017-18 budget, the government increased the allocation to healthcare which in absolute terms represents a y-o-y increase of 22%. The government is likely to increase its focus on healthcare going forward.
- Pradhan Mantri Awas Yojana (PMAY) – Housing for All by 2022 – Launched on 25th June 2015, PMAY anticipates construction of 2.00 crores housing units till 2022 in the economically weaker section (EWS) and low-income group (LIG) segments. The RBI is assisting this mission by offering interest rate subvention of housing loans for such housing units. The scheme is proposed to be implemented in three phases:
Phase 1 – April 2015 to March 2017 to cover 100.00 cities selected from states/urban territories
Phase 2 – April 2017 to March 2019, to cover additional 200.00 cities
Phase 3 – April 2019 to March 2022, to cover all other remaining cities
- Smart Cities Mission – In June 2015, Ministry of Urban Development laid down the guidelines for formulation, approval and execution of projects under the Smart City Mission which will cover

100.00 cities by 2019-20. According to IBEF, investments worth Rs. 50,802 crores were projected over five years with Public Private Partnership (PPP) being a major vehicle of resource mobilisation.

OFFICE MEMORANDUM

Sub: Guidelines for qualification of Bidders seeking to acquire stakes in Public Sector Enterprises through the process of disinvestment

Government has examined the issue of framing comprehensive and transparent guidelines defining the criteria for bidders interested in PSE-disinvestment so that the parties selected through competitive bidding could inspire public confidence. Earlier, criteria like net worth, experience etc. used to be prescribed. Based on experience and in consultation with concerned departments, Government has decided to prescribe the following additional criteria for the qualification / disqualification of the parties seeking to acquire stakes in public sector enterprises through disinvestment:

- a) In regard to matters other than the security and integrity of the country, any conviction by a Court of Law or indictment / adverse order by a regulatory authority that casts a doubt on the ability of the bidder to manage the public sector unit when it is disinvested, or which relates to a grave offence would constitute disqualification. Grave offence is defined to be of such a nature that it outrages the moral sense of the community. The decision in regard to the nature of the offence would be taken on case to case basis after considering the facts of the case and relevant legal principles, by the Government.
- b) In regard to matters relating to the security and integrity of the country, any charge-sheet by an agency of the Government / conviction by a Court of Law for an offence committed by the bidding party or by any sister concern of the bidding party would result in disqualification. The decision in regard to the relationship between the sister concerns would be taken, based on the relevant facts and after examining whether the two concerns are substantially controlled by the same person/persons.
- c) In both (a) and (b), disqualification shall continue for a period that Government deems appropriate.
- d) Any entity, which is disqualified from participating in the disinvestment process, would not be allowed to remain associated with it or get associated merely because it has preferred an appeal against the order based on which it has been disqualified. The mere pendency of appeal will have no effect on the disqualification.
- e) The disqualification criteria would come into effect immediately and would apply to all bidders for various disinvestment transactions, which have not been completed as yet.

- f) Before disqualifying a concern, a Show Cause Notice why it should not be disqualified would be issued to it and it would be given an opportunity to explain its position.
- g) Henceforth, these criteria will be prescribed in the advertisements seeking Expression of Interest (EoI) from the interested parties. The interested parties would be required to provide the information on the above criteria, along with their Expressions of Interest (EoI). The bidders shall be required to provide with their EoI an undertaking to the effect that no investigation by a regulatory authority is pending against them. In case any investigation is pending against the concern or its sister concern or against its CEO or any of its Directors/Managers/employees, full details of such investigation including the name of the investigating agency, the charge/offence for which the investigation has been launched, name and designation of persons against whom the investigation has been launched and other relevant information should be disclosed, to the satisfaction of the Government. For other criteria also, a similar undertaking shall be obtained along with EoI.
