And our call centers will help you register your claims during emergencies to you. So make sure that you don't have to do without your vehicle for longer than its absolutely necessary.

At what value do I insure my vehicle?

The Indian Motor Tariff predetermines the value for every type of vehicle, based on the age of the vehicle. It is calculated on the basis of today's showroom price of the vehicle, and decreased by the depreciation rate to be applied as per the age. This value is called the IDV or the Insured's Declared Value.

How is the premium calculated?

The basic premium is calculated as per Indian Motor Tariff. It depends primarily on the following factors: • Type of vehicle • Age of vehicle • Period of coverage • Discounts/loadings • IDV

Discounts

Appropriate Bonus / loading / discounts are taken into account while calculating your premium. Also past claims experience, security and additional features are considered.

Some of the discounts are mentioned below:

- If you do not make any claim over a period of time, a No Claim Bonus (NCB) is offered on renewals. This discount on own damage premium can go as high as 50%. However if there is any claim, the discount (NCB) will be zero for the next renewal Therefore, before making small claims, one should be careful. Especially, when you have a high NCB.
- You will get the full benefit of No Claim Bonus, even when you shift your motor insurance policy to ICICI Lombard from any other insurance company
- A further discount on the premium is also available if you opt for Voluntary Deductible** in addition to compulsory excess. Compulsory excess is the amount of the loss, which the insured has to bear in each and every claim
