Transaction Password

For enhanced security of your account, all transactions over a certain limit require a Transaction Password. Transaction Password is delivered by SMS to the mobile number that you provided. The delivery of the SMS to your mobile phone is dependent on the service of the mobile service operator. If you fail to receive the OTP through SMS, now you can request a new OTP over IVR on your registered mobile number by clicking "IVR OTP" Button. "IVR OTP" button will be activated in next 56 seconds. Once you click on "IVR OTP" button, the password sent through SMS will be invalid. Please enter the Transaction Password delivered to you via SMS to authorize the transaction.

The Transaction Password is sent to you on your mobile number

Enter Transaction Password

Select the "Modify Profile"
